REPORT OF THE GENERAL PRESIDENT

Washington, D. C., June 30, 1942.

To the Officers and Membership, Affiliated Locals,

Greetings:

The activities of your President during the past quarter began with work at the General Office.

Then came a jump to Detroit where the employers and Local No. 25 had disagreed on the terms of Agreement renewal to the extent of causing a strike which had been in progress seven days before the arrival of your President. A conference between the employers and the strike committee of Local No. 25 followed by a meeting of the Local resulted in the signing of an Agreement which contained an hourly wage increase of 12½c for Mechanics and 10c for Improvers.

Then back to Washington and work at the General Office.

Next came the funeral services for Mrs. George Masterton, wife of the General President of the United Association of Journeymen Plumbers and Steam Fitters, held at Washington, at which our International Association was represented by Secretary Sickles and your President.

The next jump was Chicago and a conference with Vice President Mulligan on business of executive nature.

Later at Chicago came conference between Messrs. Lingle and Chapman, representing C. F. Braun & Company, and your President and Vice President Mulligan, representing our International Association, which resulted in the company, whose headquarters are situated at Alhambra, Calif., agreeing to sign up with Local No. 5. C. F. Braun & Company operates nationally and is classified with Badger, Kellogg and Loomis who employ direct and are recognized by the Building and Construction Trades Department.

Then later at Chicago your President and Vice President Mulligan represented our International Association at the funeral service for John Quick, son of Hugh E. Quick, Chairman of the Employers' Association, who was killed in an airplane accident as he was about to qualify as an instructor of aviation in the Army. Young Quick was contract manager of the Carey Shop at St. Louis and both popular and respected by all who knew him.

Next came Syracuse and meeting of the New York State Conference of Asbestos Workers, the minutes of which are printed in this Journal issue.

Then came New York City and the elections of Local No. 12 for officers and delegates to the Convention, which your President supervised as he has for many years past. It was held on Saturday with polls open from 1 to 8 p. m. which gave the men working regular time, as well as those on day and night shifts, opportunity to vote.

Next with Secretary Sickles to Providence and meeting of the New England States Conference of Asbestos Workers, the minutes of which appear in this Journal issue.

The interest shown by our general membership coupled with the number of delegate's Credentials received at the General Office presages the largest Convention in our history.

Your General President, Secretary-Treasurer and General Office staff are all "Ten-Percenters". How about you?

Work continues to multiply.

Fraternally,

Joseph A. Mullaney

President.

REPORT OF THE
SECRETARY-TREASURER

Washington, D. C., June 30, 1942.

To the Officers and Membership, Affiliated Locals,

Greetings:

The activities of your Secretary-Treasurer away from the General Office during the past quarter, in accordance with instructions of President Mullaney, began at Baltimore, Md., and conference with Business Agent McGann and Messrs. Tanguy and Carr, representing the Baltimore, Washington and Richmond Employers' Association. This conference resulted in the adjusting of several issues affecting our craft within the territory of our Local Unions in these cities, including the ironing out of certain details incidental to the signing of the new Joint Trade Agreement for our Richmond, Va., Local No. 88, which provided among other things a moderate wage increase.

Next came New York City and together with President Mullaney conferences in the interest of our general membership.

Then to Baltimore, Md., and attendance at a special meeting of our Local No. 11 which meeting resulted in the establishing of a policy for the full time employment of a Business Agent and which policy is now in full force and effect with Business Agent McGann so representing Local No. 11.

This meeting further voted membership issuance to approximately thirty applicants with trade experience obtained through shipyards where they were previously employed but which shipyards are today operating 100 per cent Union for our craft with all their work being done through bona fide insulating sub-contractors.

Next came Providence, R. I., and together with President Mullaney attended the New England States Conference quarterly session, minutes of which appear elsewhere in this Journal issue.

As an outcome of the proceedings of the New England States Conference meeting and at the request of Business Agent Gaspic of Connecticut, Local No. 33, your Secretary-Treasurer became interested in the Agreement negotiations between Local No. 33 and their employers, which was seemingly deadlocked, and as a consequence Local No. 33, at a special meeting, voted to sign with the employers an Agreement providing for an increase in the amount of 6¼c per hour for Mechanics and proportionate increase for Improvers, which Agreement was submitted to the Local Union by the employers as a result of the efforts of the General Office.

