Vol. 10 # 2 (1931)

In the present day of rush and drive there is serious danger of giving way to the temptation that we have not time to devote to the little minor duties of being thoughtful and kind. No greater mistake could be made than this. Not everybody who needs a cup of cold water is calling out to the world. The little pauses we make by the way are not waste time. A word of sympathy, some little act that shows a kindly, friendly interest may help the next hour to move more lightly and happily. The Editor of the Asbestos Worker cannot reach one and all each day, but sends you this number with the hope that it may drive away a seemingly causeless cloud from the sky of your life. Help yourself to its radiant pages, and pass the thought along.

HUGH E. MULLIGAN

Brother Mulligan, the now Senior International Vice-President, was seated upon the General Executive Board at New Orleans in 1927. He has served Local 17, Chicago as Business Agent for the past eight years. It would be a waste of space to review the craft career of this remarkably successful executive, which is fully well known and appreciated by our officers and membership. His last accomplishment was the planning and supervision of the International Convention that excelled any such gathering in the history of our craft. The scarf pin "Hughie" now wears is the one presented him by the convention delegates as the answer as to what they thought about the treatment accorded them in Chicago.

DECISION

The several locals that have already acted upon the "three dollar minimum" monthly dues law by a compulsory raising of the Improver's dues, have done so upon the erroneous report of their convention delegates, and in advance of the release of the printed convention proceedings. It therefore becomes my duty to decide

that inasmuch as the International Association Constitution and By-Laws are silent on the question of minimum dues payment by IMPROVERS all recent Local Union actions or decisions whereby the improver membership dues amount was increased by so-called compulsory International law, are hereby declared unconstitutional and nullified.

Joseph A. Mullaney

President.

A FRIEND

Here's to a friend of mine,
A friend who is good and true;
Who loves me for what I am,
And not for the favors I do;
There are many fair weather friends,
We find them all about ,
But here's to the fellow,
Who proves he's your friend,
When he knows you are down and out.

To insure publication, copy should be at office on the 20th day of the month previous to the issuing of Journal.

Vol. X. JANUARY, 1931 No. 2.

WHY DO WE USE CANVAS ON PIPE COVERING?

An executive in the insulation line stopped one day to chat with a distributor of that commodity. "Say Jim" (altho that wasn't the name) "why do we use canvas on pipe covering?"

The distributor threw up his hands. "That question has been asked me a dozen times and the only answer I can give is, because we always have used it, which, of course is the same as saying 'What's good enough for great grandfather is good enough for me.'"

Why do we use canvas on pipe covering?

Is it a hangover from the old days when pipes were covered with almost anything and carpet, burlap or other material wrapped around to keep the covering on the pipe?

Is it convenient to apply? One manufacturer figures it takes three separate operations—taking the canvas off the section that the section may be placed around the pipe, placing the canvas around the covering again when on the pipe, and finally pasting the edges together. An outer jacket fastened to or made as a part of the section of covering would undoubtedly be handier and take less labor in application.

Canvas isn't fireproof, or even fire resistent, as most pipe coverings are.

Often we read in advertising matter published by various insulation manufacturers that it "makes a neat and attractive job." Does it? We can think of many more attractive finishes than white canvas which catches every bit of dust coming its way, and which cannot be readily cleaned after once applied.

It may be neat when first installed. But after a year or two's exposure to the dust and dirt which naturally are prevalent in most places where pipe covering is used (and generally it is used in close proximity to coal bins) the only neat feature of the job is the regular spacing of the lacquer bands which hold the canvas and the covering in place.

If the house owner is offered something in the way of pipe covering which would eliminate the dirty, unsatisfactory canvas jacket, at the same time giving a finish which could be easily cleaned, would he be likely to insist on using the old style canvas?

Dear Sir and Brother:

Received both copies of Asbestos Worker and Constitution and By-Laws.

Want to compliment you on make up of our Journal.

It is a very great change to the good from the previous Journals, and can say that entire membership of Local 88 are looking forward to receiving copies of Journal.

Again I want to compliment you on the make up of the Asbestos Worker. I remain.

Fraternally.

ALBERT DALTON

Brother Dalton, the newly elected International Vice-President has qualified for his new position by serving Local 3 in the capacity of Business Agent for the past five years, during which time he has displayed the qualities of leadership that has been instrumental in placing his local in the front rank of our progressive affiliations. He is a militant, whose first thought is that the Asbestos Worker gets recognition and the work he is entitled to, both of which are accepted facts in the city of Cleveland, where the Building Trades Council recently tended him a testimonial banquet and also presented him with a diamond ring. He is President of the Central States Conference and joins our official family with the best wishes of his friends and admirers who are legion.

