LABOR DAY

The most permanent and the most dynamic thing in life is an idea. Certain of our ideas have general appeal and have proved their ability to serve mankind and to such we have dedicated memorial days. Memorials help us to discriminate between the permanent and the transitory and to readjust thought and action with an enriched understanding of the high power of constructive purpose and fellowship which seeks out the best in human nature.

One of the seven days which our nation has set aside as national holidays is Labor Day. Like all the others it commemorates a contribution to human well-being. Labor, justly proud of its national holiday, has faithfully tried to keep its observance in spirit and in expression worthy of the ideal. It is important for us to consider why a national holiday was instituted in honor of labor. It was not alone the power of labor organization or its numerical strength. It was not for labor as a functional group in industry or a separate class in society. But it was honor to that quality of intelligence that is creative. Human progress in every level of intelligence is the product of creative work. Creative intelligence is the distinguishing characteristic of man and marks his kinship with the eternal forces of time.

The labor movement which is essentially a method by which workers try to realize higher ideals, asked that Labor Day be set aside as a national holiday to empha

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/2

size the dignity of Labor and to call attention to the universality of creative work which underlies and penetrates our entire cultural structure. Each year in our celebration of the day, we seek to explain how Labor serves the world, what Labor needs in order to be equipped to render higher service and how to remove those things that hinder Labor's service. We hope that the impression made through such a national focus will be carried through the year's problems and result in better understanding and mutual agreements.

It is customary to think of Labor as an essential factor in industry and commerce. But because human beings who are industrially employed are also human beings with all the potentiality, yearnings, the strivings and the ideals shared by the human race, an interpretation of the labor movement that rests entirely upon an economic basis excludes that which is vital and determining.

Labor Day, 1925, shows gratifying progress for the idea to which the day is dedicated. Though there are serious industrial problems, though there is unemployment, though there are many kinds of industrial inequities, we do not feel helpless before our problems. We have methods and agencies of proven value. We have intelligence and we know the value of information. We feel competent to carry through and we have demonstrated to our dependability. We relie upon organization and education.

General President's Report

Elmhurst, L. I., July 10, 1925.

Greeting:

Proceeding from Kansas City, from which city his last report was submitted, your President journeyed to Tulsa, Oklahoma where he found Local 64 in the second week of its strike in an attempt to enforce its demand for a wage increase 25c an hour. The strike lasted five weeks and ended in a compromise settlement of 12½c increase. The Standard Asbestos Company, Tulsa branch (main office and shop Kansas City) would not "go along" with the rest of the Employers and at this writing is running a non-union shop. The attention of our membership is again called to the trade circular recently sent from our General Office to all affiliated locals dealing with this subject. The Standard shop is UNFAIR to the International in all territory OUTSIDE thirty miles from Kansas City in which latter city Local 27 has a trade agreement that will be lived up to until its expiration. Supply no men any where to the Standard Asbestos Company. From Tulsa your President went to St. Louis, where he did certain work of Executive nature at the General Office in conference with Secretary McNamara. Then on to Cincinnati and a conference with Business Agent Cook and later attendance at a meeting of Local 8, where advice and decision on local issues were given. On the occasion of this visit, Local 8 requested your President to use his endeavors to have the shop of Mundet & Sons at Cincinnati unionized. This shop specializes in cork insulation and had been running non-union at Cincinnati. Toledo came next and a meeting of Local 45 at which a newly proposed wage rate was discussed (a short strike soon after gained a 12½c hourly increase). Then came Columbus, where your President gave the membership of Local 44 a very plain and badly needed trade talk on the duties of a local union and its charter obligations to its own membership in particular and our craft in General. At this writing, Local 44 has proven to have taken on a new lease of life and your President is negotiating its first trade agreement. The next stop was Cleveland, where your President held conference with Vice President Oliver and accompanied by him visited the J-M shop on issues involving the membership of Locals 3 of Cleveland and 2 of Pittsburg. The next stop-off was Pittsburg, where your President conferred with Business Agent Rust of Local 2 and later attended the local meeting. Then on to Philadelphia where your President held conference with Business Agent Murtha on certain local issues. Later came the meeting of Local 14, at which your President heard the appeal of certain of the membership (decision elsewhere in this issue). Then to Washington and a meeting of Local 24 as also a visit to the Building Trades Department on business of executive nature. Baltimore was the next city in line and a meeting of Local 11 in addition to conference with Business Agent McGann and Secretary Mohsberg. The next jump was to Wilkesbarre and a meeting of Local 38 at which time your President found the membership working peacefully under

