# Vote In November

By Joseph D. Keenan

*Director, Labor's League for Political Education*

IN 1948, 49,000,000 Americans voted, 46,000,000 potential voters stayed home. Taft and his Dixie-GOP coalition still control Congress today. The stay-at-home vote was responsible. If every AFL member who failed to vote in 1948 votes this year a clear-cut majority can be elected to Congress.

The Korean crisis makes victory this fall absolutely necessary. A look at the *Congressional Record* shows that 160 out of the 209 anti-labor representatives in the House also voted against the crucial Korean Aid Act last January.

On the other hand, LLPE-backed liberals not only voted for progress at home, but on every key foreign defense vote in the last two years they have consistently voted to oppose communism. It is the reactionaries who are exposed as bad security risks.

If we elect a liberal majority our country's foreign policy will be in safer hands. If we elect a liberal majority we can scrap the T-H Act and enact wartime measures that will bring trust and harmony into labor relations.

Maximum production with a minimum of work stoppages is what labor wants. We are ready to do our part in this war effort. But we know that we can't do our best under the Taft-Hartley Act.

We can't all carry a rifle in Korea. The next best thing we can do is give the boys in Korea good leaders in Congress. It's your patriotic duty. Contribute to LLPE. Participate in LLPE. Register and vote for LLPE-backed candidates.

Dear Sir and Brother:

The outbreak of war in Korea, with its resultant need for defense and military construction, has greatly increased the need for skilled construction men in the Navy's Seabee Reserve. Under the present Selective Service Act, only men between 26 and 44 years of age are eligible to join this Reserve. The upper age limit may, however, be extended in the case of veterans.

Th Navy needs about 70,000 additional experienced construction men in the Seabee Reserve. It anticipates that the Reserve, if built up to that strength, will be able to act as a training nucleus for the Seabee organization if this country gets into a full-scale war with Russia.

Building tradesmen manned the Seabees during World War II. Our record in that regard is one of which every building tradesman and every building and construction trades union can be justly proud. The need for similar support of the Navy is here again, and the Executive Council of the Department has instructed me to write to all national and international unions, state and local building and construction trades councils, and urge that they make every effort to see to it that the Seabee organization is built up to the needed strength as quickly as possible. In return we can assure you that the Seabees will be used only as they were in the last war, for construction outside of the Continental United States.

The Seabees have seven different ratings, covering some 60 different construction skills. The ratings are: Builder, Mechanic, Steelworker, Utilities Man, Construction Electrician, Driver and Surveyor. Anyone who wants to volunteer should get in touch with the Commanding Officer of any Organized Reserve Construction Battalion Company or Volunteer Construction Battalion Reserve Unit. If there is any question as to where such office is located, please let us know an' we will supply you with the information.

Work in the Seabees is one way in which the older building tradesmen can support the defense and the war effort. Please give this letter as wide a circulation among your membership as possible.

Fraternally yours,

R. J. Gray

President.

# Report of the GENERAL PRESIDENT

**JOSEPH A. MULLANEY**
***General President***

ATLANTA, GA.,

September 30, 1950.

*To the Officers and Membership, Affiliated Locals.*

GREETINGS:

The activities of your President during the last quarter began with work at the General Office where with Vice Presidents Hoff, Hunter, Howell and Secretary Sickles a meeting was held with a committee representing the Associated Asbestos Contractors of the Southeastern States that discussed questions of mutual interest.

Also present at this Conference was Brother James A. Roche, President of the Middle Atlantic States Conference of Asbestos Workers.

At this meeting a committee headed by Business Agent A. L. Poole, of Local No. 46, Knoxville, Tenn., appeared in connection with subject matter of Resident Membership affecting the cities of Chattanooga and Johnson City, Tenn.

Next with Secretary Sickles to Atlanta, Ga., and a special session of the Southeast States Conference of Asbestos Workers where a committee representing the Associated Asbestos Contractors of the Southeastern States appeared, after which they met with several Local Union committees and amicably adjusted some slight craft friction.

Next came the New York State Conference of Asbestos Workers, held at New York City, followed by your President representing Local No. 12 at the annual convention of the New York State Federation of Labor also held in New York City, which again for the thirty-second year found your President chairman of the Resolution Committee. Your President was reelected Vice President for the thirty-eighth consecutive term.

