Some Facts About YOUR COVER PICTURE

WE HAVE chosen for this month's cover a view of Schneider's Castle one of the truly beautiful rock formations located in Bryce's Canyon National Park, which is located in the southwestern part of Utah. For coloring and unusual eroded formations the Canyon country is remarkable. The Canyon itself is stupendous on size and the formations are of brilliant hues. Here are acres of fantastic tower and turret formations formed by erosion, the softer red rocks being capped by a harder layer which resists weathering.

Besides Schneider's Castle, the richly colored sandstone has been molded into such figures as the Mormon Temple, The Silent City and many others. The region abounds in natural bridges and many natural caves.

This region has been only partly explored archaeologically, and new ruins are constantly being reported.

Perhaps it would be well to give some of the history of Utah. Utah was acquired by the United States from Mexico in 1848 by the Treaty of Guadalupe Hidalgo, which terminated the Mexican War. Before Mexico had become an independent nation, however, Utah was a part of Spanish possessions and the Spaniards were its first exployers. The first extensive exploration occurred in 1776, when Father Sivestre Velez de Escalante and Father Francisco Domiguez set out to find an overland route from Sante Fe to Monterey, on the California coast.

The first Americans to penetrate Utah or the Great Basin region, apparently, were the four men, Miller, Hoback, Robinson and Rezner in 1811-12. On July 23, 1847, the first Mormon company entered Salt Lake Valley. Next day their leader, Brigham Young, proclaimed: "This is the place." In April, Brigham Young's advance party of 143 men, 3 women and 2 children left Iowa with 73 wagons loaded with seeds and implements. Horses, cattle, sheep and chickens were taken along. Then, party after party crossed the plains by ox teams in the years following, until the Union Pacific was built in 1869. Many of the immigrants came from far lands. They plowed the soil and planted their crops. The Mormons were the first to practice irrigation on a large scale in the United States.

Six separate efforts in 1849, 1856, 1862, 1872, 1882 and 1887 to gain statehood were made by Utah. They were refused statehood because of their polygamous marriages, i. e., the taking of more than one wife. The final move for statehood came from the U. S. Congress in 1893, when it passed the enabling act, one of the provisions of which was that the constitution of the new state should forever prohibit polygamous marriages. The constitution was framed at a convention in 1895, submitted to the voters at the general election in November and approved. The proclamation of admission was signed by the President on January 4, 1896.

For any nature lover Bryce's Canyon is one of the most interesting, educational and truly beautiful spots in our United States. It is a tourist's paradise.

General Executive Board, Annual Session

Prior to the opening sessions of the General Executive Board, Secretary-Treasurer C. W. Sickles read a communication from General President Joseph A. Mullaney expressing his regrets at his inability to be in attendance and preside at this annual General Executive Board meeting, due to illness.

The Board members unanimously expressed their regrets over the absence of President Mullaney and instructed your Secretary to communicate these facts to him on their behalf.

Senior Vice President Hugh E. Mulligan was the unanimous choice of the Board members to preside over the General Executive Board meeting.

The annual session of the General Executive Board was called to order by Vice President Mulligan at 10 a. m.

Those present and answering roll call were: International Vice Presidents Hugh E. Mulligan, John W. Hoff, A. L. Hullinghorst, William Howell, Albert E. Hutchinson, Darrell Kammer and Thomas J. O'Neil and International Secretary-Treasurer C. W. Sickles.

Several messages to the Board extending well wishes for a successful and constructive session were received and Secretary instructed to make appropriate reply.

The morning and afternoon sessions both were spent in detailed reports from all of the Executive Board members covering craft conditions within their territories.

While the problems varied to some extent in the different areas, the one outstanding issue confronting us throughout the country was the failure of our affiliated local unions to grant membership issuance to qualified Asbestos Workers employed for years at the trade and who are continuously being refused membership in the local unions.

After thorough discussion and due consideration, it was unanimously voted that all our affiliated local unions stand instructed to grant membership issuance to all Asbestos Workers within their territories whose length of employment and trade experience qualify them for Mechanic membership.

Failure on the part of any local to be guided by these instructions in letter and spirit will resolve in action on the part of the General Office, as per instructions of the General Executive Board to your Secretary-Treasurer to bring about the organizing of the unorganized Asbestos Workers in all local union territories even if this means the sub-dividing of certain present day local union chartered territories and establishing of one or more local unions within the present day local territory.