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/4

the agreement he had negotiated. This agreement is in every respect the same as that of Local 14 Philadelphia. Then to Buffalo where your President conferred with Business Agent Rice on issues involving Local 4. Then came Toronto and a conference with Business Agent Cullen of Local 20, after which came a trade conference with the Employers on the question of agreement renewal and wage increase. This conference adjourned without progress to meet later. Then came a series of visits to the head office of Mundet and Son at New York City on behalf of Local 8, Cincinnati, that ended by Local 8 getting a signed agreement after your President had ordered Local 12 to remove its members from the Mundet New York shop. Then came a conference with Business Agent Wickersheim of Local 40, Albany at which an understanding was reached whereby the Mohawk Valley Asbestos Company (Purcell) signed up with Local 40. In this settlement, Schwartz (formerly of Connecticut Local 33) and other non-unionists paid $50 fines back dues and assessments. Then to Buffalo again and a further conference with Business Agent Rice as also a meeting with the Executive Board of Local 4. Then on to Detroit where your President met the newly elected Business Agent of Local 25, Brother John (Gus) Moriarity and conferred with him on issues affecting the local. It might interest the membership to learn that former Business Agent Ed Coombs resigned to take the foremanship of the Armstrong Detroit shop. If he gives Armstrong the same returns that he gave Local 25, he has a steady job ahead of him with increased pay. On the occasion of this visit to Detroit, your President met Business Agent Mulligan of Local 17 Chicago on the question of "outside" work being done by the J-M Chicago shop. Business Agent Mulligan in the name of Local 17 requested that your President take the necessary steps to have the "Carey settlement" terms agreed to by the J-M Chicago shop. At this writing your President is pleased to report that he has been fortunate to the extent of having the J-M officials agree to give Local 17 Chicago the same conditions as incorporated in the "Carey settlement" i. e. "all work to be done by members of the International Association." The next jump was to New Haven and the meeting of Local 33 that happened to be the one of local union elections and that returned Brother Carl Sickels a winner as Business Agent. Wilmington was the next city visited, where your President intended interpreting certain clauses of the trade agreement he negotiated for Local 42. (Same as Philadelphia). It somehow happened that your President failed to locate the scheduled meeting. Then to Philadelphia and a conference with Business Agent Murtha of Local 14 as also a conference with Mr. Davis of the American Insulation Company on an issue involving certain of the local 14 membership. Then came a trip to Springfield and attendance at the quarterly session of the New England Joint Conference. This occasion found both the Providence and Springfield locals conspicuous by their absence and a none too enthusiastic spirit for continuance moving the locals in attendance. At this writing it looks like "loves labor lost" for those whose vision, energy, and constructive action succeeded in unionizing

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/5

the major portion of New England territory thru the medium of the New England Joint Conference.

Fraternally,

Joseph A. Mullaney

President.

Decision

Local 2 Pittsburg vs. Brown et al Local 3 Cleveland

Brothers William Brown, John Brown, John Davis and Jack Goodack are charged with "failing to report" and violating the "one mechanic and improver" trade law on an operation at Toronto, Ohio. Pittsburg Local 2 is the NEAREST LOCAL to this operation. The evidence shows the accused guilty as charged. The decision is that they each stand penalized in amount of $12.50 of which $5 of each sum is assessed as costs.

Fraternally,

Joseph A. Mullaney

President.

Decision

Local 2 Pittsburg vs. Francis et al Local 35 Youngstown

Brothers Edward Francis, John Lutz, and George Underwood are charged with violating the "one mechanic and improver" trade law on an operation at Connellsville, Pa. They are also charged with violating the "reporting to nearest local" trade law. The evidence shows that Brother Francis wrote Business Agent Rust the day before the work started and that Business Agent Rust visited the job the day after the work started. The accused members claim that the extra mechanic was brought from Youngstown as it was a well-known fact that Pittsburg could not supply help. The accused members further claim that the man in charge (Francis) told Business Agent Rust that the extra mechanic would immediately leave for Youngstown the moment that Pittsburg Local 2 furnished a mechanic. The accused still further claim that the extra mechanic stayed on the job because Pittsburg Local 2 failed to furnish a mechanic even after Business Agent Rust had been notified to do so. All

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/6

things considered, it looks as though the accused, though right in union spirit, were technically guilty under the law. The decision is

that the men are guilty as charged with penalty suspended dependant upon future strict trade law observance.

Fraternally,

Joseph A. Mullaney

President.

Decision

Local 2 Pittsburg, vs. Gerolinich and Knef, Local 12 N. Y.

The defendants are charged with violating the "reporting to nearest local" trade law. The facts prove their guilt. The operation was in the city of Pittsburg. The decision is

that they each stand penalized in amount of $12.50 of which $5 of each sum is assessed as costs.

