# MEMORANDUM

June 23, 1982

TO: J. W. Karn

CC: W. F. Robinson, Jr.
L. R. Noble

Approximately 2 weeks ago you forwarded a sample of material, thought to be asbestos, to L. R. Noble of the Construction Safety Department, for analysis. This sample of insulation was removed from vent line (8" P-386-8) on the Toluene Recovery job.

I have been advised this date, by Mr. Noble, that analysis of subject sample has shown it to indeed be asbestos, as suspected.
