MINES AND MILLS

Major Location:

Johns-Manville Canada Inc. Asbestos, Quebec, Canada (Formerly Canadian Johns-Manville Company, Limited)	Wholly-owned subsidiary of Johns-Manville Corporation. Mines chrysotile.

Interest in Other Mines & Mills:

Advocate Mines, Ltd. Baie Verte, Newfoundland	J-M Canada ownership approximately 40%. Managing partner with Eternit mining chrysotile. Eternit & J-M only customers.
Reeves Mine Ontario, Canada (approx. 1970-1975)	Owned 100% by Canadian Johns-Manvill Company, Limited. Mined chrysotile, most of which was used by J-M. Mine closed in 1975 when they ran out of fiber. Used Munro Mill.
Munro Mine Ontario, Canada (approx. 1957-1964)	Owned 100% by Canadian Johns-Manvill Company, Limited. Mined chrysotile until it ran out of fiber in 1964. Reeves used Munro Mill, as in close proximity.
Coalinga Asbestos Company, Inc. Coalinga, California (3/62-6/74)	Owned 80% by Johns-Manville Sales Corporation. Mined chrysotile (Coalinga Blue Brand).

ORIGINAL FILED

5. State whether you have controlled, purchased or in any way acquired any interest in any corporation or business entity which has mined, manufactured, produced, processed, compounded, converted, sold, merchandised, supplied, distributed, and/or otherwise placed in the stream of commerce asbestos products and if so, state:

a. The name and address of said corporation or business entity;

b. The date(s) you controlled, purchased or acquired any interest;

c. The manner of acquisition, including percentage of ownership;

d. Identify all documents with respect to the above.

ANSWER: Johns-Manville Sales Corporation owned 80% of Coalinga Asbestos Company, Inc. which operated an asbestos mine in Coalinga, California from March 1962 to June 1974. Johns-Manville Products Corporation, a subsidiary of Johns-Manville Corporation, manufactured asbestos-containing industrial thermal insulation products from 1927 until its merger into Johns-Manville Sales Corporation on December 31, 1975. Johns-Manville Canada Inc., a Canadian subsidiary of Johns-Manville Corporation, mines and mills asbestos fiber in Quebec, Canada. Canadian Johns-Manville Asbestos Limited sells raw fiber only, mined by Johns-Manville Canada Inc.

Coalinga

*0726. If so, please state:

*P (a) The reasons therefor.

*P (b) When the discontinuance took place.

*P (c) The specific product that was discontinued.

*08 ANSWER: (a) Asbestos-bearing industrial thermal insulation products have been replaced by new non-asbestos industrial thermal insulation products in a desire to improve the products and keep abreast of competition. The overriding factor in such decision was the desire to eliminate the potential of asbestos dust in a work environment where control of such dust appeared to be difficult and inconsistent, at best:
