ABB LUMMUS GLOBAL INC. 524(g) ASBESTOS PI TRUST
NOTES TO THE SPECIAL-PURPOSE FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE TRUST

The ABB Lummus Global Inc. 524(g) Asbestos PI Trust ("Trust") is a Delaware statutory trust created to assume all Lummus Asbestos PI Trust Claims (whether now existing or arising at any time hereafter) and to use the Lummus Asbestos PI Trust Assets to pay holders of such Lummus Asbestos PI Trust Claims in accordance with the Lummus Trust Agreement Trust Distribution Procedures ("TDP"), and in such a way that all holders of Lummus Asbestos PI Trust Claims that involve similar claims are treated in substantially the same manner and to otherwise comply in all respects with the requirements of a trust set forth in Section 524(g)(2)(B)(i) of the Bankruptcy Code. The Trust was established pursuant to the Prepackaged Plan of Reorganization of ABB Lummus Global Inc. as confirmed by the United States Bankruptcy Court (the "Confirmed Plan"). The Confirmed Plan became effective on August 31, 2006 (the Effective Date or the Effective Date of the Plan of Reorganization). Capitalized terms have the meanings as defined in the Confirmed Plan.

At inception, the Trust was funded with $5,000,000 in an insurance settlement guaranty payment and $5,400,000 in cash proceeds from a promissory note dated August 31, 2006, in the principal sum of $33,000,000. On May 2, 2007, the Trust received payment of $28,711,562 from ABB Lummus Global, Inc. as final payment on the promissory note. The cash contributed on May 2, 2007 included $27,600,000 in full principal payment and $1,111,562 of interest. As of May 2, 2007, the promissory note of $33,000,000 has been paid in full.

The Trustee is responsible for supervising and administering the Lummus Asbestos PI Trust Claims resolution process. The Trust will use its funding for Trust operations and for settlement of the Lummus Asbestos PI Trust Claims as defined in the Confirmed Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Trust's financial statements are prepared using special-purpose accounting methods that differ from accounting principles generally accepted in the United States of America. The special-purpose accounting methods were adopted in order to communicate to the beneficiaries of the Trust the amount of equity available for payment of current and future claims. These special-purpose accounting methods are as follows:

The financial statements are prepared using the accrual basis of accounting.

Funding received from ABB Lummus Global, Inc. has been recorded directly to net claimants' equity. These funds do not represent income of the Trust. Settlement offers for asbestos personal injury claims are reported as deductions in net claimants' equity and do not represent expenses of the Trust.

Costs of non-income producing assets, which will be exhausted during the life of the Trust and are not available for satisfying claims, are expensed as they are incurred. These costs include acquisition costs of computer hardware, software, software development, office furniture and leasehold improvements.

ABB LUMMUS GLOBAL INC. 524(g) ASBESTOS PI TRUST
NOTES TO THE SPECIAL-PURPOSE FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

The liability for unpaid claims reflected in the statements of net claimants' equity represents settled but unpaid claims and outstanding settlement offers. Lummus Asbestos PI Trust Claims' liability is recorded once a settlement offer has been made to the claimant and accepted by the claimant by submission to the Trust of an executed release. Net claimants' equity represents funding available to pay present and future claims on which no fixed liability has been recorded.

Use of Estimates

The preparation of financial statements in conformity with the special-purpose accounting methods described above requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net claimants' equity during the reporting period. Actual results could differ from those estimates. The most significant estimates with regard to these financial statements relate to unpaid claims.

Cash and Cash Equivalents

The Trust considers cash on hand and all highly liquid debt instruments purchased with a maturity of one month or less to be cash equivalents.

The Trust places its cash with a high quality credit institution. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. The Trust routinely assesses the financial strength of its banking institution and, as a consequence, believes that its cash credit risk exposure is limited. At December 31, 2013 and 2012, the Trust maintained a bank account which held funds in excess of FDIC-insured limits.

Investment Securities

Investments securities stated at market value are based on quoted market prices at the date of the financial statements with the changes in unrealized gain and losses recorded in the current period. Investment income is recognized when earned. Gains and losses on sales are determined by specific identification.

The Trust classifies its marketable equity securities as available-for-sale. The investment securities are considered to be available-for-sale securities, as they are used to satisfy claims, and are reported at market. All interest and dividend income, as well as net realized gains/losses, are included in investment income on the statement of net assets available for the payment of claims. Realized gains and unrealized gains and losses are recorded as separate components on the statement of net assets available for the payment of claims.

Realized gains/losses are recorded based on the security's original cost. At the time a security is sold, all previously recorded unrealized holdings gains/losses are reversed and recorded net, as a component of other unrealized gains/losses in the accompanying statement of changes in net assets available for the payment of claims.

The Trust will utilize $41,207 of the deferred tax asset for the year ended December 31, 2013.

NOTE 5 - CONTINGENT LIABILITIES

The Trust estimates the amount of potential exposure it may have with respect to claims, assessments and litigation as defined by the Contingencies Topic of the Financial Accounting Standards Board Accounting Standards Codification. All Lummus Asbestos PI Trust Claims as defined in the Confirmed Plan have been assumed by this Trust. If any other legal proceedings occur, it is not always possible to predict the outcome, as they are subject to many uncertainties. Additionally, it is not always possible for management to make a meaningful estimate of the potential loss or range of loss associated with such litigation.

NOTE 6 - LIABILITY FOR ASBESTOS CLAIMS

Effective June 13, 2011, the Trust revised the payment of TDP Determined Lummus Asbestos PI Trust Claims. The holders of TDP Determined Lummus Asbestos PI Trust Claims already in the FIFO Payment Queue were paid the liquidated value of their claims times a Payment Percentage of 20% and new claims were paid at the liquidating value times a Payment Percentage of 10%. The Trust paid claims of $1,134,384 and $1,870,819 during the years ended December 31, 2013 and 2012, respectively.

NOTE 7 - TRUSTEES' LIABILITY INSURANCE

Directors and officers' insurance was purchased from XL Specialty Insurance Company for $33,160, per year, during the years ended December 31, 2013 and December 31, 2012, respectively. The policy term is from December 7, 2013 through December 7, 2014. Insurance expense amounted to $33,160 and $33,160 for the years ended December 31, 2013 and 2012, respectively.

NOTE 8 - TRUSTEE EXPENSES

Fees and expenses of the Trustee for the year ended December 31 2013 and 2012 were $59,314 and $66,165, respectively.

NOTE 9 - FAIR VALUE MEASUREMENTS

The Broad Transactions topic of the Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Trust has the ability to access.

NOTE 9 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data or correlation by other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Equity Securities: Valued at the net asset value ('NAV') of shares held by the Trust at year end.

Fixed Income Securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Trust's assets at fair value at December 31, 2013 and December 31, 2012, respectively:

	Assets at Fair Value at December 31, 2013			
	Level 1	Level 2	Level 3	Total
