Dear Sirs:

At the meeting of the Quebec Asbestos Mining Association held in Montreal last Friday, it was agreed that I would circulate the alternative wording proposed by our Company's Counsel with respect to any label or imprint that might be used on bags of chrysotile asbestos fibre, and I now append such suggested wording below:

"CAUTION

This bag contains chrysotile asbestos fibre. Persons exposed to ~~asbestos dust~~ inhalation of this material should use adequate ~~personal~~ protective devices as inhalation of ~~asbestos dust~~ this material over long periods may be harmful."

You will also recall that it was our suggestion that in the opinion of our Counsel, legal liability might be equally avoided by having such cautionary wording appear on the invoice or other sales document.

Yours sincerely,

I.C. Campbell
Vice-President & Secretary-Treasurer

Mr. Paul A. Filteau

I am in favour of this wording
