KELLY-MOORE MEMO

TO Doug Merrill FROM William E. Moore DATE 5/6/69

SUBJECT UNION CARBIDE ASBESTOS

Sometime ago we used asbestos from Union Carbide's Coalinga plant, which worked out very well since we were able to haul the material by our trucks. I would like to give Union Carbide every opportunity to get this business back if it can be used in our products.

Would you please see if it could be substituted in as many formulas as possible and advise me of your progress.