CARL W. SICKLES

Brother Sickles, the newly elected International Vice-President joins our official family fortified with five years' experience as Business Agent in Connecticut during which time he has greatly advanced the interests and extended the prestige of Local 33. He is the Secretary of the New England Joint Conference. On January 1st he began his new duties as Business Agent of the combined membership of Local 33, Connecticut; 43, Springfield, Mass.; and 91, Westchester County, N. Y. He is of the gentlemanly scholar type of Labor leader, well versed in craft law and excels in communication or detail composition. He carries neither financial nor political "side lines" and will, beyond doubt, give our New England membership the Simon pure trade union labor leadership to which it is entitled.

CORRESPONDENCE

Springfield, Mass., Dec. 10, 1930.

Editor Asbestos Worker,

Dear Sir and Brother:

On October 14th, President Mullaney and Int. Vice Pres. Sickles honored this Local with a visit and the Officers and members of Local 43 wish to express to President Mullaney its sincere thanks for his instructive and interesting talk on matters of importance to our craft.

We also take pleasure in announcing that Local 43 has obtained the services of International Vice-President Sickles as our Business Representative, and under his guidance Local 43 should have a very successful year.

The election of Officers for the ensuing term resulted as follows:

President, Anton Sevelius; Vice President, P. J. O'Connor; Financial and Corresponding Secretary, Thomas J. O'Connor; Treasurer, Harold Carlson; Sergt. at Arms, John Griffin; Business Representative, International Vice President, C. W. Sickles.

Local 43 wishes at this time to extend to our International Officers and affiliated Locals their best wishes for a Happy and Prosperous New Year.

Fraternally yours,
THOMAS J. O'CONNOR,
Secretary.

Philadelphia, Pa., Nov. 28, 1930.

Mr. T. J. McNamara,
918 Holland Bldg.,
St. Louis, Mo.

Dear Sir and Brother:

Kindly insert the following item in the next issue of the Asbestos Worker.

After a connection of long years with Local No. 14, we have lost one of our most valued members, inasmuch as Brother Joseph Hunter was granted a Withdrawal Card, that he may advance himself to a higher aim in life.

Brother Hunter during his career with Local 14, has been a most indefatigable worker at all times for a cause that has always been nearest and dearest to his heart (Unionism).

The rank and file of our Local will sadly miss his sound advice and counsel on all matters.

Brother Hunter has been made Superintendent of the Keasbey and Mattison Shop, a very wise selection indeed from the viewpoint of ability and intelligence.

Local No. 14 extends their warmest congratulations for his future success, and may his future pathways of endeavor always end in success.

Fraternally yours,
HARRY G. LEWIS,
Recording Secretary.

Thomas J. McNamara,
918 Holland Bldg.,
St. Louis, Mo.,

Dear Sir and Brother:

This is to advise your office that we, on October 11th, signed an agreement with L. Mundet and Son, Inc., of Texas. This agreement is the same as signed with the other shops in Houston and expires December 31, 1931.

Fraternally yours,
M. V. SKEEN,
Sec'y-Treas. Local 22.

Nashville, Tenn., Nov. 10, 1930

Dear Sir and Brother:

W. M. Murray lapsed out. Also a fine of $50.00 against him for working under scale, contracting and working non-union helper.

We would like to have this published in next month's Journal, as

Seattle, Wash., Dec. 4, 1930.
Mr. Thomas J. McNamara,
Dear Sir and Brother:

Local No. 7 wish to announce that they are now receiving $10.00 per day. This comes at a time when an extra dollar is most appreciated.

Please insert this little notice in the next publication of the Journal.

Fraternally,
T. E. ROE,
Secretary, Local 7.

Akron, Ohio, Oct. 14, 1930
Dear Sir and Brother:

Our International Vice-President, Albert Dalton called on us Oct. 14th. Difficulties were discussed and carried out by our International Vice-President, Albert Dalton. Dear Brothers, I wish to call your attention that he sure has done a world of good for our Local 84 of Akron, Ohio. Now dear Brothers if you have any difficulties to discuss get in touch with our Vice-President, Albert Dalton and I am sure he will do as much good for your local as for ours. Local 84 is sure enjoying the better conditions which are caused by our International Vice-President, Albert Dalton.

Fraternally yours,
J. M. REED,
Bus. Rep., Akron, Ohio, Local 84.

Editor Asbestos Worker:
Dear Sir and Brother—

In his letter in the July issue of the Journal, Brother John W. Hoff of Local No. 6 mentioned the fact that in 1918 Brother E. A. Johnson was elected business agent of Local No. 6.

