RE: Notification of Renovation or
Demolition Involving Friable Asbestos

Dear Mr. Wassersug,,

In accordance with requirements of 40 CFR 61.146, the following information concerning removal and disposal of friable asbestos is provided.

(1) Name of Owner - Union Carbide Corporation

Address of Owner - P. O. Box 180, Sistersville, W.V. 26175

(2) Description of facility -
Identification - Water tank for No. 1 Boiler
Size - 13 feet diameter x 50 feet high
Age - Approximately 35 years
Prior Use - Water storage

(3) Estimate of amount of friable asbestos material -
Linear feet of pipe -

Surface area (for other components) - 280 sq. meters
(3000 sq feet)

(4) Location of facility - Energy Systems, above address

(5) Scheduled starting date - October, 4, 1986
Scheduled completion date - October 10, 1986

(6),(7) Nature of planned work and method employed -

Demolition or renovation: Renovation

Deteriorated asbestos containing insulation will be wetted, in accordance with 40 CFR 61.147, and removed. It will then be replaced with non-asbestos containing insulation. It will then be disposed of, in accordance with 40 CFR 61.152.
