Mr. Ed McGillivray
Environmental Control
Conwed Corporation
Cloquet, Mn. 55720

Dear Ed:

First of all, work is progressing on the samples we collected last week and, as suspected, the dust levels look quite low. We hope to have a report issued very soon.

I have enclosed some manufacturers literature for M.S.A., Millipore and Edmund Scientific. I would suggest writing for their catalogs, but in the interim these Xerox copies should give you an idea of some of the equipment involved should Conwed wish to set up its own dust monitoring operation.

I would appreciate it if you would keep me informed when the next car of asbestos is being shipped. I certainly don't want to miss this one and the more advance notice I have the easier it will be to schedule another trip to Cloquet.

If we can be of any assistance please don't hesitate to call or write either Tom Norris or myself.

We look forward to seeing you again in the near future.

Best regards.

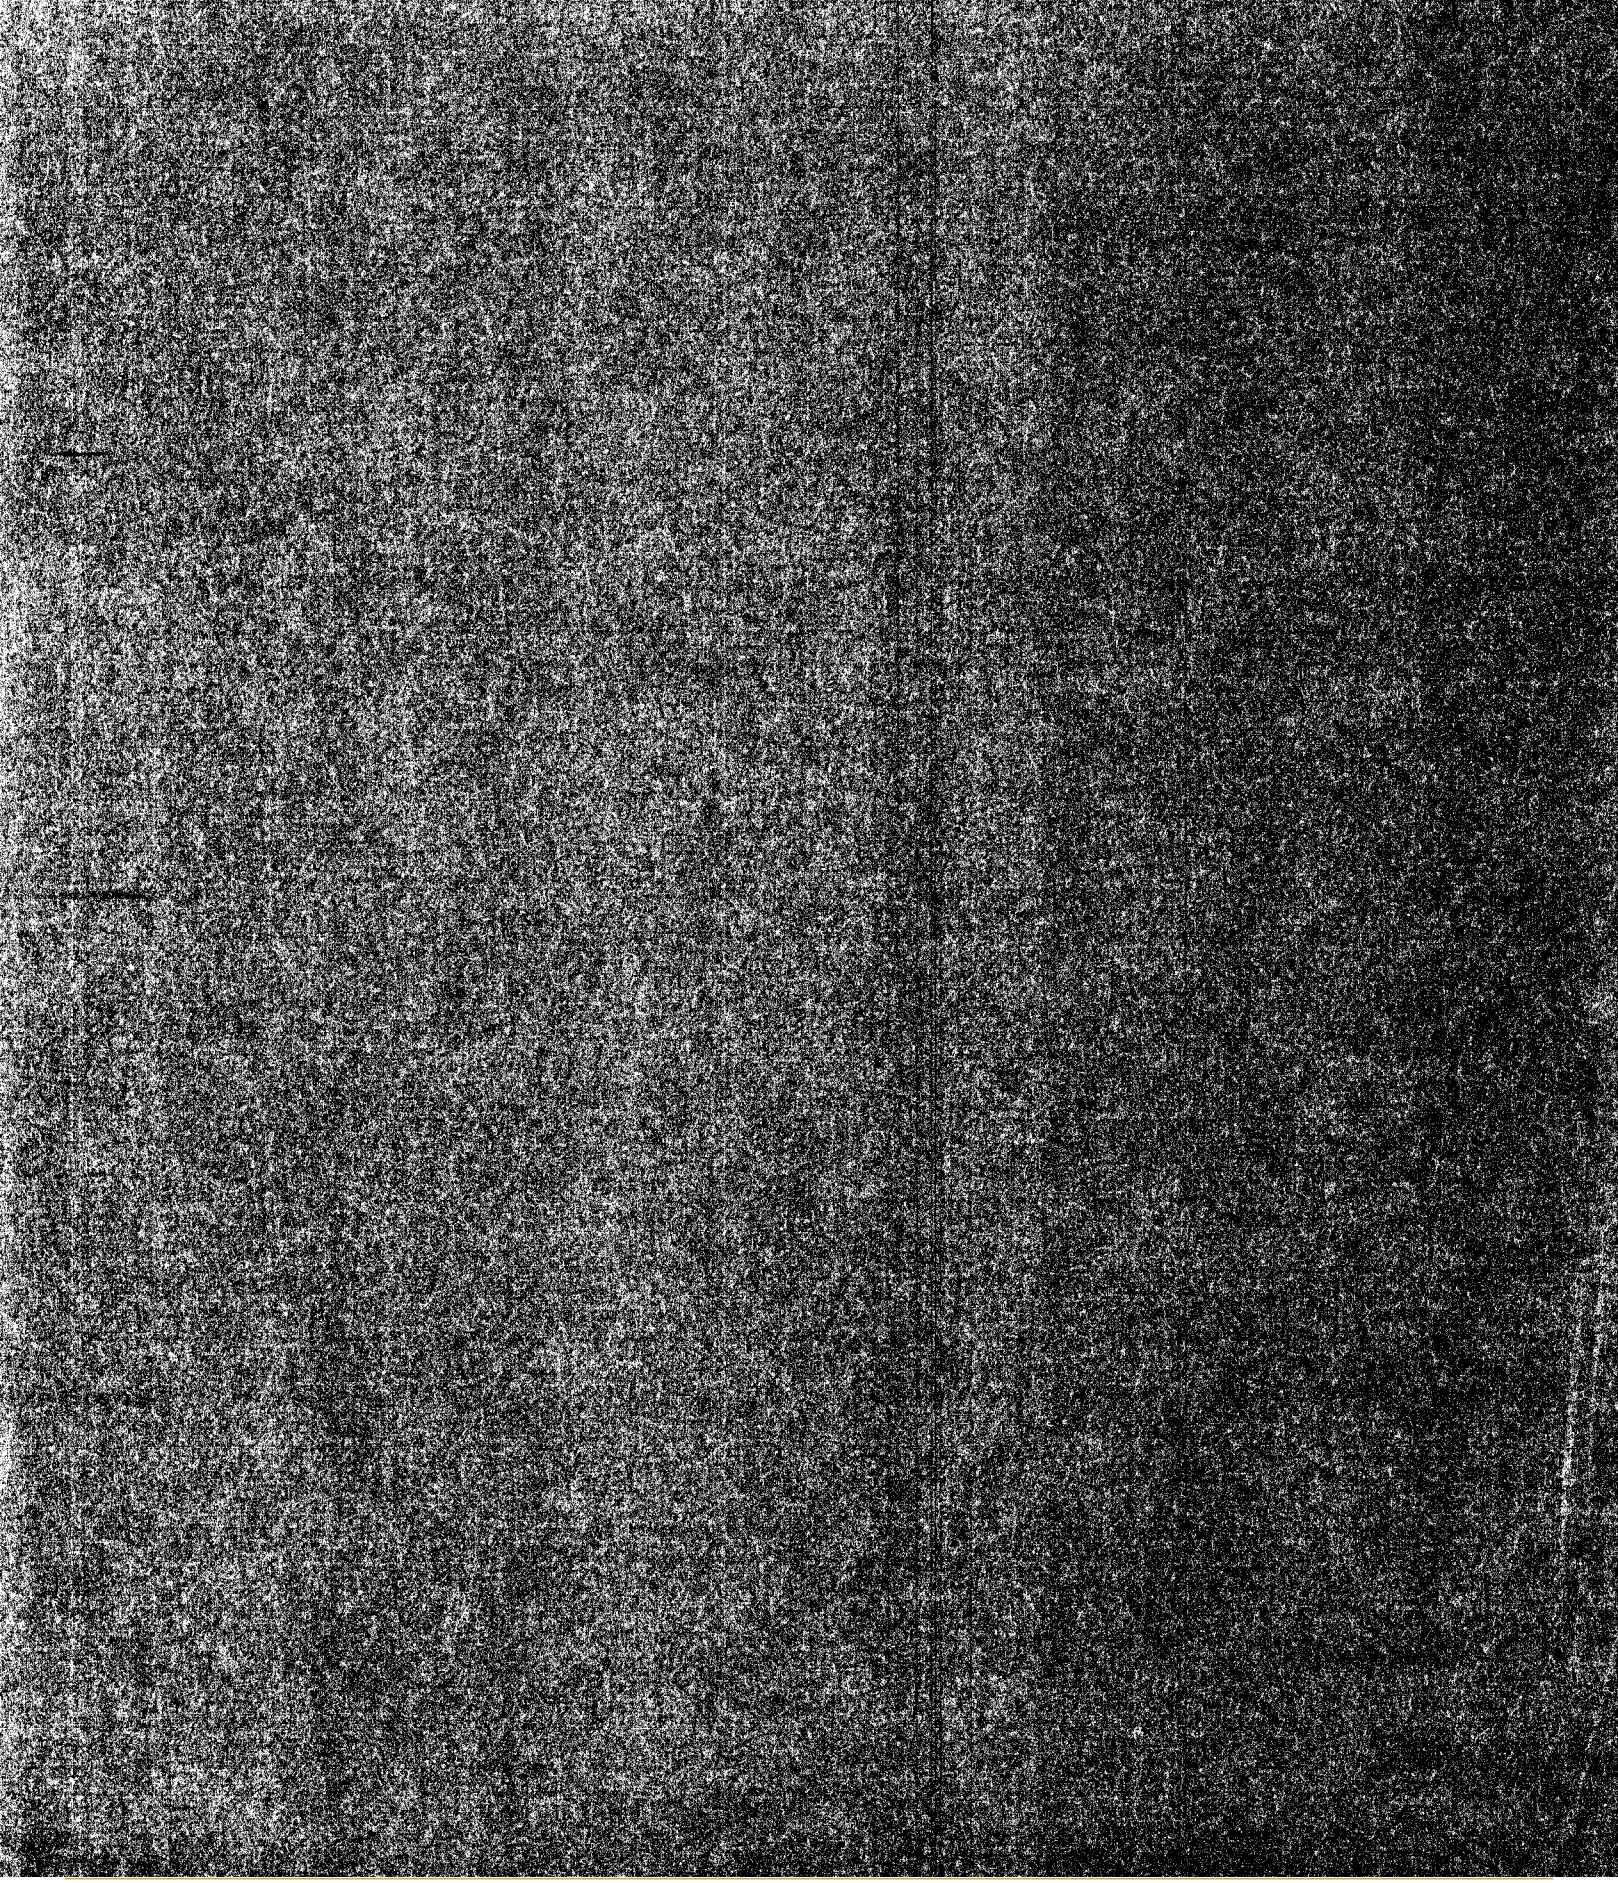

Very truly yours,

E. J. Kleber
Customer Service Representative