However, he forgot to mention the interesting manner in which Brother E. A. Johnson carried this election. He offered to take the job for less money than his opponent and predecessor, Brother Abe Olson. Brother Olson had self-respect enough to withdraw from the contest rather than take part in it under such degrading conditions. Brother Johnson was elected without opposition, thus gaining the unique distinction of becoming what was without a doubt the only cut-rate Business Agent in existence.

After remembering this fact and also the way in which he handled the Springfield situation, I fully agree with Brother Hoff that only a man shorn of his intellect would ever again ask Brother E. A. Johnson to get him an increase in wages.

On the Springfield situation perhaps Brother Hoff was right when he said that I did not speak for the membership of Local No. 43. However, this self same membership have since that time elected me President of the Local and delegate to the convention which seemingly would indicate otherwise.

Be that as it may, the main point about it is that neither Brother Hoff nor anyone else can say that I spoke anything but the truth about the matter. **If this be communism make the most of it.**

In regard to the harmony which has existed at the New England Joint Conference meetings, wish to say that Brother Hoff's implied threat for the future strikes no terror to the heart of Local No. 43.

At one of our meetings held a few months ago, President Mullaney very aptly stated that the New England Joint Conference at present constituted simply a mutual admiration society.

In making this statement the President erred slightly inasmuch as there is nothing mutual about it; it is simply a Johnsonian admiration society.

Wishing to say that I intend to take no further part in any debate in the Journal on this particular issue. I remain,

Fraternally yours,
ANTON SEVELIUS.

(The above was the much talked about communication at the Convention.)

Joint Conference Composed of Representatives Building Trades Department, A. F. of L. National Association Building Trades Employers

Washington, D. C., November 10, 1930.

For the purpose of averting jurisdictional discord in the building industry, and the promotion of a greater amity between the parties principal hereto, there is hereby approved and adopted an agreement entitled

THE BOARD OF TRADE CLAIMS

Preamble

The construction industry is constantly confronted with many and complex problems.

Conditions in the industry are ever changing due to improved and changing methods, materials, engineering, design, etc.

These changing conditions present peculiar and unusual problems to both employer and labor.

Labor in the construction field is subdivided into trade groups, each of which has its own particular work to perform. This field labor becomes skilled in its particular class of work by application and study.

The question of which trade shall be charged with the responsibility of doing certain work upon a construction project when new materials and methods are presented is at times difficult to determine.

However, the insistence by two or more trades that the placing of the material or manufactured product, or that the work to be performed is properly theirs, and unwillingness on the part of any trade to concede to another the right of erection or installation makes it necessary that there be set up a tribunal or board that shall determine such matters and which shall also determine whether the issue has already been disposed of by decision or otherwise, and whether there shall be further consideration of the issue.

The desire on the part of the entire industry and the public that means be found whereby these costly and troublesome questions may be amicably, economically and expeditiously disposed of that construction may proceed uninterruptedly, and with the distinct understanding on the part of the parties hereto that there shall be no abandonment of the work or refusal to do the work pending a decision to be arrived at in the manner herein set forth, prompts us to set up and make affective this BOARD OF TRADE CLAIMS.

Now, therefore, this agreement entered into this tenth day of November, 1930, by and between the Building Trades Department of the American Federation of Labor and the National Association of Building Trades Employers, to be signed by affiliated International Unions and Employers' Associations, parties hereto. It is agreed:

ARTICLE 1. The Board of Trade Claims shall consist of the Executive Council of the Building Trades Department of the American Federation of Labor and an equal number from the National Association of Building Trades Employers.

ARTICLE 2. The Board shall elect from within its membership a Chairman and a Vice-Chairman.

ARTICLE 3. The Secretary of the Building Trades Department shall act as Secretary of the Board. The Secretary shall engage such assistants as may be required, subject to the approval of the Board.

ARTICLE 4. The Board of Trade Claims shall meet at least four times each year and also at the call of the Chairman with the approval of a majority of both sides of the Board. The first meeting of the year shall be the annual meeting.

The Asbestos Worker, 1931
ACL Doc 21415 · Page 14 of 42
Published by AsbestosClaims.Law
asbestosclaims.law/library/21415/14

ARTICLE 5. The Board of Trade Claims shall receive only from International Unions claims for jurisdiction or control over work to be done in the field on construction work. All International Unions affiliated with the Building Trades Department shall be notified and sent a copy of any claims made, by registered mail and receipt returned.

ARTICLE 6. The Board shall investigate each claim and determine by a majority vote, whether it has already been disposed of. However, the Board shall recognize and shall not allow to be reopened, except by consent of the trades involved, any past decision rendered by the American Federation of Labor or Building Trades Department or the former National Board for Jurisdictional Awards, which have been approved by the Building Trades Department, and which decisions shall be filed with the Board.

ARTICLE 7. If the claim has not been determined already by decision or otherwise, the matter shall be set for arbitration.

ARTICLE 8. The Board shall immediately state the question to be arbitrated and shall request the claimants to immediately name their arbitrators.

ARTICLE 9. Each claimant shall name its arbitrator within fifteen days and the arbitrators so chosen shall name an umpire within ten days thereafter. Should the arbitrators fail to agree on an umpire within ten days, then the President of the Building Trades Department shall within fifteen days thereafter submit to the arbitrators three names from within the construction industry, and the arbitrators shall within five days thereafter name an umpire from within the industry or select one of the three so submitted, and should they fail within five days to agree upon an umpire, then the first available of the names so submitted shall be accepted as the umpire.

ARTICLE 10. Should there be but two claimants, one of which fails to name its arbitrator within the stated time, the work in question shall be declared in possession of the trade which names the arbitrator within such time. Should there be more than two claimants, any trade which fails to name its arbitrator within the stated time shall be eliminated from the arbitration.

ARTICLE 11. Where there are but two claimants the decision of any two of the arbitration committee shall be final and binding upon the parties. Where there are more than two claimants and a majority decision cannot be arrived at, then the decision of the umpire shall be final and binding upon the parties.

ARTICLE 12. The arbitrators shall in each instance consider all evidence presented relevant to the question as stated and shall render a decision within ten (10) days after the hearing of evidence and arguments, and shall present said decision to the Board of Trade Claims in writing.

ARTCILE 13. If, in the judgment of the Board, a decision is clear, concise, and in line with the QUESTION AS STATED, the Board shall approve the decision and shall set a date upon which such decision shall become effective, which date shall not exceed ninety (90) days thereafter.

All decisions from the Board of Trade Claims shall be made uniformly effective in all localities.

ARTICLE 14. If, in the judgment of the Board, a decision is not in line with the QUESTION AS STATED, then it shall be immediately sent back to the arbitrators for further consideration.

ARTCILE 15. No lawyer shall act as arbitrator, umpire or counsel in any proceedings held under this plan.

ARTICLE 16. It is not the purpose in setting up this Board to disturb conditions which are satisfactory in any community, and decisions rendered in the manner herein set forth shall not in any way affect the conditions in such community if they are at variance with the decisions except as set forth in ARTICLE 17.

The Asbestos Worker, 1931
ACL Doc 21415 · Page 15 of 42
Published by AsbestosClaims.Law
asbestosclaims.law/library/21415/15

ARTCILE 17. Should a condition exist in any community wherein the employer of the trade in possession of the work and some other trade object to the continuance of such trade in possession of the work, then upon joint request to the Board of Trade Claims by these two parties, the arbitration decision as handed down by the Board of Trade Claims shall be made effective in that community or district.

ARTICLE 18. A quorum of the Board of Trade Claims shall be a majority of its members. A majority vote shall prevail on all questions.

ARTCILE 19. The arbitrators and the umpire shall be paid by the parties to the arbitration and they shall have the right to request satisfactory assurance that the fees agreed upon will be paid.

ARTICLE 20. The members of the Board of Trade Claims shall serve until December 31st of each year or until their successors are duly elected and qualified.

ARTICLE 21. Resignations or vacancies shall be filled from the Building Trades Department of the American Federation of Labor or the National Association of Building Trades Employers, as the case may be, for the unexpired portion of the term.

ARTICLE 22. The cost of maintaining the office of the Board of Trade Claims shall be equally borne between the parties hereto.

ARTICLE 23. Each of the parties hereto shall pay any salaries or expenses of their respective members of the Board of Trade Claims.

ARTICLE 24. There may be set up wherever there is a Building Trades Council and an Employers' Organization in the construction industry, a conference board, arbitration board, or local Board of Trade Claims, composed of parties to this plan, which shall temporarily determine jurisdictional claims for that district when such claims arise between meetings of the National Board of Trade Claims, and the decision by such local board shall be effective only until a final decision is handed down by the National Board of Trade Claims, and there shall be no strike, abandonment of the work, or refusal to do the work or to go upon the job, because of jurisdictional claims.

ARTICLE 25. Such local board, arbitration board, or Board of Trade Claims shall meet within seventy-two hours of the presentation of a claim and shall render its decision within seventy-two hours thereafter.

ARTICLE 26. Before proceeding with arbitration of any local jurisdictional issue, the matter shall first be referred to the Secretary of the National Board of Trade Claims, to ascertain if the matter in dispute has already been Nationally determined.

ARTICLE 27. Should any local labor union fail, within twenty-four hours, to abide by and work under any decision arrived at as herein set forth, then the International Union, of which that union is a part, shall be notified of the failure and shall furnish skilled men to do the work within forty-eight hours thereafter.

ARTICLE 28. Should the International Union fail to furnish men as herein set forth, then the employers shall be at liberty, without being adjudged in violation of this agreement or any trade agreement, to fill the places with such men, members of other unions, as in his judgment can perform the work, and the members of such unions shall do the work.

ARTICLE 29. Inasmuch as the purpose of this agreement is to maintain peace and harmony in the industry in the public interest and to foster its economic welfare, it is recommended to architects, engineers, builders, owners, contractors and others concerned with construction work, that the decisions and findings handed down by this National Board of Trade Claims be observed in the drawing up of specifications, and in the making of contracts. A strict observance of this will contribute much to the advancement of the

Published by AsbestosClaims.Law
asbestosclaims.law/library/21415/16

industry and will give to the public the necessary assurance in their building operations.

ARTICLE 30. It is agreed by the parties to this plan, that all provisions of said plan shall be fully carried out by their membership. Any of their members failing to comply herewith shall be disciplined by their respective organizations.

This agreement shall be continued in full force and effect until December 31, 1932.

BANQUET AND DANCE HELD IN HONOR OF INTERNATIONAL PRESIDENT, JOSEPH A. MULLANEY, BY LOCAL NO. 88, RICHMOND, VA.

Published by AsbestosClaimsLaw
asbestosclaims.law/library/21415/18

Richmond, Va., Dec. 8, 1930.

Thomas J. McNamara,
918 Holland Bldg.,
St. Louis, Mo.

Dear Sir and Brother:

Editor of "Asbestos Worker"

On Friday, December 5th, a Banquet and Dance was held in honor of our International President Mullaney by members of Local 88, Richmond, Va.

An attendance of one hundred and five composed of Membership of Local 88 and Traveling Brothers, Employers, and Building Trade Leaders of this city.

An entertainment committee headed by Business Agent Joinville. Brothers Lacy, Paul, Owings, Jenkens and Gray saw to it that everyone enjoyed a good time.

Our International President came to the front, as usual, and gave all present an hour of sound advice and one of his talks that makes a local one hundred percent better in every way.

Local 88 wants to thank our International President for what he has done for us, and he will find Local 88 one hundred percent behind him at all times.

Everything has been prosperous for Local 88 in the last year due to the entering activities of our International President.

Wishing all Locals a Merry Christmas and Happy New Year.

Fraternally,

J. F. JOINVILLE,
Recording Secretary.

Local 84, Akron, Ohio.

Editor Asbestos Worker,

Dear Sir and Brother:

We wish to inform you at a recent election the following were elected: President, H. W. Gamble; Vice-President, W. Caldwell; Recording and Financial Secretary, N. Rice; Treasurer, J. Doran; Sergeant-at-Arms, J. Harvey. B. H. Reed was elected for 3-year term. Building Trades Council, J. Kempel; Trustees, B. Worster, C. Clark, W. Leedom.

Vice-President Albert Dalton of Cleveland was down and presided over the meeting. He gave a very interesting talk on the good and welfare of the Asbestos Workers. We would like to thank our Vice-President, Albert Dalton, for all the good he has done this Local and hope he keeps up the good work he has started.

Fraternally yours,

A. W. GAMBLE.

Building Projects in 27 Cities Total $1,000,000,000

A billion dollars' worth of construction projects in 27 cities was made public December 27 by the National Association of Building Trades Employes.

While the building would not equal an average of the last eight years, the association said, construction work would gradually mount to normal. Many builders are awaiting a more favorable securities market, the survey said.

The survey showed the following construction totals in various cities:

Boston—$50,000,000, of which $35,000,000 will be spent for public works.

Chicago—$166,000,000, all but $20,000,000 of which will be used for public works and 1933 world's fair buildings.

Cleveland—$3,500,000 post-office, $2,500,000 for John Carroll University, $5,000,000 for hospitals.

Harrisburg, Pa.—Approximately $10,000,000, including a State office building and a Federal prison.

Rochester, N. Y.—$6,000,000.

Dallas, Tex.—$27,000,000, a great part of which is for public utility work.

St. Louis has a $20,000,000 item for Merchandise Mart and Illinois Traction Terminals; San Francisco reported $20,000,000 worth of house and apartment construction and public works program; Government projects in New Jersey and Pennsylvania were estimated at $125,000,000; the Pacific Telephone & Telegraph Co. has set aside $40,000,000 for work on the Pacific Coast. A "fair amount" of work is contemplated in New York.

