December 6, 1963

Mr. George T. Scriba
Union Carbide Corporation
270 Park Avenue
New York, New York 10017

Dear Mr. Scriba:

Reference is made to your letter of October 31, 1963, relative to the status of an asbestos fiber as a component of paper and paperboard.

We concur that when used consistent with the principles of good manufacturing practice asbestos as an inert filler in paper and paperboard does not have food additive status. Therefore, there is no necessity for a regulation to prescribe the use of such asbestos fiber as an inert filler in such paper and paperboard.

Sincerely yours,

Frederick A. Cassidy

Frederick A. Cassidy
Food and Drug Officer
