Some Facts About YOUR COVER PICTURE

BECAUSE it is spring, that wonderful time of year when all nature bursts forth in an array of breath-taking colors, this month's cover "Cherry Blossoms in the Nation's Capital" is most appropriate Few sights in America are more arresting to the tourist than are the Japanese cherry blossoms.

Every spring when the blossoms are out the sight claims headline attention The blooms for the cherry trees which receive the greatest amount of attention are light pink and are in full blossom by mid-April. What is less generally known to those who have never visited Washington is the fact that there is a second set of Japanese cherry trees that blossom about two weeks after the first group. The second or double blossoms are deeper in color and many think they are more beautiful than the single or pink type blossoms.

The cherry trees were presented to the nation for planting in Washington, D. C., many years ago They were the gift of the mayor of Tokyo and were sent over to the United States as a symbol of friendship between the Japanese people and the citizens of the United States

The name "Japanese" cherry blossoms was temporarily discarded during the years of World War II in favor of "Oriental" blossoms. The attempt to discard the name, however, was never fully successful and so when the war was over the name "Japanese" returned to general usage.

Despite the fact that the cherry blossoms are among the topflight tourists' attraction and item of beauty in Washington, some attempts were made by vandals to chop the trees down. Some damage was done, but the impairment of the trees was by no means substantial.

The Federal Government through its National Park Service maintains the cherry blossoms around the public grounds and carries on a program of replanting in order that the nation will always have a rich growth of the beautiful blooms.

During the spring the cherry blossoms are the center of an annual festival known as the "Cherry Blossom Festival." Each state is represented by a young woman from that state who may be working or in school in Washington. These young women are the "princesses" and on the big night of the festival, a "wheel of fortune" is turned and one of this select number of princesses becomes the "cherry blossom queen." She is crowned by a public official and "reigns" during the festival period

The blossoms attract at the height of the season as many as 200,000 tourists to the city over a single weekend.

In addition to the blossoms in the Tidal Basin area where most of them are located, Washington also has blossoms which have been planted in Kenwood, a suburban community which prides itself on its fine stand of Japanese cherry trees. But the main attraction are the trees around the Tidal Basin and the double blossoms along the long peninsula known as Haines Point

When the cherry blossoms are out, even the politicians take a back seat—and that is something in Washington.

Your Pocketbook is the Issue in 1952

Corruption, tax increases and the high cost of living are the three top issues of the 1952 election, according to a recent newspaper poll.

After an experience I had recently, I am inclined to agree with this poll. Just a short time ago while talking to the steward in the hotel where I was stopping, the steward, who was an AFL member, said to me: "Isn't it awful the way they are doing all that stealing down in Washington." The newspapers had succeeded in convincing him that every employee on the Federal payroll had his hand in some petty graft. Of course that isn't the case. But every reactionary newspaper in the country is doing its best to convince the voting public that petty corruption is the issue.

Their purpose is obvious . . . to get the voters to forget the multibillion dollar stealing that this Congress is doing legally by enacting weak price control laws and unfair tax laws full of loopholes for the wealthy. For every ten cents that some weakling on the public payroll steals, Congress takes a hundred dollars right out of your pocket legally by loading the laws in favor of the wealthy and against you.

My answer to the hotel steward was this. Keeping thieving bureaucrats out is a problem that every administration must contend with. Naturally everybody wants honest government. But just because a government is honest that does not necessarily mean it is a good government. After all, it might be possible to have a Communist or a Fascist government in which all the bureaucrats obeyed the laws and kept their hands out of the public till. But that wouldn't make those governments good. You have to look beyond the question of technical honesty and see what the government stands for. Does it assure democratic rights, fair prices, fair taxes, security and prosperous employment for the people? Those are the real issues on election day.

As for increased taxes and high prices, the next two top issues listed by the newspaper poll, I don't think there is any doubt about their importance in people's minds. The average man is more concerned about the size of his take-home pay and how far it will go than anything else.

