Ms. Helen Marsh
Johns-Manville Corporation
Ken-Caryl Ranch
Denver, Colorado 80217

Dear Ms. Marsh:

Enclosed you will find a document entitled, "Caution, Asbestos Dust...is hazardous to your health." This document is what has commonly been referred to as the "blue book" which was handed out to Norfolk Naval Shipyard employees in the early 1970's. This version was prepared by the National Institute for Occupational Safety and Health. It is believed that Johns-Manville originated or extensively authored this brochure, but we have no exact duplicate with which to compare to other similar brochures. If we could prove this fact, we could, to a degree, improve Johns-Manville's posture in our cases against Norfolk Naval Shipyard employees. The attached version was made an exhibit to the deposition of William Marr, industrial hygienist at NNS. His deposition, temporarily concluded today, should be completed next month. I am in hopes that you will be able to provide a "Johns-Manville" copy of this brochure as soon as possible in order that we may offer it as an exhibit when this deposition reconvenes.

Thanking you for your cooperation in this matter, I remain,

Very truly yours,

SEAWELL, McCOY, DALTON, HUGHES, GORE & TIMMS
