INDUSTRIAL HYGIENE

August 1, 1988

Mr. Eli Bell
Executive Director
Texas Air Control Board
6330 Highway 290 East
Austin, TX 78723

Re: Renovation Notification

Dear Mr. Bell:

This is to notify you, as required by 40 CFR 61.146, that Union Carbide Corporation, Old Ridgebury Road, Danbury, Connecticut 06817, as owner, plans to engage in renovation activities as described below:

Approximately 250 square feet of insulation will be removed from a batch still column at Building 17 at 3301 5th Avenue South, Texas City, Texas 77590. The insulation is approximately 7 years old.

Removal of the insulation is scheduled to start on September 19, 1988, with completion on September 30, 1988. All asbestos containing material will be removed using the negative pressure enclosure procedure. The insulation will be sealed in properly labeled impermeable plastic bags prior to removal from the area. Procedures to be employed during removal, clean-up, and disposal will conform to the requirements in 40 CFR 61.147 and 61.152.

All asbestos containing materials removed will be disposed at Gulf Coast Waste Disposal Authority, Loop 197, Texas City, Texas.

Yours very truly,

A. Perihan Yalcinkaya

Peri,

Here is ~~H.E.A. DEPT.~~ asbestes form for the Ester's column revision project (Please discard the previous form.) Its new name is Batch still revisions (AW 58145) The project is scheduled for construction in mid-September. I will send the other forms when the construction start dates are more defined. Let me know if you have any questions.

Thanks,

Joyce

Peri,

This request is for the job - Esters Safety AW-586260. You mentioned the possibility of asbestos in the SPR routing. The columns were tested and proved to be positive for asbestos. Please let me know if you have any questions.

Thanks,

Joyce