By James L. McDevitt
Director, L.L.P.E.

On these two issues the AFL and the political friends of the AFL are on the side of fair taxes and fair prices. To make the voting public understand the truth on these issues is our political education job for 1952.

First, increased taxes were needed to stop communist aggression. When you hear talk about cutting the budget, remember that the only place they can cut is in military and foreign commitments to fight the communists. 68.4 billion dollars is the proposed 1952 budget. 48 billion of this is for military and national security measures to contain the communists, 4.9 billion for veterans of past wars and 5.6 billion for interest on past war debts. Only 9.5 billion is left for all other government functions. When you hear the political hacks talking about cutting our so-called wasteful social-welfare measures, remember only three per cent of the entire budget is for social welfare measures such as old age assistance, unemployment insurance, public housing, and the like.

When you hear that it is these social welfare programs enacted in the past twenty years that have caused the huge debt, remember this: The National debt was at an all time peak of $257 billion in 1946. Of this, $217 billion was added on during World War II because Senators Taft, Vandenberg, George and Byrd, who dominated the powerful Senate Finance Committee, refused to enact "pay as you go" tax measures. In spite of the President's request they delayed passing an excess war profits tax until 10 months after Pearl Harbor. The newspapers would have you believe the debt continued to increase after the war. Actually, it was reduced by 7.5 billion dollars in the five years after 1946.

Now, faced with a new military threat our arms budget is up again. This year our country faces a 5 to 6 billion dollar deficit. The question is . . . will this be added to the debt, will the wage earners have to make up the difference in higher taxes, or will it be borne by plugging the tax loopholes enjoyed by the wealthy?

Recently, the AFL came out with a tax program that would balance the budget without any new sales tax or income tax on the consumer. The AFL pointed out that $5.25 billion dollars in taxes are lost every year through unfair loopholes. For instance, the split income provision in the present law means that a single wage earner pays five per cent more taxes than in World War II while a married couple with $25,000 pays 28 per cent less. By correcting this provision and plugging such loopholes as the depletion allowance for oil speculators, taxing dividends at the source and taxing inheritances there would be no need for further debt.

With regard to high prices, the other top issue, every effort will be made by reactionaries to shift the finger of blame away from the people who actually wrecked the price control law.

You hear on every hand that prices went up because the Administration didn't use the powers Congress gave them. Nothing could be further from the truth. The first law passed after the Korean War broke out was in the Fall of 1950. But the law ordered the President to try voluntary controls first. He did. The first big company he asked not to raise prices was General Motors. You know what happened. General Motors said it intended to raise prices anyway. So that was the end of voluntary controls, and price ceilings were slapped on. However, it was too late by then. The big price boosts came before that. After establishing controls, prices have leveled off.

However, in the summer of 1951 when the price control bill was up for extension, Senator Capehart of Indiana slipped a ripper amendment into the bill at four o'clock in the morning in a conference session trying to iron out differences in the House and Senate Bills. No record vote was ever taken on his amendment, but it became the law of the land. What it did was forbid roll-backs and provide that every manufacturer could add onto his price all the increases in his costs up to that time. In short it was a price support rather than a price roll-back bill.

DEAR SIR AND BROTHER:

As you know, for over a year I have not been associated with any organization or company. I have accepted employment with the Johns-Manville Corporation. The work I will do will require a Withdrawal Card from Local 14. I have made this arrangement. Under these circumstances I am offering this as a letter of resignation as Vice President of the International Association.

Because our associations have always been pleasant I am sorry to sever my connections with your organization.

My very best wishes for your continued success.

Sincerely yours,
JOSEPH W. HUNTER.

Your Pocket Is the Issue In 1952

(*Continued from page 6*)

Since each of hundreds of thousands of manufacturers could figure his own price under this amendment, it was unworkable. So the only thing the Price Administrator could do was set for each article the highest price that the least efficient producer might conceivably be able to charge for his product. For that amendment the American public has already paid 750 million dollars, and the total is expected to be twice that before all the pending price requests are through.

