Subject Demolition of Asbesto
Covered Service Lines

Copy to Mr. J. W. Biddle
Mr. G. F. Hurley

Dear Mr. Shelton:

To facilitate the removal of asbestos covering on service lines, I would like to recommend that you purchase two one-gallon garden-type sprayers similar to the Hudson Model 6215.

The sprayers would be located at the upper and lower levels of the Tech Center for use by the insulators stripping asbestos covering from pipes.

The sprayer will be filled with water and used to control airborne dust and fiber in a confined area. The sprayer would be an improvement over a water bucket and wet rags.

Very truly yours,

G. W. Bott
