Because of your interest in asbestos and health subjects, we would like you to have this ready-reference binder, "Environmental Facts/Asbestos". It includes copies of all position papers, customer posters, employee booklets and other litereature we have published so far on the subject.

An order form is included in the back cover pocket so that you can order additional material directly from the J-M Service Center. Our supply of binders is limited though we'll be glad to supply one to a preferred customer.

As we publish new material, copies will be sent to you with an index tab so you may easily add them to the binder.

Enc.
