25 Million American's has been exposed To asbestos. During World War II 4.5 Million ship yard workers were exposed. The U.S. is still over exposing APP. 1 Million People.

OSHA used most of England's data on asbestos To set Their own Standards. OSHA Standards (5 1 Millionth of a meter Mic Meters Per Cubic FT. of air.) England's Standards are ½ of This, and Considering Cuting Their own standards in half.

Using Englands STDS. you Could breath 2 Million fiber each hour. John Willis said That <u>any exposure To asbestos is To Much</u>! Two Million Fibers could Fit on The end of a Needle, and This could be a <u>deadly dose</u>.

<u>Smoking</u> and being exposed To asbestos increases Cancer risk by <u>55 Times</u>.

A Woman Worked 9 months in an Osbestos Factory in 1952. She is Now 47 and dieing of Meiosis.

A young man 32 years old Died of <u>Meiosis</u>. After Checking They Found at age 20 he had worked 2 weeks Loading Asb. sheets.

Steve McQueen was exposed slightly To asbestos while making one of his movies. Steve died of Meiosis.

Meiosis cancer can always be tracked back to asbestos exposure.

A man made his living working on Truck brakes, and his son would help him. At age 11 The boy contracted Meiosis (Lung cancer). In 1981 at age 12 The boy died, His mom & Dad said he died a terrible death. A year before his death he could do 50 push ups, Now it was all he could do To lift his leg onto his wheel chair. The mother said his muscels hurt so badly she couldn't even hug him. The parents said They wished The asbestos companies could have watched Their son Die, because They would never make any more asbestos.

asbestos production rose by 2.5% last year and will double by The year (2000?). Turner and Newall and old asbestos company in England, Now have plants in 20 difference countries.

1898 was the first warning that asbestos may be dangerous to our health.

1918 They knew asbestos was dangerous to your health.

1931 England passed their first asbestos law. (NO asbestos DUST.

IN England when a crew removes asbestos from a house, special equipment is worn. This includes 3 layers of clothes and a full face oxygen mask. They treat asbestos as if it was Radio active waste.

