CUSTOMER CALL REPORT

CUSTOMER & LOCATION American Paint St. Louis, MO INDUSTRY CLASSIFICATION Paint

SALESMAN Edward J. Kleber REGION Midwest DATE OF CALL 5/2/79

ASBESTOS HEALTH & REGULATORY DOCUMENTS PROVIDED:

- ☐ MSDS
- ☐ Health & OSHA Information Blue Book
- ☐ Dust Count Report
- ☐ Other, specify below

PERSONS INTERVIEWED: Bill Reckel - President

CALL OBJECTIVE: Follow-up on RG-244 samples.

RESULTS OF CALL:

Bill reports that RG-244 works well in a couple of large volume block fillers. Test panels are now out for tropical weather testing and results should be known in July.

He has only one reservation about using asbestos. The standard procedure for preparing a surface for painting with a block filler is sandblasting. Bill wants to know what happens if a paint containing our material is sandblasted. I told Bill I vaguely remembered some sandblasting work we did and I would report the results.

FOLLOW-UP ACTION REQUIRED:

EJK - Obtain results of sandblast tests and forward to Bill.

- Check in next time in town.

COPIES TO: JRL:TPN:JEW:KC-FILE:NF-FILE NF PERMANENT FILE ☐
