Subject Statement re Carcinogens

Dear Bob:

About two months ago a statement was prepared relative to the carcinogenic substances listed on page 10929 of Federal Register, Vol. 38, No. 85. Some changes have been made in the standard, but not in the carcinogens listed, and a revised version was published on July 27, 1973. We have had one request for a statement referenced to the July version and are likely to have more. A "form" answer would be most useful. Please let me know if the use of a form is satisfactory and if the suggested wording attached is acceptable.

In the form letter, it is assumed that the first and last sentences could be modified slightly to fit circumstances. The statement would not be altered without prior legal approval.

Thank you very much.

Very truly yours,

H. B. Rhodes