All "emergency Asbestos Workers" employed in the territory whether or not they belong to any other A. F. of L. Labor organizations are entitled to and shall be granted membership by the local union.

Adjournment at 4:30 p. m.

Respectfully submitted,

C. W. SICKLES,
Secretary-Treasurer.

Editor, THE ASBESTOS WORKER,
Room 211, Machinists Building,
Washington 1, D. C.

DEAR SIR AND BROTHER:

On Saturday, March 20, at the Gramatan Hotel in Bronxville, N. Y., Local No. 91 of White Plains, N. Y., celebrated their 25th anniversary with a dinner dance.

The day began with a meeting of the New York State Conference, and was followed by a luncheon for the delegates and their wives.

The highlight of the evening was the presentation of a gold watch to Brother Al Fisher, who is an active charter member.

We were honored to have among our guests the delegates of the New York State Conference and their wives, our employers and their wives and also representatives from Locals No. 12, New York; No. 32, Newark, N. J., and No. 33, Connecticut.

We were sorry that our secretary-treasurer, Brother Carl W. Sickles could not attend. Our International President Joseph A. Mullaney could not join us due to illness, and we all wish him a speedy recovery.

Our sincere thanks to the New York State Conference for transferring their meeting to coincide with our celebration.

Fraternally yours,
CHARLES LENT
Secretary-Treasurer.

J., William Hornburger, Sr., Local No. 88, Richmond, Va., Thomas A. Brooks and Joseph E. Parker; Local No. 89, Trenton, N. J., Matt Mathes and Stephen J. Kopp.

In attendance as visitors were Brothers Henry Lundy and Bernard A. Fitzgerald of Local No. 32, Richard S. Liek of Local No. 65, Anthony Grello, Harry Spitzer, Stanley Biddle, Stanton Brinker, William Kunkel, John Stano and Stanley Mackowiak of Local No. 71; Thomas Dailey of Local No. 85; and Herbert C. Bressler, Jr., of Local No. 38.

International Secretary-Treasurer C. W. Sickles sent his regrets stating that preparations for the forthcoming General Executive Board Meeting was preventing his attendance.

Reading of the minutes of the last meeting was ordered dispensed with.

The Secretary was instructed to communicate with locals regarding their "absentee" delegates.

Delegate Moore of Local No. 11 reported present conditions are still busy with 60 "referrals" being used. Marine work still predominates the work now going on, apartments, stores and schools are also listed at present, a large power house is in the distant future. He also stated that unless orders are forthcoming in the maritime field a lull may be expected and the membership may need work in the territories of sister locals of the Conference.

Delegate Jakob of Local No. 14, reported very busy at the present time with 150 "referrals" augmenting local membership. Refinery work comprises the bulk of work now going on, and with a power house, schools, hospitals and the usual general small variety coming along conditions are expected to be good for at least the balance of this year. He also advised that an increase in membership is planned in the near future.

Delegate Hoyle of Local No. 24 reported conditions had been quite slow during the last quarter but that now with a large power house breaking, conditions have improved to the extent that 10 or 12 additional men can be used. He also advised on the jurisdictional dispute with the Bricklayers over boiler wall construction which was referred to the International Office and was satisfactorily settled according to the Agreement signed by the Bricklayers' International and our International.

Concluding his report he stated that although 6,500 tradesmen are idle at the present time enough in our line is coming along to keep conditions fairly good for the balance of this year.

Delegate Springle of Local No. 32 reported that present conditions were still good, with 22 Travelers in, and 75 "referrals" being used. A $90,000,000 plant for the Ford Co. will soon be started and with Oil jobs, a power house, apartment building and a hospital listed for the near future, the year '54 is expected to be a little better than '53. He also reported that the ratio is up to par.

Delegate Bressler of Local No. 38 reported present conditions still very good with entire membership working and a few "referrals" also being used. With the usual percentage of small work coming along, a power house addition at Sunbury, Institutional work at North Mountain and another power house at Williamsport in the talking stage the prospects for the next two years look very favorable.

Delegate Wardell of Local No. 42 reported conditions had been slow in the past quarter with twelve of the membership still out. However, with a break in the weather, conditions in the next month are expected to improve to the busy stage with all types of work coming along. The Improver ratio is up to par.

