ANNOUNCE DOWLING AND EDDY PROMOTIONS

J. A. Dowling

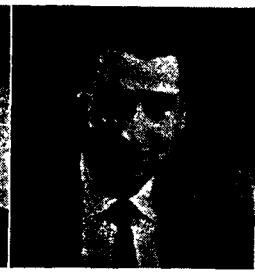

W. E. Eddy

Vice President for Finance Roger Hackney has announced the appointment of Joseph A. Dowling as Controller of Accounts, effective last December 16. Joe came with Johns-Manville's Accounting Department in 1918 and served in various sections until he became J-M's General Auditor in 1953. He is a member of the faculty of City Colle of New York's Graduate School, teaching courses in accounting and internal auditing.

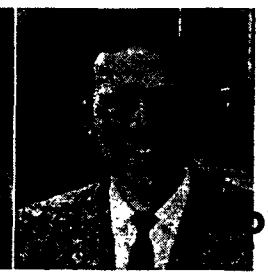

Mr. Hackney also announced that the Audit Committee of the Board of Directors has appointed Walter E. Eddy to succeed Mr. Dowling as General Auditor. Walter started at our Waukegan plant in '36. After a series of posts there, such as Chief Clerk, Chief Cost Engineer and Principal Cost Accountant, he moved to Zelienople plant as Office Manager. In '47 he became Senior Auditor on the Internal Auditing staff.

W. L. VanDerbeek

Heinz Engel

E. V. Saxby

PRODUCE
JM - 83

K. M. Thomson

M. C. Parmley

VanDerbeek, Engel, Saxby Move Up as Pipe Division Creates Post

William L. VanDerbeek started the New Year in a newly-created post, Assistant Production Manager of J-M's Pipe Division. Bill started as a Manville Industrial Engineer in '39, was Chief Industrial Engineer on the West Coast and then moved to posts at GHQ and DHQ. Since 1957 he has been Manville Pipe Plant Manager. That position is now filled by Heinz Engel, who has been Watson Pipe Plant Production Superintendent for two years. He is an eight-year J-Mer, beginning as an Assistant Engineer with Pipe's Research and Task Force at our Research Center. Four years later Heinz moved to DHQ to become Sr. Methods Engineer on the Production Engineer's staff. Eugene V. Saxby has been named Watson Pipe's Production Superintendent. Gene started at Watson five years ago as an Industrial Engineer. All three promotions were effective on January 1st.

Jobe Announces Promotion Of Thomson and Parmley

J. B. Jobe, Distributor Insulations Products General Sales Manager, announced two promotions, effective on January 1. K. M. Thomson is Manager of Construction and Distributor Relations at DHQ and M. C. Parmley is Assistant District Manager at Houston. Ken Thomson's an 11-year J-Mer, starting in Houston's Contract Unit. He held several positions there until, in '52, he was shifted to Los Angeles where he became Contract Manager. Since 1957 he has been selling to the oil industry to gain varied experience. Mel Parmley began as a Salesman-in-Training in '36 and became a Salesman in the Amarillo, Texas area. He served as a Captain in World War II and returned to sell in Houston.

R. H. Barnard, Jr.

R. L. Hull

BARNARD SHIFTED TO CARPENTER RD. PLANT, HULL NAMED MANAGER

In a realignment of managerial duties at Defiance, R. H. Barnard, Jr., has been appointed Manager of the Carpenter Road Plant and Robert L. Hull has been promoted to Manager of Plant 3. Randy Barnard began nine years of fiber glass experience as an Industrial Engineer at Waterville plant. Later, he shifted to sales in the Charlotte, N. C. area where he rose to District Manager. In 1958 he returned to manufacturing as Superintendent at Plant 3 and, last year, he was named Plant Manager. Bob Hull started in 1950 as a Machine Operator. After two years, he was promoted to Insulation Department Supervisor and in another three became Assistant Department Head. In 1958 Bob was made a Department Head.

Glenn Stuchell

F. R. Joy

GLENN STUCHELL AND FREEMAN R. JOY ARE SHOWN A MONTH LATE

Last month's NEWS PIC announced promotions of Glenn Stuchell and Freeman R. Joy but their photos didn't arrive in time to be included. So here they are—better late than never. Glenn's Scheduling and Finance Manager at Waukegan Industrial Insulations plant, Freeman is Watson Finance Manager.

KAY WILLIAMS COMPILES SUPPLEMENT TO QUARTER CENTURY CLUB'S ROSTER

Every other year NEWS PIC publishes a complete roster of J-M's Quarter Century Club (see January 1959 issue for latest list) and in intervening years the supplement (above) is printed. These compilations are prepared by Quarter Century Club Records Clerk Kay Williams. Kay computes the years of service of each J-Mer as he nears the 25 mark, notifies chapters of eligible inductees, supplies watches, pins and membership cards and keeps records of each member. Kay herself has been a QCCer for "x" years.

