NIAGARA FALLS, N. Y.

Dear Mr. Byrne:

Thank you for your copy letter dated 15th June, 1981, concerning Calidria asbestos Silica Gel 103-5 for the Marley Tile Company.

In fact, we have made contact with this company and submitted samples of Sylodex 14 and 24, but unfortunately, these materials are far too expensive for use in their vinyl floor tile product.

We are familiar with Calidria asbestos grades RG.144 and RG.244, but would be pleased to receive a sample and prices, together with health and safety data on SG-103-5.

Talking with the Marley Tile Company, they indicated that floor tile manufacturers in the States, such as Azrock and Kentile, used this product.

We await your reply with interest.

Yours sincerely,

pp W.E. Valentine
