ARTRA 524(g) ASBESTOS TRUST

NOTICE OF PAYMENT
OF LIQUIDATED CLAIMS

Due to liquidity issues, the ARTRA 524(g) Asbestos Trust (the "Trust") temporarily suspended payments of liquidated claims. Please be advised the Trust will resume payment of liquidated claims in October 2011. The holders of liquidated claims with signed releases as of October 17, 2011 will receive 50% of their claims calculated at the then-current payment percentage of 7.5% and the remaining 50% if and when funds become available. Payment in full of the liquidated claims at this time is not possible because payment in full would leave the Trust with only $14 million for all other claimants.

The Trustee, the Trust Advisory Committee ("TAC") and the Futures Representative have engaged in extensive discussions to address the liquidity issues facing the Trust, including an analysis of the claims forecast and a review of the operational and administrative expenses of the Trust. As a result of these efforts, the Trustee, with the consent of the TAC and Futures Representative, has reduced the payment percentage to 0.50% for unliquidated claims and amended the trust distribution procedures to provide greater efficiency in processing claims. The changes to the trust distribution procedures are summarized in the Notice of Payment Percentage Adjustment and set forth in the Second Amended Trust Distribution Procedures, both of which are posted on the Trusts' website at www.artratrust.com.
