PERSONS INTERVIEWED:

Ron Kent Purchasing Superintendent
Joe Pufahl Buyer

CALL OBJECTIVE:

Call made on T/L RG144 customer.

RESULTS OF CALL: Kent has finally filled the purchasing job which has been open for over a year. He is still getting his feet wet, so he has continued to leave most of the raw material purchases up to Joe and Bettie Ficklin. Joe's records indicate that we should get four more truckload orders this year including the August one we have on hand which would put them just about on line with their original forecast. They tried to farm out the Celvax production to a custom compounder because it hasn't been growing like they thought it would but were put off when they divulged that it contained asbestos. Production will continue at this location, and Joe expects to get with me in the next two months looking for a commitment on price and availability in '82.

FOLLOW-UP ACTION REQUIRED:

COPIES TO: :TPR:RFB:GML:KC-FILE:NF-FILE NF PERMANENT FILE ☐