PUBLIC BUILDING NEEDS 4½ BILLIONS

More than $4,500,000,000 of public improvements, including Federal, state, county, municipal and industrial construction, are needed in the United States at the present time, according to a report just completed by S. W. Straus & Co., in co-operation with 236 chambers of commerce in leading cities of the country.

In this $4,500,000,000 of construction reported by these various organizations as needed, no allowance is included for such private work as residential buildings, office structures, apartments, theatres, factories, etc. The survey covers only such major public works as bridges, highways, civic buildings and grade crossings. About $1,200,000,000 of this construction is now going forward while approximately $3,300,000,000 is being held up, delayed or postponed for various reasons.

According to the report, the $4,500,000,000 total constitutes a conservative estimate of the amount of public construction contemplated throughout the country. Many important cities and states were unable to supply the necessary data, and in many cases dollar valuations were not available. Every effort was made by the compilers to keep the estimates within the bounds of reasonable expectancy.

Much of the public improvement work as pending or delayed is being planned for the immediate future. In New York City, for example, the reported need for subways is approximately $888,000,000, of which $450,000,000 is under construction, while the balance of $438,000,000 is to be provided for in the regular subway building program.

St. Louis, Mo., Dec. 22, 1930.

GENERAL EXECUTIVE BOARD

To the Officers and Membership,
Greeting:

In compliance with instructions of the Fourteenth Convention of the International Association of Heat and Frost Insulators and Asbestos Workers, Chicago, September 1930, the General Executive Board has adopted a Code of Workmanship for the future strict observance and working guidance of our individual membership. It shall be the qualification of "workmanlike manner" as incorporated in Joint Trade Agreements and shall be the craft standard by which all material application shall be judged. It shall be enforced on all work wherever situated and shall be the only authority upon which charges of "inferior work" shall be preferred or decided, and upon which working instructions of job foremen and decisions of Business Agents and job Stewards shall be predicated. The "Code" shall be printed and distributed by the Secretary-Treasurer in number sufficient to supply our affiliated membership as also Architects, Builders, Master Fitters and Plumbers, Federal, State and Municipal Inspectors, and any and all others who should be interested in insulating materials applied as intended and paid for.

JOS. A. MULLANEY,
President.

THOMAS J. McNAMARA,
Secretary-Treasurer.

HUGH E. MULLIGAN
ALBERT DALTON
C. W. SICKLES
} Vice-Presidents.

The noble craftsmen we promote
Disown the knave and fool,
Each honest man shall have his vote,
Each child shall have his school;
A union then of honest men,
Or union nevermore again.

—*D. Montie, Local 25.*

Okla. City, Okla., Sept. 10, 1930
Editor Asbestos Worker,
Dear Sir and Brother:

Oklahoma City held its greatest labor parade last Labor Day.

About 5000 were in line of march and with few exceptions all were members of organized crafts of this city.

This may not mean a great deal to the brothers in large cities, but considering our population (about 180,000) we think we made a very good showing.

The American Plan has been given a lot of publicity here and prior to Labor Day our friends of the C. of C. said we were too weak to parade.

We hope we have changed the opinions of some.

Conditions here are about the same as the average city and while there is no great volume of work ahead, we believe we are in a better position to get work that in the past has been getting away from us.

Will you please publish this picture of the members of Local 94. which is being mailed to you under separate cover.

Fraternally yours,
R. E. MORRISON,
Acting Sec.

Editor of the Asbestos Worker:

A few words to our fellow workers of the Asbestos Trade, acquainting them with the progress being made here in the Central States.

During the course of events in this territory, President Mullaney discerned the urgent need for more co-operation between the locals of this district. After much labor and well directed advice, the "Central States Conference" was proposed and is now a fixture in reality.

The first meeting of the "Central States Conference" was held at the Neil House, Columbus, Ohio, Sunday, August 10. The response to the movement of the (eight) locals, which sent a delegation of (fifteen) is very commendable to the character of the locals comprising these Central States. All delegates were credentialled, and the authority being vested in each to help shape the future policies of the "Conference," which policies we hope will later have a tendency to govern the activities of the trade in general in the Central States.

President Mullaney officiated at the meeting, and gave to us, without stint, the benefit of his long labor experience, his timely advice and able guidance in this early period of the "Conference" proved of paramount necessity. We hope that some day it may result in a meritorious investment.

Al Dalton of Cleveland, the upcoming Business Agent of that city was honored with the Presidency. (A fitting position for one of his high caliber). The writer was elected to serve as Secretary.

With these few informative words, we greet the brother members of the asbestos trade, and invite the remaining locals of the Geographic Central States to participate with us at the next meeting of the "Conference" which will be held at the Neil House, Columbus, Ohio, October 10, 1930.