Local No. 33, like several of our Local Unions, was fortunate in just getting under the wire with new Agreement providing wage increase in view of their old Agreement expiring June 30 and the new Agreement with new wage rate being signed as of July 1, 1942, the last day wage rate increase could be effected so far as the Wage Stabilization Agreement between the Building and Construction Trades Department and the various Governmental Agencies conducting the Defense construction program is concerned.

The volume of work at the General Office during the last quarter has been such, due to continual requests and pleas from all sections of the coun-

try for additional Asbestos Workers together with detailed arrangements for our coming Convention, that your Secretary-Treasurer has been forced to respectfully decline several requests and invitations to visit different Local Unions and has endeavored to the best of his ability to do justice to the situation either by correspondence, telegraph or telephone.

Convention delegate duplicate Credentials being received at the General Office show the great majority of our Local Unions taking full advantage and electing their full quota of delegates to attend the Sixteenth Convention of our International Association and as a result this coming Convention at Cleveland will no doubt be very well attended.

Fraternally yours,

C. W. Sickles

Secretary-Treasurer

PRESIDENT WILSON ON WAR AND LABOR

History has a way of repeating itself—in every war there are moves to shackle labor and take from it hard-won gains such as are in evidence in Congress and State Legislatures today, the only real difference being in degree of violence and venom with which they are pressed home.

Those of us who were old enough to be active in the movement in the first World War recall vividly how President Woodrow Wilson joined hands with Samuel Gompers in fighting just what confronts us today.

Both have long since passed to their eternal rewards, but the words of President Wilson before the Labor Committee of the Advisory Commission of the Council of National Defense in 1917 where he followed Mr. Gompers, still lives. Because of the bearing on today's conditions, we reproduce them in part.

"I have," said President Wilson, "been very much alarmed at one or two things that have happened: At the apparent inclination of the legislatures of one or two of our States to set aside even temporarily the laws which have safeguarded the standards of labor and of life. I think nothing would be more deplorable.

"We are trying to fight in a cause which means the lifting of the standards of life, and we can fight in that cause best by voluntary cooperation. I do not doubt that any body of men representing labor in this country, speaking for the fellows, will be willing to make any sacrifice that is necessary in order to carry this contest to a successful issue, and in that confidence I feel that it would be inexcusable if we deprived men and women of such a spirit of any of the existing safeguards of law.

"Therefore, I shall exercise my influence as far as it goes to see that that does not happen and that the sacrifices we make shall be made voluntarily and not under the compulsion which mistakenly is interpreted to mean a lowering of the standards which we have sought through so many generations to bring to their present level.

"Mr. Gompers has not overstated the case in saying that we are fighting for democracy in a larger sense than can be expressed in any political terms. There are many forms of democratic government and we are not fighting for any particular form, but

By THOMAS J. WREN, Assistant Editor

Chicago Asbestos Workers, in time of peace and national emergency, perform like thoroughbreds. The more one mingles with them the more admiration exudes from the contact.

This in preface to the volunteer enlistment of some 36 members of Local No. 17 for naval construction work at distant Pacific bases. The first contingent left Chicago for the west coast to embark on Friday, April 3. These boys were given a send-off which made their parents and friends who came to the Union Station to bid them Godspeed and bon voyage, feel proud and while moist eyes predominated, the parting was brightened by the arrangements made by the officials of the Chicago unit of the International Association of Heat and Frost Insulators and Asbestos Workers.

Some weeks ago Navy officials beckoned, announcing dire need for construction workers at farflung Pacific bases. Lt. Comdr. Robert Twyman, USNR, labor procurement officer at Great Lakes Naval Training Station, spoke at an Asbestos Workers' meeting. International President Joseph A. Mullaney came from Washington at the invitation of Hugh E. Mulligan, business representative of Local No. 17, and one of the International Vice Presidents.

Said Commander Twyman: "The Navy quota was set at 25 men. These persons were needed badly at naval bases to cover boilers and pipes on battleships and other types of war craft. But from the response at the meeting it appeared as though the whole Local of Asbestos Workers wanted to dig in and do some of this essential but dangerous work for the United States Navy. Only bachelors were wanted. The Asbestos Workers did honor to their country and themselves. I was mighty proud of them. We intend using the extra 11 men to fill quotas in sections of the nation where the supply of these construction workers may be scant."

