MEMORANDUM

December 16, 1983

To: T. G. Swanson

cc: W. E. Ballard
C. E. Fry
R. W. Holland, Jr., M.D.
D. G. Moshier
Maintenance Area Superintendents
Maintenance Department Heads
W. E. Williams

Subject: Asbestos ETS Delayed

From: W. C. Young

The U.S. Court of Appeals for the Fifth Circuit granted the Asbestos Information Association's request for a stay of OSHA's emergency temporary standard covering occupational exposure to asbestos.

The appellate court's order bars OSHA from lowering the permissible exposure limit for asbestos to 0.5 fibers per cubic centimeter "pending further order of the court."

A three-judge panel in New Orleans has set a hearing date of January 12, 1984. I will keep you advised of litigation results.