Delegate Gotwalt of Local No. 65 reported present conditions still very good, entire membership working together with 20 Travelers. An 18-story building is included in work now going on and with all types of construction coming along the prospects for the next several months look very favorable.

Delegate Grello of Local No. 71 reported present conditions still very busy, entire membership at work, with 7 Travelers and 36 "referrals" also being used. The Bethlehem Steel job is now moving along and the Martin's Creek power house job will soon be ready and require 50 Asbestos Workers. These jobs, together with the small variety coming along, will provide enough work for at least the next 16 months.

Delegate Hornburger of Local No. 85 reported present condition on the slow side with only four of the membership working in town, the balance are at work throughout the Conference territory. Future prospects look dismal with the addition to the Atlantic City Electric Power house now questionable.

Delegate Parker of Local No. 88 reported that after a slow period work has picked up to a point whereby the entire membership is now at work, augmented by seven "referrals." Unlimited prospects now include, Air Conditioning, chemical work, office and apartment building construction and a $100,000,000 job at Hopewell, Va., which will create enough work for at least 18 months. He also reported on a jurisdictional dispute involving the spraying of Insulmastic over insulation. This dispute, on decision, was awarded to the Asbestos Worker and our Craft is proceeding with the application of same.

Delegate Kopp of Local No. 89 reported present conditions still favorable, entire membership working, 5 Travelers and 4 "referrals" being used. The Naval Turbine Testing Lab. job still comprises the largest

operation now going on. Listed for the future is the continued expansion at McGuire Air Force Base, the addition to the Public Service Power Station at Burlington, N. J., and innumerable small type work which, when taken collectively, tends to make the future outlook very good.

Conference membership reported in Service: Local No. 11, 8 men; Local No. 14, 9 men; Local No. 24, 9 men; Local No. 32, 8 men; Local No. 65, 2 men; Local No. 71, 1 man; Local No. 88, 1 man; and Local No. 89, 2 men.

Brother Parker and Brother Brooks of Local No. 88 at this time gave the delegates a detailed outline on the "Right to Work" law, now in force in the State of Virginia. This law, together with its proposed amendments, is strictly anti-labor and must be fought tooth and nail to prevent organized labor from being engulfed by horrendous ramifications. They exhorted the delegates to fight any attempt to pass such a law in their respective states.

Delegate Roesberg of Local No. 14 gave a brief talk on chest X-Ray and advised on the clinic now being enjoyed by the general public in Philadelphia, Pa. This public service would be of great benefit to the Asbestos Worker and his family and is now available in the majority of our large cities.

At this time Chairman Hoyle expressed the thanks and appreciation of the delegates to Local No. 42, Wilmington, Del., for the wonderful manner in which they were feted at their Dinner-Dance held on February 13. It was a memorable affair and will long be cherished by those who were fortunate to be able to attend.

With all business transacted, adjournment was voted until the next regularly scheduled meeting to be held in June in Atlantic City, N. J.

After adjournment the delegates and visitors were the guests of host Local No. 71 at a buffet luncheon.

Respectfully submitted,
STEPHEN J. KOPP,
Secretary.

A telegram was read from International Secretary Sickles to Don Chrisman, Business Agent, Local No. 39, regarding an agreement between the Painters' International and ours on Insulmastic work. This agreement provides that our membership will apply Insulmastic regardless of the method of application, brush, spray or trowel, when said Insulmastic is applied over and as a finish of our insulation. They also worked out a financial arrangement of collecting dues from all of our membership employed on this operation including Travelers, and Secretary Sickles instructed that this system would be satisfactory to the General Office except as to the amount to be collected and in this instance he instructed that the daily work day dues be cut in half as to the amount agreed upon by the Business Agents of the two locals which will result in $5.00 monthly and 25 cents work day dues on this operation.

Agreement expires November 1, 1954.

Delegates Jentzel, Nelson and Johnson of Local No. 31 report on the activities of one of the Insulation Contractors in Providence who has been continually obstructing the bringing about of a satisfactory trade agreement as in effect with other Insulating employers in their territory and has brought about a serious situation among the Heating and Plumbing Contractors throughout New England and that these same piping companies have prevailed on this Insulation Co. to settle their differences with Local No. 31 in order to have their work completed but have met with no results.

