REPORT OF THE GENERAL PRESIDENT

Elmhurst, L. I., October 8, 1945.

To the Officers and Membership, Affiliated Locals,

Greetings:

The activities of your President away from the General Office during the last quarter started with a trip to Chicago with Secretary Sickles where, with International Vice President Mulligan, the interests of our Organization were given the attention they deserve at the meetings of the Executive Council of the Building and Construction Trades Department and the Executive Council of the American Federation of Labor. These meetings were held in lieu of the regular American Federation of Labor Convention which was prohibited this year, as were State conventions, by order of the Office of Defense Transportation.

During our stay at Chicago, your Officers were present at a well attended meeting of Local No. 17. They also attended the Church service and interment of Brother Harry Cadman, an old-time member of Local No. 17, and also paid a visit to the home of Brother Henry B. Holland, whom we found recovering from a long confinement. Brother Holland served our International Association as a Vice President for many years.

The next trip was to Buffalo, N. Y., where your President attended a meeting of the New York State Federation of Labor Executive Council. This was followed by meetings in Syracuse and New York City which gave the membership of the State Federation an opportunity to present resolutions dealing with the subject of State legislation in the Federation's annual program for 1946. These meetings were held by reason of the fact that the Office of Defense Transportation prohibited the State Federation Convention for 1945.

August 14, on which date the Japanese surrendered, found your President in Syracuse, N. Y., which city outdid itself in noise and celebration that lasted until daybreak.

At this writing our craft work throughout the country is good, with most Locals still retaining some "emergency Asbestos Workers" and, in a few instances, finding trouble in securing men.

With building material restrictions being lifted this month and the activity of the countless conversion plans now under way in states and cities, we can be reasonably sure that we will not again experience the postwar conditions of 1918 with War Veterans peddling their apples on upturned barrels.

Your President submits this report after his return home from a three

weeks' hospital confinement where he underwent an operation for cataract removal which, thanks to the good Lord and a good specialist, proved to be successful with full restoration of sight.

Fraternally,

Joseph A. Mullaney

President.

TREASURY DEPARTMENT
INTERNAL REVENUE SERVICE
NEW POST OFFICE BUILDING
NEWARK 2, NEW JERSEY

September 10, 1945.

In replying refer to
WT:EFW:EC

Mr. James A. Roche,
56 - 19th Avenue,
Newark, New Jersey

Dear Mr. Roche:

Further reference is made to your request for a ruling relative to the liability for income tax withholding on wages under the Internal Revenue Code, as amended by the Current Tax Payment Act of 1943 and the Individual Income Tax Act of 1944, of employers who engage the services of members of the International Association of Heat and Frost Insulators and Asbestos Workers, Local 32, Newark, New Jersey.

We attach hereto a copy of a communication dated September 6, 1945, from the Bureau at Washington and signed by Norman D. Cann, Deputy Commissioner, wherein it is held that the allowance paid by the members of the Asbestos Contractors' Association of Northern New Jersey to members of Local No. 32, as reimbursements for transportation costs in excess of two city fares figured from the City Hall, and return, and for board and lodging while on jobs at certain distances from that city represent "traveling expenses" within the meaning of Section 405.101 (c) of Regulations 116, and, consequently, if such reimbursed expense or allowances are properly segregated from amounts paid as wages they are not required to be included in wages subject to withholding. Amounts paid, however, for straight traveling time constitute wages subject to the withholding provisions of section 1622 (a) of the Internal Revenue Code.

Very truly yours,
JOHN E. MANNING,
Collector.

(The above is one of several recent decisions by the Treasury Department on the subject matter of withholding tax called to the attention of our General Office.—Editor.)

The Fairfield Shipyard is expected to close by the end of September; however, both Maryland and Sparrows Point yards are still going strong, the only change being at Sparrows Point where the working day is to be reduced to eight hours. Asbestos Workers are still in demand and the future looks very good.

Delegate Hunter of Local No. 14, Philadelphia, Pa., reported no letup in the demand for men, there being no cancellations or cutbacks in amount of work throughout the territory. He wishes, through the medium of our official Journal, to invite any of our idle International membership to come to Philadelphia for employment.