Mulligan, a veteran of some 20 months in France in World War 1 with the 108th Ammunition Train, was the principal speaker at a farewell party given by him and local officials at the Crystal Ballroom of the Palmer House a few nights before the West Coast departure. An orchestra played as the volunteer naval construction workers did justice to a fine steak dinner. Mulligan invited not only the men selected for this construction work but likewise invited mothers, fathers and friends of these young men.

In one of the most remarkable talks ever heard by the writer, Mulligan stressed the importance of adhering to the slogan of the three musketeers, "One for all, and all for one." He told the members that he was largely responsible for the induction into Union membership of the young men who had been selected to play an important role in the defense program. Without mincing words, he further told them that should one become ill or injured it became the duty of his fellow workers to stand solemnly behind him until he had fully recovered.

Other speakers included the writer, who stated that he had covered labor for the Chicago Tribune for 11 years, pointing out he is now writing some labor material for the Chicago Herald-American. The speaker said during his experience in labor, and this included

nation-wide travel on labor assignments, he never had the experience of meeting a more militant organization. He stated that although numerically small in membership, the Chicago Asbestos Workers were motivated with a heartbeat which vibrated through its entire fabric. Local No. 17 has played an important role in many civic enterprises. The organization is rated as one of the most progressive and efficiently operated within the ranks of the Chicago Building and Construction Trades Council.

As a token of esteem, Mulligan, on behalf of Local No. 17 presented each volunteer worker leaving for Pacific bases with a crisp, new $100 bill. In addition, the members leaving for the Pacific left with the knowledge that Local No. 17 had them insured in the sum of $1,500.

The dinner at the Palmer House concluded with the orchestra playing "Auld Lang Syne."

Editor, The Asbestos Worker,
Washington, D. C.

Dear Sir and Brother:

Enclosed find a photograph and article clipped from the "Butcher Workman," which we trust you will find room to print in our July Journal. It mentions the fact that the members leaving for Pacific bases are insured for $1,500.

Also find enclosed communication from our member, Brother Ray Carmody, outlining conditions in the Pacific, where he is now employed, and trust you will find room to publish Brother Carmody's communication.

We wish to inform you that John Quick, the son of Hugh E. Quick, one of our employers, who was manager of the Carey St. Louis office, was killed in an airplane accident. President Mullaney and Vice President Mulligan attended the funeral service, after which the body was taken down state by automobile for interment.

Upon returning Mr. Oscar Dretneaik, of the Illinois Fireproof Company, and Mr. Henry Bueller, of the Central Asbestos Company, were killed when their automobile was crashed into by another car. Mr. Roy Fries, of the Luase Stevenson Company, the driver of the employer's car, sustained injuries that have had him confined to the hospital since the fatal smashup.

The above-mentioned employers ran strictly Union shops for many years, and their passing is deeply regretted by both the officers and membership of Local No. 17.

At our Local meeting of May 5 we were visited by President Sullivan, of the Building and Construction Trades Council, and Delegate Meyers, of the Glaziers' Union.

President Sullivan came to solicit our adoption of the employer-employee "10 per cent Plan" for buying War Bonds. He was surprised when Business Agent Mulligan informed him that our entire membership had subscribed to it and had been making weekly payments for months by shop checkoff.

Business Agent Meyers came to seek a donation to the "Bomber Fund" of the Building and Construction Trades Council, which will be given the Government as a gift from the Chicago Building Tradesmen.

Business Agent Meyers was also agreeably surprised when, after a talk by Business Agent Mulligan, the Local responded by a donation of $2,500, which, considering our numerical strength in comparison to the larger Locals in the Council, speaks for itself as to just what Local No. 17 is doing for defense work.

Local No. 17 will be represented at the convention by five delegates, who are: Brothers Hugh E. Mulligan, Arthur G. Anderson, A. M. Burns, Ed. Nolan and H. G. Prescott.

Fraternally yours,

WILLIAM J. WILSON,
Recording Secretary, Local No. 17.

Dear Huey:

I thought I'd drop you a line just to let you know that we're all fine and healthy and working hard. Three more of the fellows got in about a week and a half ago. We had a dinner for the boys who came in and for the rest of the fellows who don't live at our house, and everything turned out fine.