The membership of Local No. 31 has not worked for this insulation company since December 18, 1953, and up to date three meetings have been held by a committee from Local No. 31 and the said employer with his representatives and the breach has widened from meeting to meeting.

The situation effects the four New England locals as the said employer is operating jobs in the four territories. Locals Nos. 6, 33 and 43 are making an all-out effort to assist Local No. 31 against iron curtain methods and tactics used by this employer.

Delegate Hoff of Local No. 6 reports work is slow at present though the employers have been very busy the past few weeks figuring work. Some members have gone out on Travelers. Several large and small power plants are in the making with one large power plant partially manned at present.

Some state work planned along with schools in several cities and towns, plus some marine work being manned by two shops. A large new paper mill and a new power plant in connection with same will employ a large number of men in the course of nine months or so. A large air field project will come along later in the year.

Building Trades men in the locality have been unemployed for some time and several Unions have been shipping their men out of town wherever work opportunities are available.

Secretary Sickles reporting for the General Office enumerated several places where any of our idle membership may secure work. He also reported on the new agreement that was recently negotiated between our International and the Bricklayers Interternational and has finally settled a dispute that has carried on for several years between both Internationals in many parts of the country and of the many decisions that have been handed down on same, by the Joint Board.

Under this new agreement both sides will have to abide by it and any disagreement on a job over same will have to be referred to both Internationals.

The meeting adjourned at 2 p. m. and all delegates were the guests of Local No. 33 at luncheon.

Respectfully submitted,
JOHN W. HOFF,
Secretary.

All the Conference delegates pledged their support to Rochester and it was hoped that the plan will be statewide at an early date.

Local No. 4 reported that the entire membership is working at present with a few referral men. The future looks fair and travelers are welcome.

Local No. 12 reported all members working, there is a slow period coming up, after which there should be a fair amount of work.

Meeting recessed at 12:30 p. m. for luncheon tendered by Local No. 48.

Delegate Howell of Local No. 78 reported most of the membership working in home territory, some on Travelers. Future work looks good.

The length of time an employer is permitted to hold back wages following the close of workweek was brought before the Conference and Secretary Sickles advised that the three-day maximum hold-back period had been the policy of our International for a lifetime and that same was reaffirmed by official action of the General Executive Board at the annual session, March, 1944. Secretary Sickles agreed to comply with the request of the Conference and direct official communication from the General Office covering this subject matter.

The expiring of practically all of the agreements of the Conference locals was given extended consideration. The President of the Conference was authorized to call a special meeting of the Conference to further consider this subject matter prior to June 1 should developments indicate justification in holding such a meeting.

The only affiliated Local Union not represented was Local No. 60, Miami, Fla., and communication from Business Agent J. E. Henry was read advising his inability to be in attendance due to agreement negotiations. Secretary Sickles then advised that during a series of conferences with the officers of Local No. 60, policy had been proposed and endorsed by the General Executive Board whereby Local No. 60 in the future would operate with both Miami and West Palm Beach constituting terminal cities for the purpose of determining expenses when members are employed away from these two terminal cities.

The question arose regarding payment of Social Security and Workman's Compensation by the locals on Business Agents and other employes and locals advised that by Federal Law they must make deductions of payment for Social Security as also Withholding Tax on any Business Agent or other employes of the Local and that all locals must carry insurance for protection of their Business Agent or other employes whether on part-time or full-time in accordance with their State Compensation Law requirements.

Communication from one of the Greensboro, N. C., Local No. 72 employers with shop located in Durham, N. C., developed an extended explanation of the policy in effect in several parts of the country where

our locals have been obliged to meet this question of payment of board and expenses, in towns where shops are located, and the local advised to take corrective measures which would find them working under the so-called twin terminal system which in this instance would include 3 terminal cities; namely, Greensboro, Durham and Winston-Salem, N. C. (This advice in furtherance of General Executive Board action) The local requested and was granted reasonable time to make necessary adjustments.

With all business transactions completed, the meeting was adjourned at 4:00 p. m.

Respectfully submitted,
H. M. HOFFMAN,
Secretary.

Due to Secretary Sickles and Vice President O'Neil having arrived on the date preceding the Conference meeting in Fort Wayne, there was quite a bit of the routine business taken care of that ordinarily would have come before the meeting proper the following morning, particularly advice to local union officers on purely local affairs.

