UNION CARBIDE CORPORATION
P. O. BOX 8361, SOUTH CHARLESTON, W VA. 25303

December 12, 1985

Mr. Dennis Hanshew, Engineer
Compliance Division
WV Air Pollution Control Commission
1558 Washington Street, East
Charleston, WV 25311

Subject: Annual Notification of intent to renovate equipment and/or piping in 1986, involving friable asbestos. (40CFR 61.22.d)

Dear Mr. Hanshew:

The Union Carbide Corporation Technical Center may have numerous 1986 renovation activities which involve less that 180 square feet or 260 linear feet of friable asbestos insulation. Attached are the projected amounts of materials involved as per 40 CFR 61.22d.

No work is planned for 1986 which would involve demolition or the renovation of equipment or piping where 160 square feet or 260 linear feet of friable asbestos insulation or greater amount is involved. If work of this scope is required, appropriate notification as per 40 CFR 61.146 will be given in a separate notice before the start of work. If an emergency arises, notification will be sent during the work period.

Please contact me at 747-3713 should you have any questions concerning this information.

Sincerely,

R. H. Smith