Then back to Washington and the General Office where with Secretary Sickles a meeting was held with W. W. Weeks, of the Benjamin F. Shaw Co. of Wilmington, Del., which resulted in the signing of an agreement by this company and our Wilmington Local No. 42 under which our membership will apply the new metallic alloy "Mirror Insulation" embodying the principle of air space.

The next jump was to Columbus, Ohio, with Secretary Sickles and conference with Vice President Dalton followed by the regular session of the Central States Conference of Asbestos Workers.

Philadelphia came next and the regular quarterly session of the Middle Atlantic States Conference of Asbestos Workers.

The next jump was to Meriden, Conn., with Secretary Sickles and attendance at the regular meeting of Local No. 33. Vice President Hoff was also in attendance.

The following day your officers attended the regular quarterly session of the New England States Conference held at the Taft Hotel, New Haven, Conn.

Then back to Washington and work at the General Office followed by a trip to Houston, Tex., where together with Secretary Sickles, we represented our International Association as delegates to the 69th annual convention of the A. F. of L., held in the City Auditorium.

While in Houston your officers attended the regular semi-annual session of the Southwest States Conference of which Vice President Hullinghorst is president. This session recessed for lunch which found as guests the Insulation Contractors of Houston, also several Houston Building Trades Local Union Business Agents.

The evening found your officers, the Conference delegates and their women folk the guests of Local No. 22 at a dinner banquet "where a good time was had by all."

While in Houston, a committee representing Local No. 63, Springfield, Mo., composed of President Clyde Hymer and Brothers Virgil G. Allred, J. E. Brandon and W. M. Brandon journeyed to the convention city and conferred with your President and Secretary Sickles on craft problems affecting their local territory.

Vice President Mulligan and your President represented our International Association as delegates to the annual convention of the Building and Construction Trades Department that this year for the first time in its history convened after the adjournment of the parent body, the A. F. of L.

The next stop-off was New Orleans where your President and Secretary conferred with Vice President Hullinghorst on craft matters affecting his territory.

Then on to Atlanta and a regular meeting of the Southeast States Conference of Asbestos Workers followed by conference between your President and Secretary Sickles and the officers of the Associated Asbestos Contractors of the Southeastern States which considered several trade problems confronting our craft.

This was followed by a conference of all affiliated Locals interested in charter issuance at Roanoke, Va., which subject matter is now awaiting the consideration of the General Executive Board.

The minutes of the conference meetings referred to in this report will be found printed elsewhere in this JOURNAL issue.

Our craft work is in abundance throughout the county with several Locals finding trouble in supplying sufficient manpower.

Fraternally,

Joseph A. Mullaney

*President.*

# Who Should Resign-Acheson or Taft?

TAFT'S attempt to make cheap capital out of the President's decision to defend Korea may prove the blunder of his life. Of American newspapers only the Communist *Daily Worker* and Colonel McCormick's ultra-reactionary Chicago *Tribune* failed to endorse Truman's decision. By criticising Truman, Taft only accomplishes the focusing of attention upon his own outrageously bad record on foreign policy. Taft had the crust to suggest, the day after Mr. Truman's decision, that Secretary of State Acheson resign on the claim that the latter's policy had been reversed by the President's decision. This prompted Joe Ferguson, Taft's opponent in the Ohio race for the Senate, to turn the tables on Taft by calling upon him to resign because of a reversal in the latter's policy.

Let's examine the question whether it is Taft or Acheson that should resign. Taft's consistent isolationist pose during and after World War II is a matter of record. He opposed lend-lease and the draft before the last war, just as he opposed ECA and arms abroad under postwar pacts. He accomplished a direct face-about last January when he suddenly demanded that the Navy be sent into Formosa. In thus reversing himself he had the temerity to charge in his newspaper column on January 27 "that the proper kind of sincere aid to the Nationalist Government a few years ago could have stopped communism in China." Yet in his news column just two months before Taft had asked his Ohio constituents: "Facing a deficit of $3 to $5 billion next year, should we start now on a vast new spending project which may extend itself to the Near East, the Far East and to South America? The limits to the cost of militarism can't be foreseen."