Delegate Mohsberg, of Local No. 24, Washington, D. C., reported a slight lull at present with two or three large jobs coming along soon to take care of whatever men are now in the territory. The Suitland job and the Census Building are included in above. The Front Royal job is expected to last until the end of the year. The work week is now back to 40 hours and the future outlook is fairly good.

Delegate Bressler, of Local No. 38, Wilkes-Barre and Scranton, Pa., reported all men working throughout Conference territory. Three nice sized jobs are expected to break soon in Ashland, Scranton and Williamsport.

Delegate Wardell, of Local 42, Wilmington, Del., reported all Local men working plus 30 Plasterers as "emergency Asbestos Workers." Future prospects look good with ground already broken for a General Motors Assembly Plant and also a new DuPont building in the near future.

International Vice President Joseph W. Hunter, reporting for Local No. 71, Allentown, Pa., stated that same conditions still prevail as reported at last Conference Meeting. All men are at work through Conference territory.

Delegate Hornburger of Local No. 85, Atlantic City, N. J., reported all men working, plus a few Plasterers as "emergency Asbestos Workers." Conditions better than they have been for a number of years. The Atlantic City Power and Light job will soon be ready and about 18 to 20 men will be

Among future large jobs expected are the Panelyte Job, General Motors reconversion, Fort Dix Cantonment expansion, the State Building Program and the Reynolds Spring Job.

With no further business to come before the body adjournment was voted at 3:10 p. m. until the next regular scheduled meeting on Saturday, December 1, 1945, at 12:00 noon.

certain. A number of projects slated for the Syracuse area have been withdrawn due to the termination of the war.

Respectfully submitted,

MINUTES OF MEETING OF NEW ENGLAND STATES CONFERENCE OF ASBESTOS WORKERS

Springfield, Mass., September 22, 1945.

The quarterly meeting of the New England States Conference was held Saturday, September 22, 1945, at the Highland Hotel, Springfield , Mass. Meeting was called to order by John W. Hoff, Chairman pro tem, at 10:30 a. m.

Delegates present were Internationl Vice President John W. Hoff, Local No. 6, Boston, Mass.; Oscar Nelson and Axel Johnson, Local No. 31, Providence, R. I.; Don St. Clair and Marlin Recor, Local No. 33, Connecticut; James J. Dunn and Chester Davin, Local No. 43, Springfield, Mass.

International Secretary-Treasurer C. W. Sickles was also in attendance.

Call for the meeting was read and ordered filed.

Brother John A. Gaspic then submitted his resignation as Secretary-Treasurer of the Conference due to his recent appointment by the Governor of the State of Connecticut to the Connecticut State Labor Relations Board. The resignation was accepted with regrets and was then followed with congratulations and best wishes of the Conference in his new field.

The Chairman then declared the election of a President and Secretary as the next order of business. Brother Axel Johnson was nominated and elected President and Brother John W. Hoff was nominated and elected Secretary.

Chairman Johnson then called for reports of Delegates.

Business Agent Dunn and Chester Davin, of Local No. 43, Springfield,

Published by AsbestosClaims.Law

Mass., reported business very good and that future work looks bright. The Local was given an increase to $1.58 with the approval of the Wage Adjustment Board on all future work with present operations to be completed at the old rate of $1.50 per hour; also, that there is no conversion work in the territory so that all overtime operations are based on double time. Present agreement expires on November 1, 1945, and the Local intends to meet with its employers for further increases in the near future.

Business Agent Hoff, reporting for Local No. 6, Boston, Mass., stated work is plentiful in his territory with Travelers and "emergency Asbestos Workers," mostly Plasterers, still working and could use at present at least 25 additional men as source of "emergency" men is limited.

Enumerated large operations in the making, such as power plant, housing operations, marine work and postwar public works plans.

Business Agent Hoff also reported that the Local has a petition before the Wage Adjustment Board for a rate of $1.72½ to become effective October 1, 1945. **(This increase was approved and is now in effect.)**

Don St. Clair, John A. Gaspic and Marlin Recor, reporting for Local No. 33, Connecticut, stated business has been good in the last quarter and at present the members are working 40 hours a week with very little overtime. No "emergency Asbestos Workers" are being used. Future looks very good. Also, there is in the making a $22,000,000 public works program contemplated by the State of Connecticut.