In our house three of the fellows went on the night shift and are working 13 hours a day, 7 days a week. Jack Crick and myself, in our house, and all the other fellows are working eight hours a day and seven days a week, and all getting along fine.

We are all buying as many Bonds as we can and doing all we can to get this war business over with.

At first the work down here was a little different from what it was back home, but all the fellows are pretty well on to it now, as long as we're all sticking together.

We all appreciated the Journals and Labor papers that you sent down to us.

We heard that back home they had "stuff" in the papers that never happened down here. Well, this is true. It never did happen, so I hope that none of the fellows' parents or friends are worried about anything because everything is just "fine and dandy."

Well, this is about all the news for the present, Huey, so until you hear from me or one of the other fellows again I want to thank you again for everything.

Fraternally yours,

Your good friend,

RAY CARMODY.

Dear Sir and Brother:

Have already sent you, under separate cover, a picture of all members present at our first meeting of April 25, 1942, and would appreciate a space for it in our next Journal.

This first meeting of Local No. 37 since the "lifting" of International supervision was held primarily for the purpose of electing Local Union officers and resulted in the election of Brother A. C. Cravens as President and Business Agent, and the writer, Edwin F. Ohning, as Secretary and Treasurer.

Thanking you on behalf of Local No. 37 for publishing the picture above referred to if space permits, I am

PRESIDENT WILSON ON WAR AND LABOR

(Continued from page 9)

we are fighting for the essential part of it all, namely, that we are all equally interested in our social and political life and have a right to a voice in the Government under which we live; and that when men and women are equally admitted to those rights, we have the best safeguard of justice and of peace that the world affords. There is no other safeguard. Let any group of men, whatever their original intentions, attempt to dictate to their fellow-men what their political fortunes shall be, and the result is injustice and hardship and wrong of the deepest sort.

"Therefore, we are just now feeling, as we have never felt before, our sense of comradeship. We shall feel it even more because we have not yet made the sacrifices that we are going to make; we have not yet felt the terrible pressure of suffering and pain of war, and we are going presently to feel it, and I have every confidence that, as its pressure comes upon us,

WAGES STABILIZED "FOR DURATION"

By the terms of a contract between the several agencies of the Federal Government engaged directly or otherwise in building and construction work and the Building and Construction Trades Department of the American Federation of Labor, entered into on May 22, wage rates existing on July 1 are stabilized "for the duration of the war" save where it can be shown they are inadequate or generally out of line.

In such cases on certification by the Building Trades Department, they will be reviewed and where it is shown relief is needed, will be revised by a joint board consisting of representatives of the Government, the International Unions and a Chairman from the Department of Labor.

Inasmuch as substantially all building now being done is defense work, the agreement covers practically all of the men in the industry.

Consummation of the agreement was announced in the following letter from John P. Coyne, President of the Building and Construction Trades Department:

"May 22, 1942.

"Dear Sirs and Brothers:

"I am enclosing herewith copy of an Administrative Order obtained from the U. S. Department of Labor today, May 22, 1942, stabilizing wage rates in the building and construction industry. We are notifying you of this Order by direction of the Executive Council of the Building and Construction Trades Department.

"It will be noted that this Administrative Order establishes a Wage Adjustment Board for the building and construction industry. The Building and Construction Trades Department of the American Federation of Labor will be represented on this Board by John P. Coyne, President of the Building and Construction Trades Department; Harry C. Bates, President of the Bricklayers, Masons & Plasterers' International Union, and Robert Byron, President of the Sheet Metal Workers' International Association. Alternates selected were: M. A. Hutcheson, First Vice President of the United Brotherhood of Carpenters and Joiners of America; Edward J. Brown, President of the International Brotherhood of Electrical Workers, and John E. Rooney, President of the Operative Plasterers & Cement Finishers' International Association.

"Wage rates in effect as of July 1, 1942, with the exception of those coming under the provisions of paragraphs a, b, and c of the Order, will remain in effect for the duration of the war.

"Fraternally yours,

"JOHN P. COYNE,

"President."

