PLAINTIFF'S EXHIBIT
UC-3431

TO: R. L. Noble

COPY TO: M. L. Mills
R. C. Proffitt

SUBJECT: Asbestos Handled by Toolroom Personnel - Toolroom Waste

Randy, as you are aware, we cut gaskets from material containing asbestos in our Gasket Shop, and must dispose of scrap material from time to time.

As for toxic waste from Toolroom operation, all that I am aware of is the degreaser used for cleaning parts, and at times used air tool oil.
