File

I am attaching a rough schedule of orders to be shipped from King City to domestic customers for the month of April. It is based on orders on-hand plus verbal information received from King City and our sales group. As it undoubtably contains some inaccuracies, we should make an effort to get it corrected and updated as soon as possible. Following that it will be up to you to let us know what responsive logistical flexibility will be required on our part in order to best satisfy our customers' needs.

Apparently GAF will be signing a letter of intent for future purchases based on our satisfying their present requirements for 300 tons of SG-103 per month. To the best of my knowledge, we presently have agreements with the following customers to supply them the indicated monthly tonnages until the asbestos supply situation is normalized:

GAF	- 300	Tons
Flintkote	- 100	"
Armstrong	- 125	"
Kentile (Chicago)	- 270	"
Kentile (Brooklyn)	- 112	"
Total	907	"

For obvious reasons we should not exceed these requirements this month unless it is acceptable to you.

Gordon L. Dickson
