DIGEST

Adds IC 1971, 16-1-29-2.5 to prohibit the use of asbestos in any filter used to produce consumable fluids or foods.

# SENATE BILL No. 358

A BILL FOR AN ACT to amend IC 1971, 16-1-29 concerning public health.

*Be it enacted by the General Assembly of the State of Indiana:*

SECTION 1. Asbestos fibers have been found in many consumable foods and fluids and in the drinking water supplies of many cities. Since these fibers have also been linked to the high incidence of gastrointestinal cancer among asbestos workers, they constitute a possible health hazard to the citizens of Indiana.

SECTION 2. IC 1971, 16-1-29 is amended by adding a new section 2.5 to read as follows: Sec. 2.5. A food is adulterated if it has passed through a filter which contains asbestos in any amount. Any person who presently uses filters containing asbestos in the processing of any food shall report this use to the state board of health before November 1, 1975.

SECTION 3. Because an emergency exists, this act takes effect on July 1, 1975.