Inquiry was submitted as to the application of rock wool insulation around piping enclosed in tile conduit and Secretary Sickles advised that the application of any and all types of insulating material, whether of sectional form or dry pack, is the work of and must be performed by the good-standing members of our Association and so recognized by the crafts installing conduit tile for the purpose of encasing insulated piping.

Oscar Nelson and Axel Johnson, reporting for Local No. 31, Providence, R. I., stated that business is very good at present even though the Kaiser-Walsh Shipyard has closed down, that about 12 Plasterers are employed as "emergency Asbestos Workers" and also that there is an abundance of work contemplated for next year.

The delegates further reported on the recent wage increase from $1.50 to $1.58 per hour as result of a collective bargaining agrement with the employers and the subsequent approval of this wage increase by the Wage Adjustment Board.

The Conference was then told of the passing of Oliver Jentzell, who has been the Philip Carey representative in the Providence district for a number of years and that the Local mourns his loss as he was an excellent employer, always showing consideration for the men in the Local. It was further pointed out that he received his start in the insulation industry as an Improver, joining Local No. 31, and at a later date, on accepting executive position, taking out an Honorable Withdrawal Card.

Secretary Sickles then reported on conditions throughout the country in our trade and stated we are still very busy and that the General Office has a number of requests to man several large operations. Advice was also given Delegates on procedure in regards to contemplated agreements with employers.

With no further business, and upon motion, the meeting adjourned at 1:00 p. m.

Respectfully submitted,

JOHN W. HOFF,
Secretary.

In his travels he picked up a kitten who became known as Pat, the mascot of the U. S. S. Shadwell. Pat crossed the equator and after being initiated was given a certificate and became a full fledged Shell Back.

Brother Klinger has just been discharged from the service and again returned to work as an Asbestos Worker. When he was discharged, he took Pat with him, and the Navy gave Pat an Honorable Discharge as a first class carpenter, probably for the small jobs he had done around the ship. Pat is now content to be a Land Lubber in the Klinger residence.

Dear Sir and Brother:

Under separate cover I am sending you a picture of the float that our Local built and entered in the Labor Day Parade and, we are proud to say, won first prize.

About six of the boys cooperated with me and built this on the Saturday and Sunday before Labor Day. It represents a cash outlay of $19.60 and the rest was donated by different firms. If possible would you publish it in the next Journal?

About two weeks ago Brother Roscoe Phelps was driving his truck with his arm resting in the window as we all do and a truck sideswiped his car breaking his arm in nine places near the elbow. They had to amputate his arm at about the same place mine is off. He is getting along fine and is out and around now. It sure is a tough break for him.

Well Carl, will close now. Hoping to hear from you soon,

Fraternally yours,
BOB PROCASKEY,
Business Agent, Local No. 37.

Dear Sir and Brother:

I am enclosing a photograph of one of our Improvers, Lawrence L. Borsky, Reg. No. 11438, who was killed in an auto truck accident while in the performance of his official duties June 10, 1945.

Corporal Borsky entered the Armed Forces March 20, 1943, and served overseas for a year before meeting with his fatal accident.

Brother Borsky was a young man of very promising ability, excellent character, well liked and admired by all who knew him.

The passing of Brother Borsky leaves a void in the ranks of Local No. 14 that only time will heal and his spirit will remain with us for years to come.

Fraternally yours,

Dear Sir and Brother:

Enclosed please find photograph of S/Sgt. Robert C. Duffy of the U. S. Army Infantry, who was killed in action last May at Mindanao when a land mine blew up.

Brother Duffy was one of our first members to enter the service and it is with deepest regret we inform you of the death of this Brother. His death has been keenly felt by all who knew him and his fellow members of this Local.

Fraternally yours,
J. W. GEISLER,

Dear Sir and Brother:

Enclosed please find copy of letter received from Admiral Ben Moreell, CEC, U. S. N., Chief of the Bureau of Yards and Docks, in which he praises the efforts of all Building and Construction Trades Unions.