1960'S – WHAT'S AHEAD

Here we go . . . we're "off and running" into a new decade that the forecasters report could be the greatest business era in our nation's history.

There's optimism about jobs, products and markets—even more important there's optimism about spending.

Merchants and manufacturers the nation over are preparing and planning for more demands for products.

The key to individual company success in the era ahead will depend on planning—planning the styles and types of products people want—planning the necessary facilities to produce them—planning for the men and women needed to produce, sell, collect the money and pay it out to employees, suppliers and stockholders.

J-M division managers and senior officers have called for reports from all over the company . . . reports to be used in management planning to insure J-M a front seat in the 1960's.

HANDLING CHARGE$

Here's one for the books.

Recently some community leaders were kicking around some ideas for financing new roads. The question came up whether it's better to raise the money locally or accept a dole from Uncle Sam.

They decided to pay for it locally. And here's one reason why—

For every tax buck the government collects from local communities, it can only send back 60 cents in federal hand outs. The other 40 cents goes into "handling charges". That is the cost of taking the tax dollar from pay checks, routing it through Washington, transferring it to the agency handling the aid program and sending back 60 cents.

NEEDED: 17 MILLION JOBS

The 1960's will present some real challenges to the nation.

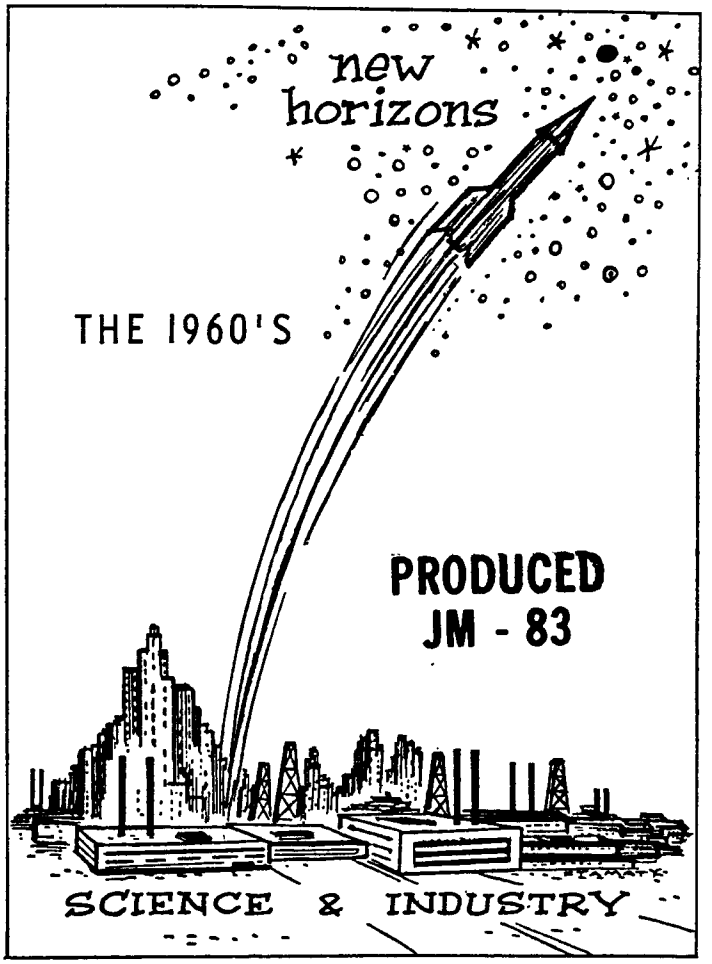

At the top of the list is the need for creating some 17 million new jobs. This is because our present work force of 70 million is expected to grow to 87 million by 1970.

This is quite a task when you consider the costs. Tools and equipment for a single new industrial job these days cost an average of $15,000. That means an outlay of $15 billion for each million jobs, or $255 billion to pay for 17 million new jobs.

Where will the dough come from?

A large portion of the money will come from individual savings and from profits plowed back by companies.

Let's hope the tax collectors leave enough cash to make 17 million new jobs possible.

HOW DO WE RANK?

According to a leading national magazine, there are 4,362,700 business firms in the nation.

Of these, 4,131,400 have fewer than 20 employees; 189,650 have 20 to 99 employees; 38,100 have 100 to 999 employees; only 3,550 companies employ 1,000 or more.

We're right up "among 'em" with 22,000 of us.

It's interesting to note that through the course of our history we ran the whole scale from two employees in 1858 to our record high today.

And we're still growing.

