UC-5115

ATTACHMENT II

## STUDIES TO BE REPORTED

(Health and Safety Studies not Specifically Exempted.)

A. Copies of Studies (Final Reports)

- Any study of any effect of a chemical substance on health or the environment or on both, including:
  - Epidemiology studies (HS&EA will provide)
  - Industrial hygiene studies (occupational exposure)
  - Toxicological studies
  - Clinical studies
  - Ecotoxicological and related studies (includes specified physical and chemical properties)

  ALSO:

  - Monitoring studies (October 4, 1977 to date) when aggragated and analyzed to measure the exposure of humans or the environment to a chemical on the list.

B. List of Studies

- List of ongoing health and safety studies initiated by UCC or being conducted for UCC.
- Unpublished studies which UCC is aware of but does not have copies (those mentioned in UCC files subject to search).