With best wishes, I am,

Fraternally yours,
HERBERT RIVERS,
Secretary-Treasurer.

Navy Department
Washington 25, D. C.,
September 4, 1945.

Mr. Herbert Rivers,
Secretary-Treasurer,
Building and Construction Trades Department, American Federation of Labor,
500-504 A. F. of L. Building,
Washington, D. C.

Dear Mr. Rivers:

The surrender of the enemy in the Pacific brings to a close the world conflict in which our country has been engaged for the past four years. During this period the Bureau of Yards and Docks, as the construction agency for the Navy, awarded contracts for the construction of vital Navy shore facilities costing approximately $6,000,000,000. As this tremendous war construction program terminates, I wish to extend to you and through you to the International Unions constituting the Building Trades Department of the A. F. of L. my sincere appreciation for your wholehearted cooperation in the completion of this program which included construction of air stations, operating bases, repair bases, dry docks, training stations, storage fuel and ammunition storage depots, hospitals, etc. The outstanding record achieved by the building trades in the construction of these facilities is equaled only by their achievement in successfully assisting in the recruiting of Seabees when, in the early days of the war, the battalions were urgently required for construction work in combat areas overseas.

It can be recalled that prior to the entrance of the United States in the war, the building trades, through the Building Trades Department, entered into a memorandum agreement with the government construction agencies in which the unions agreed not to strike for any reason whatsoever during the war emergency, and otherwise agreed on the stabilization of wages and working conditions on federal war construction. This agreement, which is still in operation, effectively eliminated the major causes of labor disputes and provided for a Board to hear real disputes.

Later, in May, 1942, the building trades unions supplemented this by agreeing to stabilize wages in the construction industry at rates prevailing 1 July 1942, which action was taken some time prior to the enactment of federal legislation to stabilize the national economy.

Throughout the period of the war as it became progressively more difficult to effectively man construction projects, the building trades unions ably assisted in recruiting laborers and mechanics. Such efforts were very successful in spite of the remoteness of certain projects from centers of population and the unhealthy working conditions, bad weather, etc., that obtained on several projects.

The building trades and the Building Trades Department of the A. F. of L. have achieved a record of performance of which they may well be proud.

With kindest regards, I am

Sincerely yours,
(Signed) BEN MOREELL,
B. MOREELL,
Vice Admiral (CEC) U. S. N.
Chief of Bureau.

Dear Sir and Brother:

I am quoting below a telegram received from Robert P. Patterson, Undersecretary of War, which was called to my attention upon my return to the city from the Executive Council meeting in Chicago.

"I want to thank you and your organization for your help in recruiting the men needed to build the Clinton and Hanford projects. The skilled mechanics who came from all parts of the country were of inestimable aid in speeding the day when we could drop the first atomic bomb on Japan."

The Building and Construction Trades Department joins with Undersecretary Patterson in thanking you and your organization for the splendid help in manning these important projects which assisted materially in the termination of the war.

With best wishes, I am,

Fraternally yours,
HERBERT RIVERS,

Dear Sir and Brother:

Thought you might be interested in giving Local No. 11 a little write-up in the October Journal concerning a shore party given to all the asbestos workers in the McCormick Asbestos Company shop on Saturday, September 1.

The party was held at the shore of Mr. Shriver W. Gruber, Shop Superintendent, and was attended by the majority of the employees in the shop, together with their wives and families. We were honored with the presence of both C. N. and I. C. McCormick, of the McCormick Asbestos Company, who spent a very enjoyable day with us.

Chesapeake Bay crabs were served with refreshments in shore style. The day was ideal for the occasion, with good bathing weather.

We are thankful to Mr. Gruber who so competently arranged the party.

Mr. Joseph A. Mullaney, President,

Dear Mr. Mullaney:

Orders have been issued by the War Department transferring me to an overseas assignment.

I would like to take this opportunity, on behalf of the Chief of Engineers, of thanking you for the cooperation extended to the Corps of Engineers and particularly to me, as the Chief of his Labor Division, during the three and one-half years I have been in Washington.

