Mr. John Kyle
Union Carbide Corporation
Specialty Chemicals
P.O. Box 180
Sistersville, WV 26175

Dear Mr. Kyle:

Congratulations!

We have completed grading and evaluating the examinations from the May 6-9, 1986 course titled: "Safe Methods of Asbestos Removal". We are pleased to inform you that you passed the examination with a score of 84. There were 45 participants taking the examination with a mean percentage score of 83.0. Your certificate which certifies this accomplishment is enclosed.

Please help us keep the questions confidential. If you have additional suggestions for improving and updating the examination, or desire to submit questions for us to consider for future tests, please send them to us in writing.

Since the issues and techniques of asbestos abatement work are still relatively new and changing rapidly, we encourage you to remain current by attending other courses and seminars on the subject.

We will notify you of the dates of any future seminars or courses we present.

Sincerely,

Kay M. Hayes
