INDUSTRIAL HYGIENE - ENVIRONMENTAL PROTECTION

ENVIRONMENTAL HAZARD REPORT

DATE May 3, 1977 TIME _____

PERSON REQUESTING ASSISTANCE W. T. Shelton

LOCATION Bldg. 704 Shop DEPARTMENT Services

IH DEPARTMENT CONTACT Bill Blythe

REQUEST Monitor insulation stripping operation in Bldg. 770 Room 159.

ACTION TAKEN Personal and area samples were taken during the operation. People were working nearby so great care was taken to wet insulation with water before removal to keep down the dust. The concentration indicated by the sample wore by Mr. Monin, who wore a respirator, was 0.13 fibers/cc while the two area ~~concentrations~~ samples indicated concentrations of 0.17 fibers/cc and 0.08 fibers/cc The OSHA 8 hour TWA Threshold Limit Value is 2 fibers/cc