Only recently Taft tore the hide off the Administration for not having used all the money for Korean arms aid last year, yet last September he himself had voted against arms aid to Korea and last May 25 he voted against sending her $100,000 in economic aid. Taft's main argument against sending arms to friendly nations had been that we can't trust these nations to fight and that arms sent to them would be wasted. Acheson, on the other hand, has always consistently pleaded for aid to Korea. When last January 19 a solid Republican block, supported by a few Dixiecrats, killed the Korean aid bill, on the claim that it was money thrown down "the Korean rat hole," Acheson wrote the President, "This action, if not quickly repaired, will have the most far-reaching adverse effects upon our foreign policy, not only in Korea, but in many other areas of the world." May the reader decide who should resign—Acheson or Taft.

The night before, Friday, September 8, 1950, President Mullaney, Secretary Sickles and Vice President Hoff attended the regular meeting of Local No. 33, held in Meriden, Conn., at the Local's invitation and also addressed the meeting.

Matters pertaining to our laws governing the status of travelers and also the traveling status of Improvers and transfers on same were taken up due to an Improver working in another local's territory and a traveler who had deposited his card in Local No. 33 and was sent to a job in another local's territory.

President Mullaney and Secretary Sickles gave detailed information concerning our laws on both cases to the satisfaction of the membership.

The Conference was called to order Saturday morning at 10:30 a. m.

First order of business was the election of a president. Lance Gaspic was nominated and elected.

Minutes of previous meeting held in Springfield, Mass., June 24, 1950 read and accepted.

Both delegates expressed their thanks to Local No. 12, New York, through President Mullaney for taking care of their idle membership during their disagreement with their employers recently.

They also reported that Business Agent Gaspic will be fully employed during the coming year by the Local and ways and means to finance same will be worked out by their Executive Board.

Delegate Hoff, of Local No. 6, reported conditions at present are fair and prospects for the future look good. Several power jobs in the making, along with a new large Veterans Hospital, plus a possibility of some marine work.

Reported also on new Welfare Fund for two years with employer contributions of 9c per hour per man and payments to become effective August 1, 1950 by employers on all operations.

ure for a settlement was given by President Mullaney.

Also reported on conditions in and around Worcester, Mass., whereby all resident membership was abolished by vote of the Union Stated all employers are paying board in that area and that money that was due several men over the board question was paid back to date of Union action.

Also stated he has notified his employers that Local No. 31 will request a Welfare program when their agreement expires on November 1, 1950.

President Mullaney and Secretary Sickles brought up many subjects such as Locals should do everything in their power to keep a Business Agent on the road steady and suggested that small locals could in some cases band together and have one Business Agent represent them.

They stated there has been a general pick up in our industry all over the country and many locals sending calls out for more men.

President Mullaney dwelled on unsafe scaffolding and that care in all instances should be used to protect our membership from jerry built staging. Also pointed out States who have very active Safety Inspectors who are doing an excellent job.

Delegates Burris of Local No. 10 reported work slack with one-half of his membership on Traveling Cards and with 20 men working. He reported the future appears fairly bright.

Delegate Jackson of Local No. 21 reported that strikes by other crafts had slowed work considerably but that the future looks fair because of several big buildings and hotel air conditioning jobs, three power house jobs, a big hospital job, and refinery work to start soon. He further reported a 12½c raise across the board effective September 1. Local No. 21 reported 165 members, 41 of whom are Improvers.

Delegate Smith of Local No 22 reported five members idle due to a recent slack spell but that the future looks fair and that Local No. 22 has enough work to take care of its own members. He reported a 12½c raise effective September 18. He further reported that Local No. 22 has 230 members, a proportionate number of whom are Improvers.

Delegate Hullinghorst of Local No. 53 reported work slack at the present time with 25 members idle. However, he reported that his Local will need Travelers before January 1, 1951. He listed seven different multi-million dollar apartment buildings including one of 17 stories and 1,036 apartments, five 15 stories and two 13 stories. bers and two Travelers working. He further reported that although there are no big jobs in the immediate prospect, the future looks fair. He reported 33 members, 9 of whom are Improvers.

