PLAINTIFF'S EXHIBIT

UC-3430

To: Manhar Patel
Copy To: Charlie Maxwell

Don Pough has reviewed the 1984 I-H Program for the Construction Department and feels that it is very good. He does, however, want you to put some time periods or schedule as to when the monitoring will take place. He does not want specific dates but would like for us to designate the month or quarter when the monitoring would be done. I think this could be done by simply inserting the month/quarter for each subject except monitoring done "As needed" in the Frequency Column. If this is a problem or you would like to discuss it further please call. Otherwise will you add the tentative dates we expect to perform this monitoring and return a copy to me and Don P. Thanks.

Randy Wallis
