Subject Compliance with EPA Asbestos Regulation

PLAINTIFF'S EXHIBIT
tabbies
UCC-2420

Gentlemen:

Enclosed is a copy of an outline received from Mr. R. A. Huber, maintenance operations manager for SHARE. This letter provides guidance for compliance with the EPA regulation, 40CFR61, Hazardous Air Pollutants, as it applies to the removal and disposal of asbestos-containing insulation and the notification of regulatory authorities. The outline summarizes the key requirements and suggests a standard format for notifying agencies.

Please extend this information to those departments in Field Construction responsible for this type of work. Ask that they thoroughly review their procedures and implement any changes that are considered necessary to comply with the removal and disposal requirements.

If you have any questions, please do not hesitate to contact us.

Best regards,

S. D. Herzog