Delegate Donnell of Local No. 66 reported that work had picked up considerably with one Traveler and two G. I.'s now being used. He reported that his Local had one Improver over the ratio. He further reported that the future looks very good. At this time delegates Donnell and Thompson brought up the question of the Southwest Conference map and Secretary Sickles explained the impossibility of obtaining any map which is exactly accurate. Secretary Sickles also pointed out that some handy way of determining territorial jurisdiction was necessary and that although no map is exactly true, it is necessary to judge claims by the master Rand McNally map.

Delegate Green of Albuquerque reported 32 members of whom 9 are Improvers with 15 Travelers and 3 Permit men employed. He reported that prospects are unusually good for the next two years with work at Los Alamos and Sandia Air Base supplying employment for some time. He reported a possible industrial boom created by newly discovered oil in his territory with the result that refineries, cracking plants, and such work probably will create more work for his membership and possibly Travelers. He further reported a 12½c raise across the board with Room and Board at $5. Under questioning from International President Mullaney, delegate Green stated that the War Manpower Board had questioned the ability of all the crafts in his vicinity to man jobs in case of an emergency. President Mullaney pointed out that Brother Green is Vice President of the New Mexico Federation of Labor and is one of the few from our ranks to be so honored. It was also brought out that Brother Green will attend the A. F. of L. Convention as a delegate for the Central Labor Body of Albuquerque, N. Mex.

Delegate Stanwood of Local No. 87 reported that work had dropped off temporarily, although his own membership and 25 Travelers are working. He reported that a $12,000,000 school job in Austin and possibly additional work at Victoria makes the future look fair. He further reported a membership of 130, of whom 32 are Improvers. At this time the question of transportation expenses to the Victoria job was discussed and Secretary Sickles gave advice pertinent to the situation.

Delegate Ridenour of Local No. 94 reported all members and 10 Travelers working and that the future looks very bright with many large and small jobs on the books. He further reported 35 members, of whom 9 are Improvers.

At this time a letter from Local No. 106, El Paso, requesting admittance to the Southwest Conference, was read. A motion carried that Local No. 106 be admitted to the Southwest Conference and that the delegates be seated. Delegate Rodriguez reported 4 idle members and some members out on Traveling Cards but that the future looks bright with the Carlsbad Potash Mines due to furnish employment for many of our members.

At this time the meeting was thrown into an open discussion and International President Mullaney advised those present on several questions, including the jurisdiction of mesh wire. He also explained that specifications of owners have precedence over any other specification or rules. Secretary Sickles read a letter concerning a skipped board bill and advised all Locals to take what steps are necessary in these cases to protect the reputation of our Association. Secretary Sickles next explained the importance of getting wage recognition on government jobs. He emphasized the duty of each secretary to get the proper forms filled out by our shops and sent to him so that he can get new wage rates established before any possible freeze of wages. The question of true per capita tax payments by the Locals to the Conference was discussed briefly and satisfactorily.

At 12 noon the meeting recessed to attend a luncheon in the Ballroom as guests of Local No. 22. The luncheon was very well attended with many of the shops being represented. Secretary Sickles spoke briefly on matters pertaining to the good and welfare of our organization. The climax of the luncheon was a very well received talk by our International President Mullaney in which he outlined the evolution in its various stages of labor and management relations. He stressed the importance of Joint Trade Board meetings between our Locals and our employers in maintaining the cooperative relationship which has taken so many years to form.

The afternoon session of the Conference was devoted mostly to election of officers. A. L. Hullinghorst was elected President by acclamation. For Secretary-Treasurer, T. L. Smith of Local No. 22 and W. A. Jackson of Local No. 21 were nominated and with 19 delegates voting, the results showed 11 votes for W. A. Jackson and 8 votes for T. L. Smith. The remaining Business Agents R. E. Burris, T. L. Smith, Ray Wood, T. C. Donnell, Ben Green, Neil Stanwood, M. A. Ridenour and Rodolfo Rodriguez, as per custom, were elected Vice Presidents.

Local No. 10, Little Rock, Ark., was granted the next regular meeting of the Conference with the date tentatively set as the last Saturday in March, 1951.