Hoping you may find room for this in an early issue of the Journal, I remain.

Fraternally yours,
AL. SMITH,
Secretary.

CAN AND WILL

Can and Will are cousins
Who are never out of luck.
Will is the son of Energy
And Can is the son of Pluck.

Can't and Won't are cousins, too,
But always out of work.
Won't is the son of Never Try
And Can't is the son of Shirk.

IN MEMORIAM

BROTHER JOHN ELLSWICK

LOCAL No. 8, CINCINNATI, OHIO

It is with great sorrow that Local No. 8, Cincinnati, Ohio, records the loss of our late Brother John Ellswick.

RESOLVED, that Local No. 8 extends its heartfelt sympathy to the relatives of our deceased member, and be it further

RESOLVED, that our charter be draped for a period of thirty days, as a token of respect to his memory and that a copy be sent to the ASBESTOS WORKER for publication.

ALBERT J. SMITH,
Secretary, Local No. 8.

IN MEMORIAM

BROTHER JOHN BROWN

LOCAL No. 3, CLEVELAND, OHIO

WHEREAS, Local Union No. 3, Asbestos Workers, has lost a loyal and conscientious member in the sudden passage from this life of Brother John Brown, who died on Thursday, December 25, 1930, and

WHEREAS, During his membership in our union he had made friends, with all he came in contact with and by this friendship has endeared himself to all of us, and

WHEREAS, Knowing Brother Brown and realizing his sterling qualities as a man and a trade unionist, we believe that his association with us while here on earth will tend to make us stronger because of his loyalty and his friendship, and

WHEREAS, His death has brought sadness to others outside our union; therefore be it

RESOLVED, That we, the members of Local No. 3, Asbestos Workers join with the loved ones he left behind, and join with them in their sorrow, which we hope may be softened by the exemplory life he led and assure them of our sincere sympathy in their bereavement.

ALBERT DALTON,
Business Representative.

RESOLUTION

WHEREAS, The passing away of Brother Phil Trigg on Friday, October 24, 1930, took from our midst one of the best known trade unionists in our local and his sudden death caused a void in the hearts of all our members, and

WHEREAS, His activity in the trade union movement as an ex-Vice-President of our International Union, as President of Local No. 3, Asbestos Workers, and as a delegate for many years to the Cleveland Federation of Labor, endeared him to many of the workers of the various locals affiliated with the Cleveland Trade Union Movement, and

WHEREAS, His long and continued interest in the cause of trade unionism made him an outstanding worker in the uplift of the toilers, his passage from this activity will long be felt, yet we feel that his efforts in behalf of his fellow men will gain for him that reward we are all seeking in a future life, and will create a lasting monument in the hearts of all the organized workers; therefore be it

RESOLVED, That we, the members of Local No. 3, Asbestos Workers offer our condolence and heartfelt sympathy to those who have suffered a loss by his untimely passing away, and assure them that we sorrow with them and yet appreciate that our sorrow is softened by the knowledge that he left us with the assurance that his life among us was a full one and that he tried to do everything in his power to assist the lowly.

Submitted,

ALBERT DALTON,
Bus. Rep., Local Union No. 3.

IN MEMORIAM
RESOLUTION OF SYMPATHY

WHEREAS, It has pleased the Almighty to remove from our midst our esteemed Brother Jack O'Connor, and

BE IT THEREFORE RESOLVED, That the Charter of this Local Union be draped in mourning for a period of thirty days, a copy of this resolution be spread upon the minutes and a copy sent to the International for publication in the official Journal, and

BE IT FURTHER RESOLVED, That Local No. 64 hereby extend to the family, sympathy in this, their hour of bereavement.

E. A. WYCOFF,
Local No. 64.

IN MEMORIAM
BROTHER JOHN MANGAN
LOCAL NO. 3

WHEREAS, The sudden and unexpected taking away of Brother John Mangan on Saturday, November 22, 1930, was a shock to all the members of Local Union No. 3, and

WHEREAS, His passing from this life was made more tragic because of his youth, being only thirty-seven years of age, and because of his ability as a mechanic and his loyalty to the principles of trade unionism, which placed him in an enviable position as a leader among the trade unionists, and

WHEREAS, His untimely passing to the Great Beyond left behind him a loving wife and four small children, who will long mourn his early passage from this life, and

WHEREAS, Every member of Local 3, realizing his worth to our movement, feels that a great void has been made by his death at this time, a void that will long be felt, they all join with his bereaved family in his demise, and

WHEREAS, We believe that his worth to the movement will hold his memory dear to us, therefore be it

RESOLVED, That Local Union No. 3 take this means of conveying to his family, their profound regret at his untimely passage to a broader life, and trust that this suffering they are undergoing because of the loss of a husband and father will be assuaged by the good he tried to do for his fellow worker while among men.