The record of the AFL is clear. Our members want a government which administers the laws honestly. But we also want a government which has fair laws to administer. The only way to get fair laws is to elect the right kind of Congressmen on election day.

Each of us will play an important part in this election year by giving $1 to join LLPE, registering every member of our families and then voting on election day.

COURT OK's PAID-TIME FOR VOTING

The Supreme Court has ruled that a state may require an employer to give his workers time off to vote without any deduction in pay.

The decision was made in a case (Day-Brite Lighting, Inc. v. Mo.) in which a firm had challenged the constitutionality of a Missouri law which contained such a requirement.

Justice Douglas delivered the opinion of the court. He denied the contention of the firm that the law was unconstitutional because it violated "liberty of contract." He pointed to a number of precedents involving child labor, minimum wage, and other laws, in which the court had made it clear that state legislatures "may within extremely broad limits control practices in the business-labor field, so long as specific constitutional prohibitions are not violated and so long as conflicts with valid and controlling federal laws are avoided."

He said that Missouri certainly had "the power to protect the right of suffrage of employees in that state by permitting employees to vote without their being subject to any penalty for exercising their right of suffrage." He maintained that such an exercise of the power of the state could certainly be regarded as being in the public welfare and "is a matter for legislative judgment" which was within the powers of the state. He, therefore, concluded that the Missouri law was constitutional.

There are 14 other states which have similar laws and, therefore, this decision will benefit quite a large number of workers. The importance of this decision in this election year is obvious.

Delegate Ay of Local No. 20 reported all local membership employed in the yard.

Delegate Anderson of Local 23 reported about fifty per cent of their members currently employed on travelers, one member in the Armed Services, no Emergency Asbestos Workers. The work picture looks fairly good with continued work in the Arco area as the mainstay.

Delegate Kammer of Local No. 50 reported their work load at present is poor but within a month to six weeks the work will be very good and should need some men. Local membership is 31, of these 6 are Improvers.

Delegate Heaton of Local No. 62 reported 90 men employed in the yard. The work has tapered off from a 7-day week to a 6-day week at present. There is at present work on the books for two years at least.

reports about fifty per cent of the membership currently employed. With the break in the weather, in about sixty days, our craft work will be very plentiful with travelers welcome. About 300 additional men will be needed.

Delegate Raymond Hartung of Local No. 101 reports 19 men working, 3 are travelers, 3 Improvers, one Emergency Asbestos Worker, 6 of their own men are on traveling cards in other areas.

Report of Committees:

Committees of the Pacific Northwest Locals submitted resolutions adopted by their locals for consideration by the Western States Conference. Referred to the anticipated Western States Conference Resolution Committee.

President Hutchinson appointed W. Ay, C. Ross and William Yorath to the Finance Committee to check the books.

Moved, seconded and carried the Chair appoint a Resolutions Committee to construct and gather information toward proposed resolutions to the National Convention; the cost of the committee to be handled by the Conference.

Chairman Hutchinson appointed William Yorath, M. F. Chase and R. Stout, who set a tentative date of June 1, 1952, in San Francisco, Calif., for a meeting.

Meeting recessed at 12 noon.

Meeting reconvened at 1:30 p. m. with all delegates in attendance.

Motion made, seconded and carried unanimously that the Treasurer be authorized to draw checks relative to the Resolution Committee's needs.

Financial Committee reported books all in order with balance of $430.90. Committee recommends return to the 50c per quarter per member Conference per capita tax. The drop in the treasury was due to extra meetings deemed necessary in the past year. Moved, seconded and carried unanimously that the Committee Report be adopted and accepted with the new per capita tax rate to be in effect as of the second quarter of 1952.

Subject matter of conference maps of a legal nature for territorial jurisdictions of all Conference Locals was discussed at great length. Stressing need for clarification to employers who consistently bid work in a dual local area, where wage rates and conditions are different. Moved and seconded that the locals secure same individually. Motion was amended and seconded that the maps be secured through concerted Conference action. Amendment adopted.