Fraternally,

Joseph A. Mullaney

President

Decision

Local 2 Pittsburg vs. Mitchell et al Local 35 Youngstown

Brothers Sam Mitchell, Robert Kerr, Albert Gust, George McAfee and John Alcott are charged with violating the "reporting to nearest local" and "more than one mechanic and improver" trade laws on an operation at Sharon, Pa. The trade map shows beyond question that the NEAREST LOCAL is Local 35 of Youngstown, the members of which are well within their rights while working at Sharon, Pa. The decision is that

the charges are dismissed on their merits.

Fraternally,

Joseph A. Mullaney

President.

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/7

Decision

Paul et al vs. Local 14, Philadelphia

In this action, Brothers Paul, Stewart, Reid, Black, and Fink, appeal from the verdict of guilty and money penalty imposed by their home local resultant from charges of strike-breaking on an operation at 19th and Walnut Streets, Philadelphia. The evidence shows that while some doubt might have existed as to the exact orders of the business agent, later orders of the Local union Executive Board were clear, and specific i. e., "pack up your tools and get off the job." No error shows in the trial procedure as claimed by the appellants. They have confused Section 2 Article 13 with Sec. 1 Article 15, which in no way affected their trial rights. The decision is

that the appeal has no merit, should be and is hereby dismissed.

Fraternally,

Joseph A. Mullaney

President.

Decision

Local 27 vs. Roy Miller, Local 64

The charges preferred by Local 27 against Brother Roy Miller, its former business agent now holding membership in Tulsa Local 64, are for working with a non-union man on an operation in Kansas City. The evidence is conclusive. The decision is

that Brother Roy Miller stands penalized in amount of $50 of which sum $10.00 is assessed as costs.

Fraternally,

Joseph A. Mullaney

President.

Decision

Local 27, Kansas City vs. White and Ingalia

The defendants are charged by their home local with breaking the International Strike Order against the Standard Asbestos Company shop at Kansas City. The evidence shows the Brothers worked an operation at Fort Scott, Kansas, despite the orders of their home local business agent. The decision is

that Brothers White and Ingalia stand penalized each in amount of $50 of which $10 of each sum is assessed as costs.

Fraternally,

Joseph A. Mullaney

President.

The Asbestos Worker

The Official Journal of the International Association of Heat and Frost Insulators and Asbestos Workers.

Affiliated with the American Federation of Labor, and Building Trades Department.

Published Quarterly at Headquarters, St. Louis, Mo.

Address all communications to
THOMAS J. McNAMARA
Secretary-Treasurer
Room 803, Holland Bldg.
St. Louis, Mo.

To Insure Publication, Copy Should Be at Office on the 10th of October, January, April, and July

Vol. 4 JULY, 1925. No. 12

Chicago has dedicated a new $17,000,000 market. It cost much more than the new market in St. Louis, which will be ready for occupancy in two months, but its arrangements cannot surpass those in the municipal-owned establishment here.

I would like once more to call the attention of our locals to the matter of contributing something each month from your local for the Journal. This is what makes the Journal interesting, and I would like to see the secretary more prompt and free with ideas of interest from your local. And in conclusion with this, in sending in articles for publication, please write on a separate sheet from that referring to business in connection with your local.

BEST THINGS FOR NOSES

A flapper thinks the best thing to do with a nose is powder it, but personally we think the best thing to do with a nose is to keep it out of other people's affairs and off the grindstone.—Cincinnati Express.

ALWAYS BE DECENT

It is the decent things in life which show our character.

How nice it is to go around and have your fellowmen remark: "There's a decent fellow."

It ought to be music to everyone's ears. It ought to be used in political battles, in Labor controversies, in anything.

It surely will do you no harm, and if it can't harm you it surely must be good.

A labor union is like a bank. If you expect to get anything out of it you must put something in it.

Being sorry for yourself doesn't enlist the sympathy of your neighbors.

Too much gasoline is now being refined, complains the Standard Oil from its New York office in commenting upon the recent cuts in filling station prices all over the country. Looking at the income tax payment of John D., Jr., for 1924, we can't for the life of us see where the Standard Oil's boss has much of a complaint.

The Omaha federal judge who spent his vacation carrying a hod probably had to increase his earnings because of the low wages which the government pays its jurists.

FOOD COST RISE FOR ST. LOUIS IS 14 PCT. IN YEAR

Cincinnati Leads Increase at 18 Per Cent With Los Angeles Low at 6.

WASHINGTON, Aug. 20.—(By I. N. S.)—Food prices continued steadily upward during July. Prices jumped more than 3 per cent over those prevailing in June while for the year the increase was approximately 11.5 per cent, the Department of Labor announced today. Since July, 1913, the increase has amounted to 60.5 per cent.

