CUSTOMER CALL REPORT

CUSTOMER & LOCATION: CHEVRON RESEARCH CO.
Richmond, CA 94802

INDUSTRY CLASSIFICATION: GREASE

SALESMAN: T. P. NORRIS REGION: WESTERN DATE OF CALL: 12/17/81

ASBESTOS HEALTH & REGULATORY DOCUMENTS PROVIDED:

- ☐ MSDS
- ☐ Health & OSHA Information Blue Book
- ☐ Dust Count Report
- ☐ Other, specify below

PRODUCTS DISCUSSED: Asbestos

PERSONS INTERVIEWED: K. A. Frost, Sr. Research Associate
P. F. Vartanian, Research Chemist
J. E. Stemke, Research Chemist

CALL OBJECTIVE:

Discuss RG-244 potential in Greases.

RESULTS OF CALL:

Ken Frost opened the meeting by asking what was new in the carcinogen business. I went through the usual safe handling and OSHA discussions but not sure he really believed what he heard. The RG-244 story was presented and what data we have on its used in non-soap greases.

Chevron purchases only soap greases with selected formulation in polyurea and synthetics. They do not use Cab o Sil nor asbestos. Chevron would have some interest if we were to improve dropping point in soap grease.

FOLLOW-UP ACTION REQUIRED:

COPIES TO: x G.H.C.
