SUBJECT: Asbestos Insulation Removal and Disposal - Supervisor's Report

In accordance with our Asbestos Insulation Removal and Disposal Procedure the Insulator Supervisor who performs the work must complete the attached report for every Asbestos removal job. Our experience has been that only a few of these reports have actually been completed.

I would like to recommend that you discuss this subject with your Supervisors so that we can comply with this procedure. If the Safety Department can assist you in any way, please feel free to call on us.