For July there was an increase in twenty-three articles of food, potatoes topping the list with an advance of 26 per cent. Strictly fresh eggs increased 9 per cent; pork chops and cabbage, 8; round steak and bacon, 4; sirloin steak, chuck roast, ham and lard, 3; rib roast, leg of lamb and rice, 2; plate beef, canned red salmon, fresh milk, evaporated milk, butter, corn flakes and canned corn, 1.

Of the seven articles decreasing in prices onions showed the most market decline amounting to 4 per cent, followed by oleomargarine 2, and canned tomatoes, granulated sugar and bananas, 1.

Lard substitute, bread, flour, corn meal, rolled oats, wheat cereal, macaroni, navy and baked beans, canned peas, coffee, prunes and raisins showed no change.

During the year period, the average family expenditure for food increased in fifty-one cities as follows:

Cincinnati, 18 per cent; Norfolk, 16; Atlantic City, Cleveland, Detroit, Louisville, Mobile and Savannah, 15; Birmingham, Houston and St. Louis, 14; Baltimore, Buffalo, Kansas City, Little Rock, New Orleans, Omaha, Peoria, Rochester and Scranton, 13; Richmond and Washington, 12; Chicago, Columbus, Fall River, Jacksonville, Milwaukee, Pittsburgh, Providence, Salt Lake City and Springfield, Ill., 11; Boston, Bridgeport, Indianapolis, Minneapolis, Newark, New Haven and San Francisco, 10; Butte, Denver, Manchester, N. H., and New York, 9; Dallas, St. Paul and Seattle, 8; Portland, Me., 7; Los Angeles and Portland, Ore., 6.

ANNUAL OUTING OF ASBESTOS WORKERS LOCAL No. 3, CLEVELAND, OHIO
Held August 8, 1925, at Mara's Grove

Published by AsbestosClaims.Law
asbestosclaims.law/library/21360/13

In Memoriam

On May 21st Local 23 lost one of its hardest workers in the death of Bro. Frank Smith, No. 483.

He was our Business Agent and always proved himself a good union man.

He has been a member of our Local about 3 years. Previously he was a member of Rochester, Detroit and several other locals.

Therefore it was resolved that

In memory of our late Brother the Charter be draped for 30 days and further that these Resolutions be spread upon the minutes and a copy be sent to our International Secretary for publication in the Journal.

Fraternally,

A. PADGHAN,
Secretary Local 23.

UNIONS ASKED TO AID PUBLICITY CAMPAIGN

Washington, June 6. — Officers of the A. F. of L. and of the union label trades department of the A. F. of L. have issued a financial appeal in behalf of the campaign of organization and publicity that was indorsed last month by a conference of representatives of national and international unions in this city.

The appeal is signed by President Green and Secretary Morrison of the A. F. of L. and President Hays and Secretary-Treasurer Manning of the union label trades department.

The campaign will be country-wide and will continue for 40 weeks. Five groups of four persons each will convey organized labor's message to the workers through lectures, literature and moving pictures, under direction of the union label trades department.

It is estimated that the cost of these five groups for 40 weeks will be $120,000. Every trade union is requested to respond quickly and liberally to this appeal that the campaign may be started as early as possible. Checks are to be made payable to John J. Manning, secretary-treasurer, union label trades department, A. F. of L. building, Washington, D. C.

In the appeal it is stated that "there can be no doubt of the great benefits which will result to the labor movement from an intensive campaign of this character."

In many sections of the country campaigns have already been launched by the organized workers, who report increased membership and interest among wage workers. A feature of the campaign is the importance of workers using their purchasing power to their own interests by demands for the union label.

"CAN'T-STRIKE" BILL PASSED IN NOVA SCOTIA

Ottawa, Ontario, June 6.—Dominion trade unionists are protesting against a so-called "industrial peace act" that was rushed through the Nova Scotia legislature just before adjournment. It repeals the former conciliation and arbitration acts and establishes what amounts to compulsory arbitration in mining and public utilities.

Under the act a board can pass on the constitution and by-laws of every trade union. Heavy penalties will be inflicted on violators of the board's award.

"Measures such as these mean a reintroduction into Canada of chattel slavery," said Tom Moore, president of the Canadian Trades and Labor Congress.

"Depending upon prisons and bayonets for its enforcement, compelling free men to labor under conditions forced upon them by others is re-establishing industrial slavery and destroys collective bargaining," said President Moore.

The act will not be in force until it is proclaimed by government authorities. The Dominion officials have been very careful lest any law be violated when workers appeal for aid on behalf of Nova Scotia coal miners now on strike against the British empire steel corporation. Trade unionists are asking if Premier Armstrong will be equally insistent that every right of the workers is guarded.
