Dear Mr. Merrill:

You may recall that, about a month ago, we discussed a petition filed by the National Resources Defense Council demanding the banning of asbestos in patching and similar compounds intended for consumer use. A copy of the Asbestos Information Association/North America's response to this petition is attached. Action by the CPSC is expected in the near future. I want to thank you for your assistance in providing the information needed for this response. It was a pleasure talking with you again. If you have any questions, please give me a call.

Very truly yours,

Harry