This announcement was made by Secretary of Labor Frances Perkins on May 22, 1942:

DEPARTMENT OF LABOR

The Building Trades Unions of the American Federation of Labor with 1,500,000 members today voluntarily agreed to stabilize wages for the duration as an action to implement the President's appeal to prevent inflation. Their representatives, meeting with Secretary of Labor Frances Perkins, declared they took action because they recognized "the danger of drastic inflation due to rapid and uncontrolled increases in prices of commodities and to assist in effectuating the seven points outlined by President Roosevelt in his message to Congress."

The action was formalized in the following memorandum of agreement between the War and Navy Departments, Federal Works Administration, National Housing Administration, Reconstruction Finance Corpo-

ration, and the Maritime Commission, the Government agencies in charge of war building and construction work and the unions:

"It is agreed between the contracting agencies of the United States Government and the Building and Construction Trades Department of the American Federation of Labor that, on all war construction work done for or financed by the United States (except non-Federal construction where State laws govern wage rates) in the continental United States, the wage rates paid under collective bargaining agreements as of July 1, 1942, shall remain in full force and effect for a period of at least one year after that date and subject to annual renewal of this agreement for the duration of the war. Except as hereafter provided, all renewals of collective bargaining agreements will contain the rates paid as of July 1, 1942.

"The rates paid under collective bargaining agreements on July 1, 1942, will be subject to revision in cases where those rates are inadequate because:

(a) they were fixed at a time so long before July 1, 1942, as to be out of line with the general wages prevailing;

(b) they were applicable in a locality where changing conditions in the building construction industry require a revision of wage rates; or

(c) they do not sufficiently take into account any abnormal change in conditions.

"A wage adjustment board will be created to determine whether a wage adjustment should be made under this paragraph and to fix the amount of any adjustment which is made. In its determination it shall give consideration to existing collective bargaining agreements."

An Administrative Order, setting up the Wage Adjustment Board, was immediately signed by Secretary Perkins with the approval of President Roosevelt.

It follows:

"To accomplish the purpose of the Act of March 3, 1931, as amended by the Act of August 30, 1935, and of section 1 (a) of the Act of January 30, 1942 (Pub. No. 421, 77th Cong.), and to provide machinery for the wage stabilization agreement of the international and national labor organizations in the building construction industry, it is hereby ordered:

"1. The Wage Adjustment Board for the Building Construction Industry, hereafter called the Board, is es-

tablished in the United States Department of Labor. The Board shall consist of a chairman, to be appointed from the Department of Labor, and of three representatives of the contracting agencies of the United States and of three representatives of the labor organizations in the building construction industry, to be named by me from time to time. A majority of members of the Board shall constitute a quorum.

"2. The Board shall have power to investigate and to recommend an adjustment of wage rates under the above agreement of the labor organizations in the building construction industry. It shall consider requests for wage adjustments presented by local labor organizations with the approval of the international or national labor organization, and, when submitted through and approved by the Building Trades Department of the American Federation of Labor. It shall have power to make the necessary rules of procedure. The Board's recommendation with respect to a request for wage adjustment shall be transmitted to the Secretary of Labor, to the Building Trades Department, and to any interested contracting agency of the United States.

"3. Upon request of the Board, the Solicitor of the Department of Labor shall conduct an investigation, hold any necessary hearings, and make a report to the Board as to the prevailing rates of wages for any or all classes of laborers and mechanics in the building construction industry in any locality, or as to the relation of such wage rates to those generally prevailing in the industry, trade or locality, or as to the relation of such wage rates to the cost of living.

"4. In determining the prevailing rates of wages under the Act of March 3, 1931, as amended by the Act of August 30, 1935, I shall, unless compelling evidence to the contrary be presented, accept as prevailing those wage rates which were prevailing on July 1, 1942, unless adjusted by recommendation of the Board under paragraph 2 hereof."

Unions belonging to the Building Trades Department are: International Association of Heat & Frost Insulators and Asbestos Workers; International Brotherhood of Boiler Makers, Iron Ship Builders & Helpers of America; Bricklayers, Masons & Plasterers' International Union of America; International Association of Bridge, Structural & Ornamental Iron Workers; United Brotherhood of Carpenters & Joiners of America; International Brotherhood of Electrical Workers of America; International Union of Elevator Constructors; International Union of Operating Engineers; The Granite Cutters' International Association of America; International Hod Carriers, Building & Common Laborers' Union of America; International Union of Wood, Wire & Metal Lathers; International Association of Marble, Slate & Stone Polishers, Rubbers & Sawyers, Tile & Marble Setters Helpers & Terrazzo Helpers; Sheet Metal Workers' International Association; Brotherhood of Painters, Decorators & Paperhangers of America; Operative Plasterers' & Cement Finishers' International Association of the United States and Canada; United Association of Plumbers & Steam Fitters of the United States and Canada; United Slate, Tile & Composition Roofers, Damp & Waterproof Workers' Association; Journeymen Stonecutters' Association of North America; and International Brotherhood of Teamsters, Chauffeurs, Warehousemen & Helpers of America.