Election of Officers:

Motion made by Delegate Maynard and seconded that the officers who are presently active be re-elected, carried unanimously.

The Secretary pointed out the vacancies of First Vice President and Second Vice President offices. Delegates M. Bergin as First and Delegate D. Kammer as Second were nominated and seconded. Moved and carried that the nominations be closed.

Secretary was instructed to cast the unanimous ballot of the Conference for these two candidates.

All officers were commended for a good job done.

Moved, seconded and carried that Los Angeles be the next Conference city.

After much discussion on combination welfare plan throughout the Conference, the officers assured the delegates they would continue to follow and investigate the plausibility of such action.

Before adjournment the delegates stood in silence for one minute in respect to our departed members who had passed away in the last year.

It was the unanimous desire that Host Local 50, Tacoma, Washington, be officially thanked for the best conference handled to date. Secretary was so instructed.

Adjournment at 4:30 p. m.

Respectfully submitted,

M. F. CHASE,
Secretary.

President Mullaney and Secretary Sickles together with Midwest States Conference Delegates, guests of Local 57, Sioux City, Iowa. (*See article under correspondence*).

FCDA LABOR ADVISORY COMMITTEE

Federal Civil Defense Administrator Millard Caldwell has announced the formation of a national labor advisory committee composed of representatives of the A. F. of L., the CIO, and the railroad unions.

The committee will advise the Administrator on problems concerning the protection of workers in the event of an enemy attack upon this nation and their participation in the national civil defense organization.

At it first meeting at FCDA's headquarters, the committee was brief on civil defense plans for reducing the loss of life and the destruction of property on the American homefront in the event of war. It pledged Administrator Caldwell its assistance in obtaining the full participation of labor in civil defense.

"The Labor Advisory Committee recommends to all labor organizations that international and national unions be requested to assist the Civil Defense Administration in the dissemination of educational material and information pertaining to civil defense and that members everywhere be urged to participate in the field of civil defense where they are best qualified," the Committee said in a statement issued after the meeting.

It also recommended that FCDA urge the States and cities to invite labor representatives to serve at all civil defense levels in the making of policies and plans and in civil defense operations.

Members of the Committee representing the American Federation of Labor are:

William Green, President, A. F. of L.

William C. Doherty, President, National Association of Letter Carriers.

George J. Richardson, Secretary-Treasurer, International Association of Firefighters.

W. G. Flinn, Grand Lodge Representative, International Association of Machinists.

Lieutenant Stanley T. Adams Medal of Honor

ONE BITING-COLD FEBRUARY NIGHT, Lieutenant Adams was on a bitterly contested hill near Sesim-ni, Korea. Out of the dark earth the silhouettes of some 150 Communist troops rose up against the skyline. Ordering fixed bayonets, the lieutenant, with only 13 men, leaped up and charged furiously against the overwhelming odds. He was knocked down by a bullet. At least three hand grenades actually bounced off his body before exploding nearby. But when Adams and his squad were through, there were only 50 Communists left on the hill—and they were dead.

"Nobody likes to kill," says Stanley Adams. "Nobody likes war. But today the surest way to invite a war is to be weak. You and I know that twice in the last ten years Americans have let their guard down. And the Philippine and Korean graveyards are filled with men who paid the price for it.

"Please don't make that tragic mistake again. Remember that in the world today, *peace is only for the strong*. Help make your country and your armed services stronger still—by buying more . . . and more . . . and more U. S. Defense Bonds. Put *your* bond-power behind *our* fire-power, *now*—and together we'll keep America at peace!"

* * *

Remember that when you're buying bonds for national defense, you're also building a personal reserve of cash savings. Remember, too, that if you don't save *regularly*, you generally don't save at all. So sign up today in the Payroll Savings Plan where you work, or the Bond-A-Month Plan where you bank. For your country's security, and your own, buy U. S. Defense Bonds now!

Peace is for the strong .. Buy U. S. Defense Bonds now!
