Accredited by American Industrial Hygiene

SCBA (aren't light)

Glove-bag technique

PLAINTIFF'S EXHIBIT
UC-2975

NOTE: Gasket material was Raybestos-Manhattan 680, Garlock HH-460, or Garlock HH-P-46C.

Need data: Old gasket removal - always wet
LEC - Will work with locations to assist if needed.
Terry will try to get field data
Worst case scenario - GBE Lab - Packing & gaskets
Wet down gasket (fine spray)
Valves: maybe use existing valves Laundue - TC Tyson - Institute
