ENGLAND

Dear Bert:

Please reference the attached copies of telexes between Mr. Copestake of our Sheffield office and me. I have heard nothing further; and, if you haven't, you may wish to contact Mr. Copestake directly.

With regard to your question about the IMCO "sift-proof packaging" requirement, we are in the process of determining a definition for sift-proof and other details concerning these "regulations". We feel that the shrink-film on our paper bags is adequate to meet the requirements, provdied that the shrink-film integrity is maintained. An engineering study to improve our shrink-filming is almost complete and we expect to have a new and/or improved system within a few months.

Best regards to all, especially to Eric if you see him.

Very truly yours,

John L. Myers
Marketing Manager
