PERSONS INTERVIEWED: Jim

CALL OBJECTIVE: Initial

RESULTS OF CALL: Small amounts of RG 144 have been used here and at other locations in past years. Attempt was to learn which grades & what supplier were used here. No info. available, and I was referred back to their Valley Forge, Pa. corporate office. The asbestos Cement market could be a big one here and we should capitalize on the success Tomac Engineering is having replacing T&D. Number domestic suppliers of A/C pipe have been dwindling; R&H closed their A/C plant and National Gypsum plant in New Orleans is up for sale.