ALBERT DALTON,
Representative, Local No. 3.

SECRETARY-TREASURER'S REPORT

St. Louis, Mo., Dec. 31, 1930.

To the Officers and Members of the International Association of Heat and Frost Insulators and Asbestos Workers.

Greeting:

Since the last edition of the Journal most of my time, in fact all of it has been taken up in the preparation of the new due books to be sent out in January. There has been quite a few of our Locals who have failed to send in the correct name and rating of each member, so that the new books could be made up accordingly. In many instances the General Office has not been notified of the change in rating of some of the members, and would request that in the future the International Office be notified immediately when a member changes his rating.

JOURNAL

As quite a few of the Journals have been returned, the Post Office Authorities have notified me that they would request that we make a revised list of the addresses of our entire membership, and I again request that in the future when a member changes his address that the International Office be notified of same at once.

Any **news item** pertaining to the Trade in general will be appreciated if sent to the General Office, so that it may appear in the following issue of the Journal.

VISITS

Since my last report I visited Kansas City and straightened out several of the kicks which had been brought before the Local Executive Board, and think that these matters have now been adjusted satisfactory to all concerned.

On November 18th, at the request of our Oklahoma City and Tulsa Locals, I visited Oklahoma City, where I tried for two days to get in touch with Mark Blodgett, the representative of the Insulating & Materials Co. of that City, who was supposed to be the Approved Contractor of the Philip Carey Company, and wish to state that after repeated efforts to try and get in touch with him, he side-tracked the issue entirely. I hear further that he has gone Non-Union and proposes to work "Open Shop."

I then proceeded to Tulsa and got in touch with Business Agent E. A. Wycoff of our Tulsa Local and went over the situation there, also with the representative of the Mundet Company, Mr. Arthur Doering.

From there I proceeded to Kansas City and got in touch with the representative of the Philip Carey Co., who informed me it was not the attitude of their concern to hire Non-Union men. He immediately got in touch with Mr. Blodgett and informed him that if he did not carry out his part of the agreement that he would be forced to cancel their agreement (Philip Carey Co.). Since that time the jobs which the Insulating & Materials Co. was working on have been taken away from them, and were finished under the direct supervision of the Philip Carey Co. at Kansas City. At this particular meeting in the Office of the Philip Carey Co., Mr. Blodgett, the ex-member of the Tulsa Local,

The Asbestos Worker, 1931
ACL Doc 21415 · Page 38 of 42
Published by AsbestosClaims.Law
asbestosclaims.law/library/21415/38

and former President of said Local, and who at one time acted in the capacity of Business Agent "hung up" and refused to talk to me over the 'phone (very courteous and business-like).

In November I also visited Springfield, Ill., at the request of several members who were working in that territory, and found that our Cedar Rapids, Ia. Local claimed jurisdiction over Springfield, and was placing men there at a lesser wage than the two Locals whose territory is nearest to that City. I also had a conference at Hotel Umpire, at which time there were six of the Cedar Rapids members present, and informed them that they were infringing upon the rights of Local No. 1 and No. 17 by working in that territory at away less than the scale of wages of either one of these two cities. I now have an application on file for issuing a charter to that City. At the present time the St. Louis Local has five (5) resident members there, and no doubt in the very near future a charter will be issued to Springfield, which will no doubt work to the mutual benefit of both Local No. 1 and No. 17.

On December 2nd I met our International President and Business Agent Al. Smith of the Cincinnati Local at Louisville, Ky., and had a conference with our International President. This was due to the fact that he had made other arrangements than to visit the City of St. Louis. The question of charter for Evansville, Ind. was taken up at this time and placed in my hands, and no doubt that City will be chartered in the very near future. As soon as the January (1931) issue of the Journal is issued, will visit that City and further consider the matter of charter issuance.

CODE OF WORKMANSHIP

The new Code of Workmanship has been made up and distributed to the various Locals. Any extra copies desired for Employers, Architects, Contractors, Builders, Plumbers and Steamfitters will be furnished through the General Office, upon request.

Copy of same for the individual members of the International Association is included in the new due books as sent out in January 1931.

Due to the fact that the Journal is now being edited at the GENERAL OFFICE (effective since the last Convention), and which necessitates more office space for the publication of same, this is to officially notify that the GENERAL OFFICE HAS MOVED FROM 918 HOLLAND BUILDING TO ROOMS 903-4-5 HOLLAND BUILDING.