The meeting adjourned at 2:50 p. m. after accepting an invitation to the Conference delegates, their wives and guests to attend a dinner-dance later in the evening in the Ballroom of the Rice Hotel as the guests of Houston Local No. 22.

national magazines, and the radio stations of the United States.

"On the advice of its public relations counsellors, this campaign will be supplemented by so-called tie-in advertising—to an amount reported to run as high as $19 million—chipped in by business firms, manufacturers, patent medicine companies, insurance companies, railroads and power companies.

"I have seen the copy of some of these advertisements. They are a tribute to the shrewd skill of the professional propagandist. These professional propagandists set up the imaginary target of 'socialized medicine'—which nobody in this country wants—and then they sail into the target with fists flying."

Mr. Ewing called the campaign a waste of money which could better be used to educate doctors needed so badly that the armed forces had to draft physicians to meet the needs in Korea and for national defense.

# *Tobin Urges Greater Effort To Reduce On-The-Job Accidents*

An intensified effort to reduce industrial accidents as a means of conserving manpower for national defense was urged upon management and labor by Secretary of Labor Maurice J. Tobin.

"Our current high levels of production and employment means that we have a smaller reservoir of skilled and semiskilled workers than when the defense effort of 1940 began," the Secretary said. "The drain on manpower will thus be felt more quickly in current defense production. It is imperative, therefore, that we do everything in our power to plug the leaks in productive time and effort that come from job injuries."

Tobin pointed out that activities of the Department of Labor devoted to promotion of safety are being intensified. These apply to safety training courses prepared and given State officials, safety programs for approximately 2½ million employes covered by Federal employe compensation laws, and inspections for safety and health in plants producing goods under contract with the Federal Government.

"The experience in World War II proves the need for a prompt and vigorous coordinated program of accident prevention which will utilize existing facilities and add to these where necessary," the Secretary said. "The great increase in accidents that came with preparation for World War II demonstrated the need for such a program now if we are to prevent such an upsurge again."

Tobin said the nation now has "a firm foundation for a coordinated approach to safety in the existence of the President's Conference on Industrial Safety and the sound relationships that exist between the Federal and State departments of labor."

## TAKE PROFITEERING OUT OF WAR SAYS REP. HELEN DOUGLAS

Rep. Helen Douglas (D., Calif.) points out that wage and profit controls must go hand in hand.

"It (is) preposterous to discuss for one moment the control of wages without at the same time discussing the control of excess profits," she told the House August 3.

"We should introduce an excess corporate profits tax immediately. Corporate profits are soaring already.

"We must take profiteering out of war, and we should do so at once. This is a time when each member . . . must function as a member of the team. Each must make his best and utmost contribution.

"Young men who can man tanks and guns and planes and ships are anxious to do their part. They must accept personal conscription, must accept the total restrictions of military service and still give all they have—their lives if need be . . .

"We must accept the conscription of our excess profits and earnings, we must accept the restrictions of civilian mobilization—and all the while we must produce and work, produce and work."

# "This is the first time I ever liked listening to Crosby!"

says HOPE

**HOPE:**
For years, I've always stuck cotton in my ears whenever the Old Groaner opened his mouth. But now he's got something that sounds good. Really good. Let's hear it, kid.

**CROSBY:**
Thank you Mr. Hope. You are kind, very kind. Ladies and gentlemen, this isn't a song. It's just a suggestion. This year, let's *all* give U. S. Savings Bonds for Christmas presents. Tell 'em about those bonds, Chisel Nose.

**HOPE:**
Gladly. It's all very simple—even Crosby understands how they work. In just ten years, they pay $4 for every $3 they cost. And they're appropriate for *everybody* on your Christmas list—young people, middle-aged people, and people as old as Crosby. Am I right, Bing?

**CROSBY:**
For once in his life the old Scene-Stealer *is* right. But seriously, folks, nothing makes a more welcome, more sensible present than U. S. Savings Bonds. And you can buy 'em in any bank or post office. So—

**HOPE:**
So why not give the very finest gift in America—U. S. Savings Bonds!

## Give the finest gift of all... U.S. Savings Bonds
