UNION CARBIDE CORPORATION

P.O. Box 579 Niagara Falls, N.Y. 14302

R. T. Larkin, J. Rittenberg (H&C)

By R. E. Byrne

Date 2/23/71

Full Name Silmar Chem. Corp. Address 12335 S. Van Ness Ave. Hawthorne, Calif. 90250 Mfrs. of	Interviewed O. Zaske L. Bedighian

OBJECTIVE

Stimulate interest in RG-244.

DISCUSSION

Both Zaske and Bedighian were concerned about asbestos toxicology. They seeme to be satisfied by our dissertation of our "mid-1970 status". They requested a copy of same. (We heard this question often on this trip and also that UCC was considering dropping the asbestos business.)

They agreed that they should re-evaluate, especially in view of the fact that others are using 244. To this end they will send a sample of their resin to NF to be mixed with 244 and sent back for their evaluation.

FUTURE ACTION

Continued follow up by H&C.

REB - Supply toxicology data and prepare sample when it arrives.
