SALESMAN Edward J. Kleber REGION Midwest DATE OF CALL 12-5-75

PRODUCTS DISCUSSED: Cr ☐ Mn ☐ Spec. ☐ Si ☐ CaC_2 ☐ W ☐ V ☐ Asb. ☒ Other:

PERSONS INTERVIEWED: Harold Zarky - Tech. and Engineering Mgr.

Jim Milstead - Plt. Mgr.

CALL OBJECTIVE: Try to keep Chicago Mastic from ordering asbestos out of their adhesive compounds. Zarky called Hal Colberg of Technical Petroleum and asked if a UCC Asbestos man would come in and discuss the Health Situation.

RESULTS OF CALL:

Chicago Mastic is under pressure from their corporate people to remove asbestos from all their adhesives. Zarky does not want to do this, but Milstead does. We reviewed the regulations, offered a fiber count and assistance in meeting the regulations. They agreed that the first step is to find out where they stand and go from there. We will schedule a fiber count in January and hopefully demonstrate that they are within OSHA limits.

FOLLOW-UP ACTION REQUIRED:

BLI - Let's get together and schedule a fiber count.

HBR - Please call Zarky @ 312-694-2070 to discuss with him packaging and engineering methods to minimize airborne fiber.

EJK - Stay in touch with Hal Colberg on progress at this account.