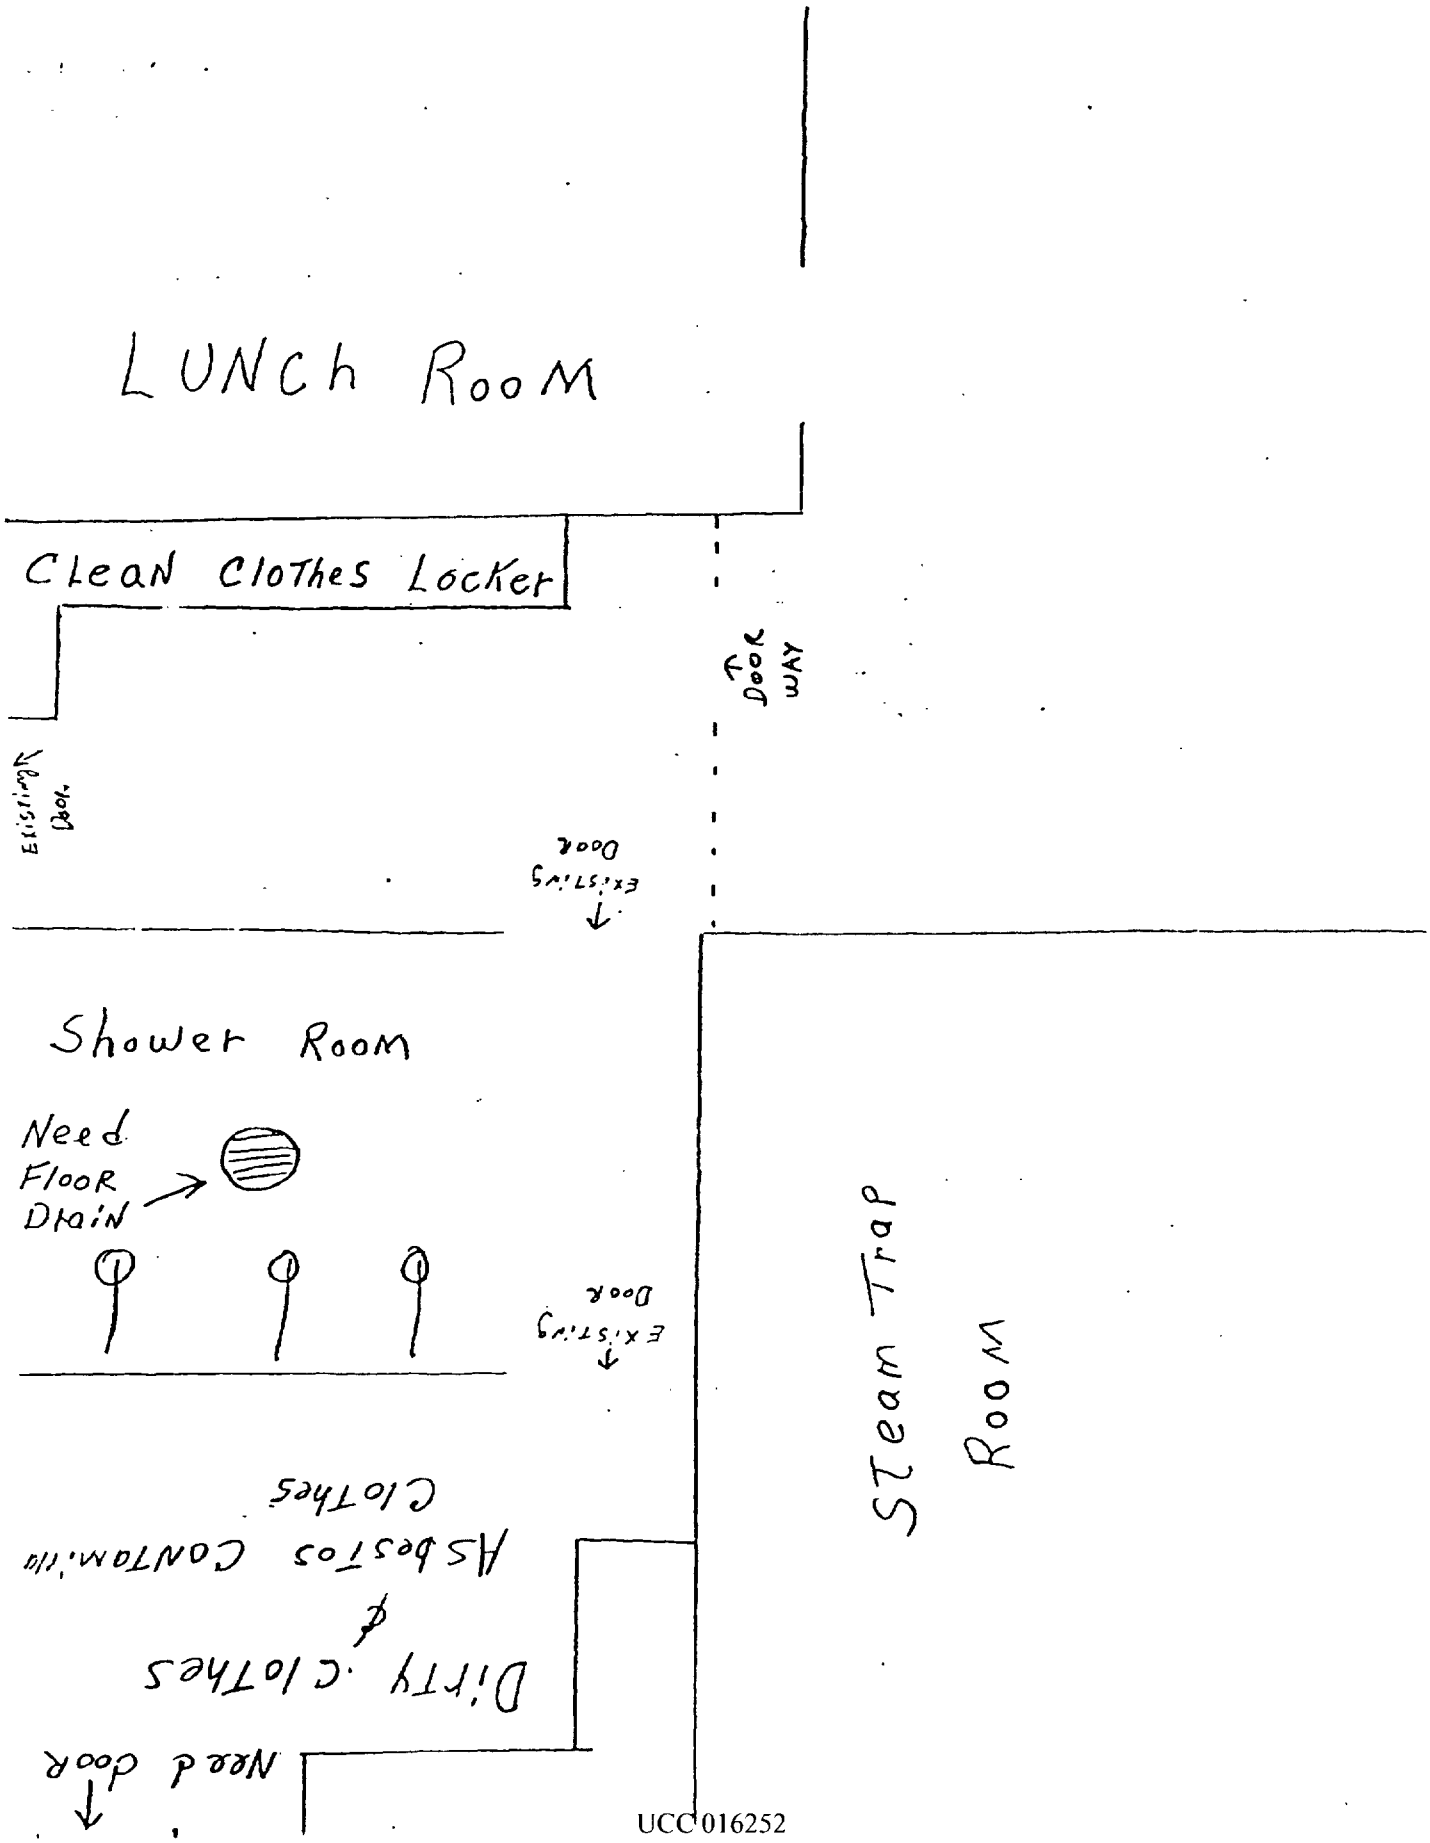

ASBESTOS

is the biggest killer known to industry. Also wives and children

Asbestos killed ordinary people who just went to work and thought it was safe.

The lesson we have learned from these poor victoms should be HEEDED.