Communication from Conference President Anton Sevelius advising of inability to attend and expressing a wish for a successful and instructive meeting was read and placed on file.

The reading of minutes of previous meeting was dispensed with, as all delegates were familiar with same as published in last issue of our official Journal.

Delegate James Dunn, Local No. 43, reported having seven members out on Traveler with the balance of membership working steady since our last meeting. Local has work coming along; nothing big, but enough small work to continue steady work for some time.

Delegate then reported that as a result of the efforts of the General Office an agreement has been signed with the Riley Stoker Corporation, Worcester, Mass., a national organization specializing in boiler construction, bearing out a bulletin issued by the General Office a month ago to that effect.

Delegate John W. Hoff, Local No. 6, reported all members working, with most of activity in Government and private Shipyards. All work there is being done under the terms of the Stabilization Agreement, and delegate made direct reference to clauses covering overtime and shift work. All insulation on these jobs is being applied through bona fide insulation contractors.

Delegate then reported he had quite a few plasterers working and could use more Asbestos Workers to supply the demand.

Delegate Ernest Carlson, Local No. 31, reported plenty of work in his territory and more coming. Has a new Shipyard and an Army Cantonment coming, along with all the work yet to be completed. Is using plasterers to good advantage and could use more Asbestos Workers.

Delegate reported then on difficulties experienced with his men in respect to what jobs do or do not come under the Stabilization Agreement. International Officers present advised as to procedure for getting this information.

Delegate Gaspic, Local No. 33, reported whole of membership working steady during the past quarter, with a small minority getting in some overtime. Has several of the membership out on Traveler and had used a few plasterers since last meeting. Work in the near future looks very good, promising continued steady employment for the membership.

Delegate also reported on progress of negotiation for a new Agreement with Employers and advised that Joint Trade Board was deadlocked on the

issue with expiration date of old Agreement on June 30, only a few days away.

(Since this Conference meeting, new Agreement signed providing 6½ cents per hour increase, effective July 1.—Editor.)

Delegate reported that Local No. 33, too, would be represented by two delegates at the coming Convention.

International President Joseph A. Mullaney and Secretary-Treasurer C. W. Sickles, who interpreted, clarified and advised on various questions brought forward by all delegates during their reports; further advised on conditions at the General Office and the country in general in so far as our craft was concerned. They also instructed the delegates on the procedure of use of Traveling Cards, Plasterers and Permit men.

Respectfully submitted,

JOHN A. GASPIC,

Delegate Fallon, of Local No. 40, Albany, N. Y., reported that conditions are excellent in the Albany area, with several new construction units under way.

All men are employed at present and the future prospects are excellent.

A motion was made and seconded that James Lang be delegated to represent the New York State Conference at the Seventy-ninth Annual Convention of the New York State Federation of Labor, to be held in the city of Rochester, N. Y., August 17, 1942, and to be allotted the usual amount for expenses. Motion carried.

A discussion was held regarding Business Agents being under compensation insurance when away on Local business.

The discussion proved that in most cases the Business Agents were not insured when employed by their respective Locals.

Therefore, it is the recommendation of the New York State Conference of Asbestos Workers that each Local within the Conference protect its Business Representative by supplying adequate insurance protection.

Due to the fact that the next regular meeting of the New York State Conference falls on September 12, 1942, and this date precedes by only a few days the Sixteenth Convention of our International Association, to be held at Cleveland, Ohio, September 14, 1942, therefore, it was decided to have our next meeting of the Conference in Rochester, N. Y., August 15, 1942.

There being no further business, a motion was made and seconded to adjourn at 3 p. m.

Respectfully submitted,

JOHN C. FALLON,

Secretary.