Without the cooperation of all elements of labor, the Corps of Engineers could never have accomplished the almost impossible task of constructing the world's most intensive building program, that involved a cost of nearly fourteen billions of dollars, with a minimum of labor difficulties during a most trying period. You, as President of the International Association of Heat and Frost Insulators and Asbestos Workers, have been personally responsible in no small way for the successful conclusion of this program.

ATTN: Mr. C. W. Sickles

Gentlemen:

This will acknowledge receipt of your generous contribution of eleven (11) cases of Raleigh Cigarettes to be distributed to our troops on foreign duty.

We are thankful that the enemy has surrendered, but the remaining job is a tremendous and trying one. Our forces will now fight a greater morale problem, that of boredom, and they will chafe under the trying conditions in occupied territory and in policing the huge area under our supervision. A high state of morale is more necessary now than before V-J Day.

Cigarettes have proven to be a definite morale builder and you may be sure that your contributions will add to the comfort and stimulate the morale of those valiant Americans who must remain on foreign duty until the job is finally completed.

Sincerely yours,
HOMER M. GRONINGER,
Major General, USA, Commanding.

FREEZE YOUR SOCIAL SECURITY AT 65

A number of our members will reach the retirement age of 65 before the first of the year.

To these members we offer the following advice relative to their Social Security status:

If an eligible worker is not ready to retire when he is 65 years old, he can nevertheless file his claim at that time and go on working. It would be advisable for him to do this if his earnings for any considerable period after he is 65 would reduce his average monthly wage and therefore his benefits.

By filing his claim when he is 65, he "Freezes" his average monthly wage as of that date, and his benefits are calculated accordingly. He will not, of course, receive any payments as long as he is at work on a covered job which pays him as much as $15 a month.

NOTICE!

Washington 1, D. C., October 9, 1945.

To All Affiliated Local Unions,

Greetings:

At the Sixteenth Convention of our International Association, held at Cleveland, Ohio, the week of September 14, 1942, it was agreed by unanimous action of the Convention that a special dispensation be granted covering the age limit for Improver membership in our Association which in effect extended the maximum age limit from 25 to 30 for the "duration".

It was likewise the unanimous vote of the Convention that Improvers be authorized to take mechanical examinations after having completed three years at the trade rather than the standard four-year improvership.

I am now, in accordance with the instructions of the General Executive Board, notifying all affiliated Local Unions that these two temporary wartime regulations covering age limit and trade experience for the "duration" are no longer effective and all Local Unions will in the future consider only applications for membership from those not less than 18 or more than 25, and further require the full four years experience as an Improver before Mechanic classification can be granted.

In the event that there is an application pending before your Local Union for membership of an Improver over 25 and less than 30, or an application of an Improver for Mechanic classification who has served over three but less than four years, action on these applications must be taken not later than the first meeting of the Local Union in the Month of November and the General Office immediately notified in the event of favorable action on such applications.

A third wartime regulation adopted by the same Convention was the addendum to Section 2 of Article XIX, which provided for the issuance of a Withdrawal Card to those of our membership entering the Armed Forces and that this "military" Withdrawal Card would not require payment of annual renewals and further that the holder was entitled to all mortuary benefits of his home Local without being responsible for financial payments to the mortuary fund.

All members issued these "military" Withdrawal Cards must, not later than thirty days after receiving honorable discharge, return same to their home Locals and again become good-standing dues paying members or if a member so desires, he can request and obtain a regulation Honorable Withdrawal Card which carries all of the responsibilities omitted in connection with the "military" Withdrawal Card.