WORD WISE

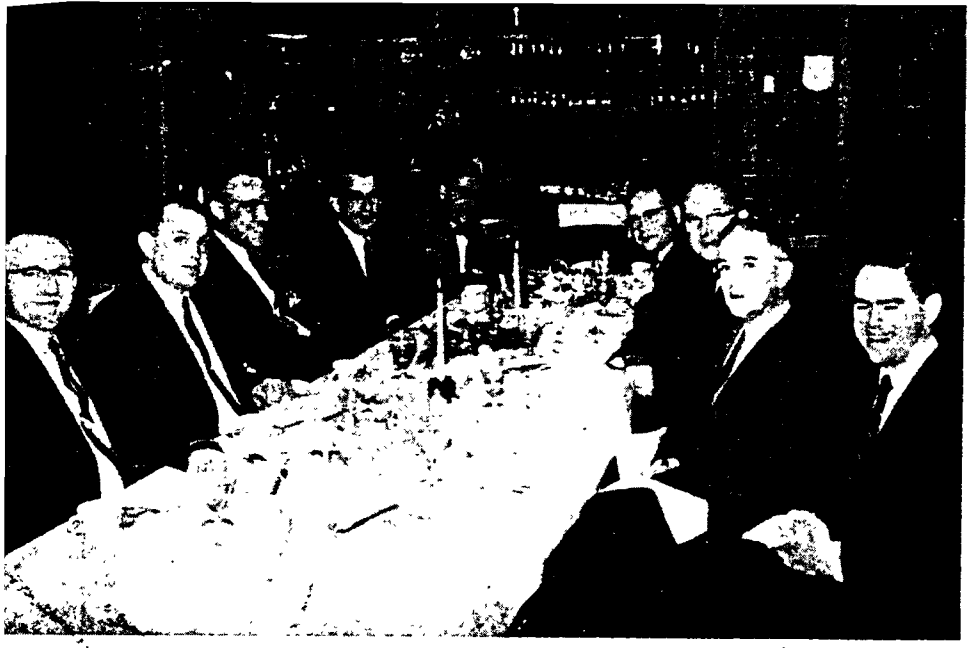

Any one who ever set the world on fire started by burning a little midnight oil.

COVER PIX

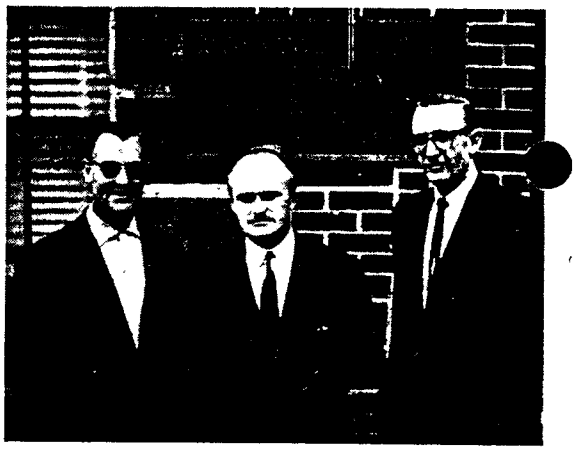

Laurent Courtois believes in safety glasses. He was blowing a primary drill hole when a flying rock chip smashed one lens. Laurent, like everyone else at Jeffrey Mine, is sold on safety. Our Canadian unit may break the all-time record for underground, non-metallic mining this month. Jan. 6 it had 2,605,000 manhours without a lost time accident. NEWS PIC's February issue will tell the story of the men and methods that set this Johns-Manville and industry standard. The issue will also carry our 1959 Earnings Report. Watch for it!

TRAVEL TO TILTON TO TRADE THOUGHTS

Four Manville Industrial Insulations plant J-Mers plus one DHQer journeyed to Tilton plant for a person-to-person exchange of production ideas and to become better acquainted with their Tilton counterparts. *From left* Tilton's Millard Smith, Manville's Bob Dobson (Acting Plant Manager), Tilton's Sam Webster, Manville's Bob Hoagland, Tilton's W. O. Wilkinson (Plant Manager), Manville's Al Jung and Harold Bird, Tilton's Charles Dwinal, DHQ's Jim Magee.

Roclaine Will Add Permacoustic To Its Line for European Sales

Georges Verneuil (center), Production Manager of Roclaine S. A., visited Alexandria plant to study our Permacoustic production equipment and methods. Roclaine, which is situated near Rouen, France is a J-M licensee producing our Sanacoustic and Rock Wool. The company will soon be producing Permacoustic for Europe and North Africa. Alexandria Plant Manager J. E. Pickering (right) and Shift Foreman J. P. Crull were M. Verneuil's hosts.

DUTCH BRAND HOLDS KEGLER TOURNEY

Dutch Brand has inaugurated an annual individual handicap bowlers tournament. This year's event drew 85 bowlers and many more kibitzers. Waiting for their turns in the front row (above) are keglers *from left* Stanley Kracinski, E & R; Angelo Curatolo, Slitting; Sam Curatolo, E & R; Charles Trafficanta, Receiving; Roscoe Nicodemus, Plant Manager; Louis Holmer and George Brown, Millroom.

* * *

Left Chairman Roy Paeth (3rd from left), Quality Control, and his committee were in charge of the tourney. *Left to right* Angelo Curatolo, Slitting; Angelo Ydreo, Industrial Relations and Louis Holmer, Millroom. Top winners in the tournament were Theresa Fitzgerald, of Molding, and Louis Strapp, of Packaging Department.