This gave the assembled delegates the opportunity to discuss more thoroughly the various problems confronting our craft at this particular time. Secretary Sickles, in relation to these matters, gave the necessary advice and instructions and elaborated on the communication sent out to all locals by the General Office, regarding the action taken by the General Executive Board at their recent meeting in Washington, D. C.

He also touched briefly on other matters such as the successful agreement reached with the Painters' International regarding our using Insulmastic. When used in conjunction and as a finished coat over our insulating materials, whether by trowel, brush or spray, this work belongs to the Asbestos Worker.

Under the heading of new business, the subject was brought up of having the Conference furnish all the affiliated locals with a copy of the By-Laws of a Joint Trade Board, that has been set up recently by one of our Eastern locals, with a suggestion that this plan be used as a pattern for any future use by our locals, if they so desire. Secretary Sickles stated that as he has a photostat machine in the General Office, that he would oblige by sending these copies to said locals. This offer was gladly accepted by the delegates.

Secretary O'Neil then brought up the subject of where the next Conference was to be held. Upon formal request of Brother J. W. Conkwright, and there being no objections, it was voted that the next Central States Conference be held in Evansville, Ind. The host to be Local No. 37, the time and place to be announced later.

Brother Carlton Sickles of Carday Associates, Washington, D. C., was in this city in connection with a meeting of the trustees of the Central States Conference Health and Welfare Fund. Local No. 80, Charleston and Huntington, W. Va.; Local No. 8, Cincinnati, Ohio, and Local 79, Dayton, Ohio are at this time a part of and covered by this Conference Welfare Fund. Several other Conference locals expect to join this fund as soon as they complete negotiations with their employers. He gave a very interesting report on the benefits derived by locals covered by the Asbestos Workers' Central States Welfare Fund since the inception of this program.

There being no further business and all delegates being in accord, the meeting was adjourned and the delegates and visitors enjoyed a luncheon given by the Conference at the Van Orman Hotel.

Respectfully submitted,
THOMAS J. O'NEIL,
Secretary.

Local No. 21, Dallas, Fort Worth, Shreveport, reported over 200 members with Improver ratio correct. Reported work volume holding up well at the present with six power house jobs in various stages of construction being erected now and three or four more power houses to be started before long. Several large buildings, including a Statler Hotel, refinery work and two fair size jobs at Government ordnance installations make the future appear to be fairly good.

Local No. 22, Houston, Beaumont, Port Arthur, and Galveston, reported a membership of over 300 with Improver ratio correct. Reported work very slow at the present with 60 members on Traveling Cards. Further reported that the future looks bright with some big jobs coming up at the Texas Company and Gulf Refinery.

Local No. 66, Amarillo and Borger, reported 64 Mechanics and 21 Improvers now in the local. Reported work slow now but that two powerhouses and a Texaco Refinery in Amarillo make the future look good.

Local No. 76, Albuquerque, reported 64 members and work slow at the present. Further reported that the future looks good but that a lot depends on federal work which makes it impossible to foresee definitely just how good the work will be.

Local No. 87, San Antonio and Austin, reported membership of 60 Mechanics and 12 Improvers, 28 Travelers, and 15 emergency men being used. Reported Rockdale as the only room and board job now in the territory. Further reported that the future looks good with work at the University of Texas and several large hospital jobs expected to take up quite a bit of slack in the territory.

Local No. 94, Oklahoma City, reported work pretty even at the present time but that the future looks good with four room and board refineries making it probable that Travelers will be welcome in the near future.

Local No. 106, El Paso, reported 36 Mechanics and 11 Improvers with work very slow at the present but that the future looks good with a Texaco Refinery and a power house job coming up soon.

Local No. 112, Lake Charles and Orange, reported a membership of 68 with 18 Improvers. Reported that a Building Trades strike has slowed work considerably in the territory with maintenance work furnishing the main source of employment. Further reported that the future seems fair with a Cities Service job coming up.

Local No. 113, Corpus Christi, Laredo, and Harlingen, reported 62 members with 14 Improvers comprising the local. Reported work very slow at the present time but that two power house jobs make the future appear fair.

Conference President Hullinghorst extended welcome to International officers William Howell and C. W. Sickles and also to Brother C. R. Sickles of Local No. 24 who is the attorney for our International office. The Conference President noted that we now have 13 affiliated locals in the Conference and that it was gratifying that all 13 locals were represented by delegates at the meeting.

