Subject Japanese Warning Label

Copy to Messrs. E. W. Shortridge
R. L. Schult
W. C. Thurber
File

Enclosed are enlarged copies of the Subject and the negatives from which they were made. Perhaps your bag supplier can use these to provide the imprint on new bags. Tomoe suggests that we contact Mr. Takakura or Mr. Ito of Meiko (Linda knows them) if help is needed to assure that the characters say what is needed.

I think we could put this legend on all bags (wherever it could be fitted in) that might go to Japan. I see no need for separate bag inventories. The "65%" label goes on T-135 and the "100%" on all others.
