Re: Bid for removal of raw asbestos from attics of houses located in Lockwood, King City and Greenfield.

Dear Mr. DeAtley:

As per our discussion, submitted herewith is our bid for the above referenced subject:

A. Job Description:

1. Remove raw asbestos from attic area of three houses as listed below. Following completion of removal, an asbestos sealant is to be sprayed in the attic area to encapsulate any residual asbestos material resistant to removal.

   a. Lockwood home - 640 sq ft of attic space.
   b. King City home - 1600 sq ft of attic space.
   c. Greenfield City home - 1510 sq ft of attic space.

2. Asbestos removal will be accomplished in accordance with the provisions of the State of California DIS, Title 8, Section 5208 and Environmental Protection Agency Guidance Document. "Asbestos-Containing Materials in School Buildings - Part 2".

B. Exclusions from Bid Price:

[redacted]

a. Protection of household furnishings NOT to be responsibility of Concord Engineering, Inc.
b. Removal, replacement, or storage of household furnishings NOT to be responsibility of Concord Engineering, Inc.

2. King City home.
   a. Garage attic not included in bid price or in removal project.
   b. According to Mr. R.J. Kronkhyte, that area is free from asbestos.

asbestosclaims.law/library/19388/1

3. Disposal of asbestos from all three houses to be the responsibility of UNION CARBIDE CORP. as per agreement.

4. Price for reinsulation of attics is NOT included.

C. Bid Price: $4.50 per sq ft — $16,875 TOTAL PRICE

Attached please find a list of asbestos projects along with some letters of recommendation complimenting our performance.

Our people are versatile in working under adverse conditions - such as your project presents. As a consequence thereof, we feel we can successfully complete the project to your satisfaction.

Sincerely,

Dan A. Carrico,
Sales Manager/Field Coordinator