Fraternally yours,

C. W. SICKLES,
Secretary-Treasurer.

Prevent TB

Buy Christmas Seals

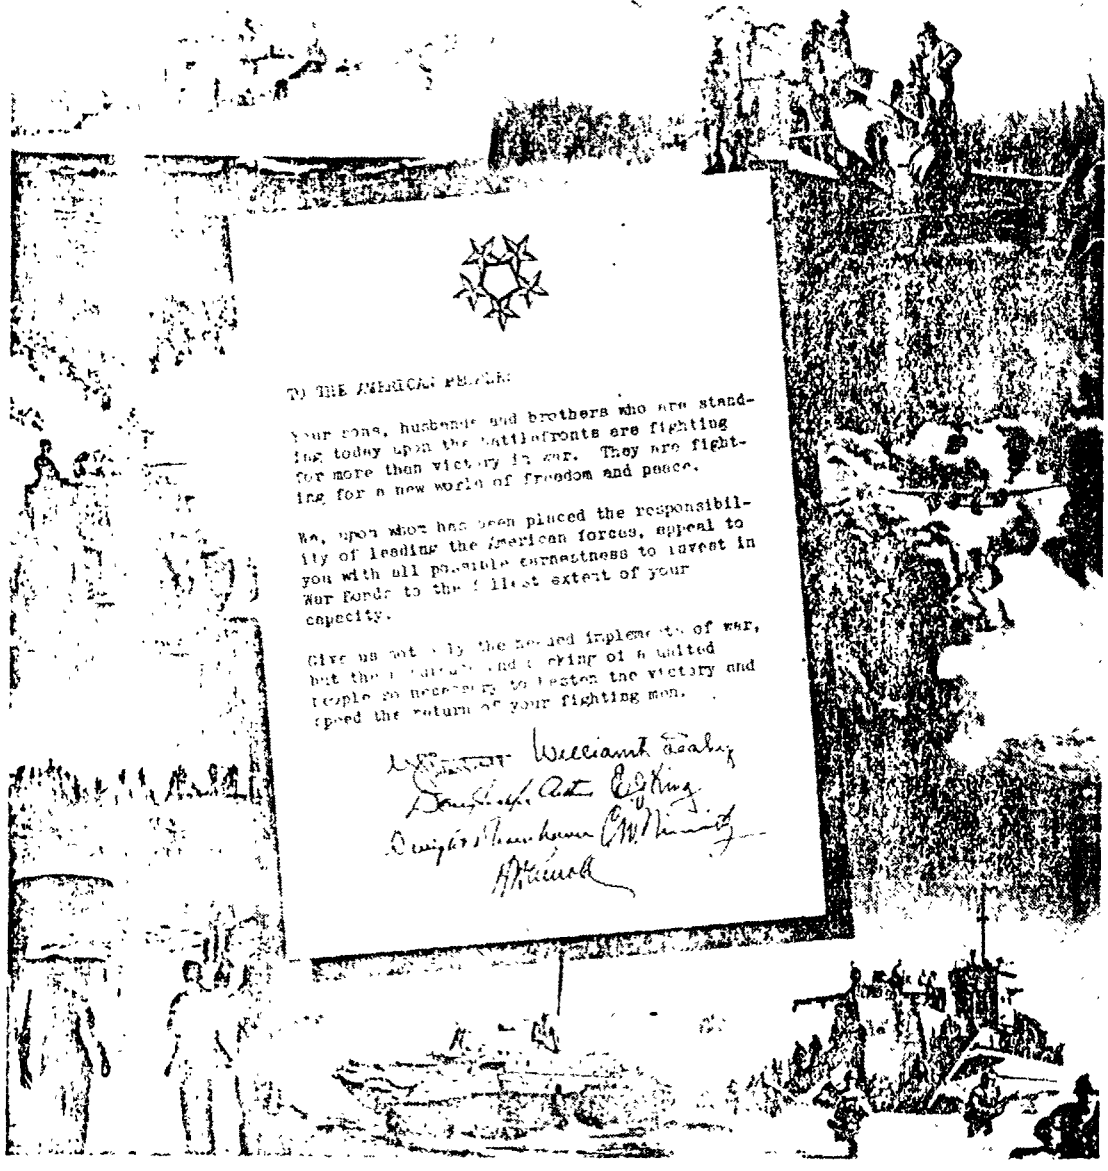

More than half a million Americans are today sick with tuberculosis. 57,000 died of it last year.

How far we go in preventing this unnecessary suffering and loss of human life depends on us. There is no medicine or drug which will cure TB. The job rests entirely in the hands of the people

Knowing this, can we afford not to buy and use Christmas Seals. By demonstration of new procedures aimed at better control the work they support helps to meet the needs of the community in the control of the disease not met by official sources

Your purchase of Christmas Seals is your share in the protection against tuberculosis they give your community—Buy them willingly—Use them generously.
