At the recent meeting in New Orleans, I discussed a form I had developed for our asbestos workers' health hazard survey. At the meeting most of you requested that I send you a copy of our form, which is enclosed.

Dave Glenn told me at the meeting that he had developed a similar form and would send me a copy of his form so that a comparison could be made. If any of the other physicians receiving this letter have developed a form, I would appreciate receiving a copy.

Best regards,