As per custom, at this point the meeting was thrown into open discussion. During these discussions

Secretary Sickles answered several questions from the floor. He then made a talk on the importance of the Labor's League for Political Education effort to raise funds to help in the coming elections and he urged all local unions to sell the tickets and get the money back in to headquarters as labor is just beginning to feel the effects of the Taft-Hartley and state laws. He stated that the coming elections are a "must" for labor.

Brother Carlton R. Sickles was called on for a talk and he explained his connections with welfare plans of various locals. He further offered his services to any local with any problems concerning welfare programs.

At this time the Conference was recessed until 2 p. m. for a luncheon for the delegates and visitors as guests of Local No. 55. Present also at the luncheon were I. L. Coates and J. W. Graves of the Aber Company, Jim Chambers and George Schultz of the Fletcher Company, and Mr. Abrams and Mr. Allen. Meanwhile wives of the delegates were being guests at another luncheon at Fletcher's Place with a trip to the famous Bellingrath Gardens planned for them.

At the afternoon session Secretary Sickles announced the General Executive Board in its annual March meeting had instructed him to issue new charters to Odessa, Tex., and Jackson, Miss. He also announced that the Executive Board had adopted the Rand McNally, sales area control map as the official map of our trade. A motion properly seconded, carried that the Southwest Conference vote approval of the new map. Motion carried.

Conference President Hullinghorst explained that he was not eligible for the office of president and declared nominations in order for the president of the Southwest Conference. Brother Ben Green of Albuquerque was nominated by Brother Shipley of Houston. Brother Shipley was nominated but declined. Brother Brown was nominated but declined. Brother Green was elected by acclamation. The next Conference meeting in September will be in San Antonio, Tex.

At this time Secretary Sickles and Vice President Howell expressed their pleasure in visiting the Conference meeting which Secretary Sickles referred to as being exceptionally harmonious.

He praised the good fortune of the Conference in obtaining the services of Brother Ben Green of Albuquerque, N. Mex. as its president. He further complimented Brother Green personally on his many achievements and advancements in labor since first becoming an officer of his home local which includes his being an officer of the Albuquerque Labor movement and he was elected as a delegate representing the Labor movement of Albuquerque at the Houston, Tex., A. F. of L. National Convention. He has for some years and is currently Vice President of the New Mexico State Federation of Labor. Keep up the good work—Ben—we are all proud of you.

All delegates, guests and their wives were high in their praise of the southern hospitality displayed by the host local which was culminated by a dinner-dance in the spirit of Mardi Gras in the Camellia Room Saturday evening at which everyone seemed to have a big time.

Respectfully submitted,
W. A. JACKSON,
Secretary.

Luncheon tendered delegates, visitors and wives attending the Central States Conference Meeting as the guests of Local No. 41, Fort Wayne, Indiana.

Under his jacket

Are you proud that he has everything he needs as he starts the adventure of each day at school? Be prouder still of something hidden under his trim jacket —the stout heart that sends him off unafraid and eager.

This, too, you have given him because your love has made his small world secure. With it, he will build his own security as each challenge comes, in those days when he must stand alone without you.

What finer gift can you give those you love than the gift of security? It is the great privilege in America, where we are free to provide it.

And think, too—this is the way each of us helps build the security of our country, by simply taking care of our own. A secure America is the sum of its secure homes.

The security of *your* country begins in *your* home.

Saving for security is easy! Read every word—now!

If you've tried to save and failed, chances are it was because you didn't have a *plan*. Well, here's a savings system that really works—the Payroll Savings Plan for investing in U.S. Savings Bonds. This is all you do. Go to your company's pay office, choose the amount you want to save—a couple of dollars a payday, or as much as you wish. That money will be set aside for you before you even draw your pay. And automatically invested in Series "E" U.S. Savings Bonds which are turned over to you.

If you can save only $3.75 a week on the Plan, in 9 years and 8 months you will have $2,137.30.

U.S. Series "E" Bonds earn interest at an average of 3% per year, compounded semiannually, when held to maturity! And they can go on earning interest for as long as 19 years and 8 months if you wish, giving you a return of 80% on your original investment!

Eight million working men and women are building their security with the Payroll Savings Plan. For your sake, and your family's, too, how about signing up today? If you are self-employed, ask your banker about the Bond-A-Month Plan.
