Att: Mr. John L. Myers

Dear Mr. Myers:

Confirming our telephone conversation of October 25th, we are most appreciative of your offer resulting from our conversation relative to the testing of asbestos dust samples. We have this date forwarded to your attention ten (10) separate samples which we identified as follows:

Sample Number	ML's of Air
1	150,000
2	150,000
3	114,000
4	96,600
5	21,000
B - 36	118,800
B - 37	87,400
B - 38	118,800
B - 39	91,080
B - 40	91,080

We would appreciate your returning to us the remaining unused portion of the samples when you are through with your tests.

As I explained to you we are getting very wide discrepancies in our testing vs. our insurance company, the state and federal government tests. These particular samples were tested initially by us then by our insurance company and we felt that with your company's expertise in this matter we may be able to resolve the discrepancies which have cropped up.

We understand that you will be unable to ship asbestos in plastic bags until some time after the first of the year. We would appreciate

your advising us as soon as you are able to ship in plastic at which time our plants will consume the present paper bags and replace this inventory with plastic.

Thank you for your cooperation in the above matters.

Very truly yours

Att: Mr. John L. Myers

Dear Mr. Myers:

Please refer to my letter of October 27th, in connection with the testing of asbestos dust samples, and advise when we may expect to receive the results of the tests made on the samples which we sent to you.

Your urgent attention to this matter will be appreciated. Thank you for your cooperation.

Very truly yours
