Code. The Chapter 11 cases were consolidated for procedural purposes and jointly administered pursuant to an order of the Court. On December 28, 2005, the United States Bankruptcy Court for the Eastern District of Louisiana (the "Bankruptcy Court") recommended confirmation of the Plan in Consolidated Case Nos. 00-20992 through 00-10995. On January 17, 2006, the United States District Court for the Eastern District of Louisiana entered an order confirming the Plan. On February 22, 2006 (the "Effective Date"), the Plan became effective and the Trustees began to operate the Trust.

On the Effective Date, pursuant to the terms of the Plan, the Trust was funded with the McDermott Consideration, as that term is defined in the Plan. The purpose of the Trust is to assume the liabilities of the Debtors, their predecessors and successors in interest, arising from or related to Asbestos PI Trust Claims, as defined in the Plan, and to use the assets of the Trust to pay both present and future asbestos claimants in such a way that the holders of Asbestos PI Trust Claims are treated fairly. See Trust Agreement, Section 1.2

portfolio. The Trust's invested assets are allocated in compliance with the Trust's investment guidelines. At the end of the reporting period, the target allocation was as follows: 80% of the Trust's invested assets are committed to fixed income (20% is allocated to short-term municipal bonds and/or cash and 60% to intermediate-term municipal bonds; the remaining 20% of the Trust's invested assets are committed to equities (8% are allocated to U.S. equity managers and 12% are allocated to non-U.S. equity managers). The portfolio was largely in line with the target allocation at year-end 2010.

The Trust continues to retain the following managers: Sanderson Asset Management Limited, Northern Trust and Harding, Loevner Management as non-U.S. equity managers; Northern Trust as U.S. equity manager; Standish Mellon and Eaton Vance as intermediate-term municipal bond managers; and UBS as a short-term municipal bond manager. Northern Trust served as Custodian for the Trust's separately-managed investment accounts. The Trust's actively managed non-U.S. equity portfolios are invested through commingled vehicles that have a separate custodian (selected by the investment manager) for each of the respective vehicles. The Trust utilizes custodian accounts, wire transfers and zero-balance banking accounts to reduce its exposure to systemic banking system risk.

During the Reporting Period, the Trustees regularly met with Cambridge for updates and reports on the investments. In addition, in March 2010, the Trustees held an Annual Review meeting where they met with investment managers to review each organization, investment strategy, performance and market outlook for the upcoming year.

G. Insurance Coverage Matters

The Trust retained Gilbert LLP as Special Insurance Counsel to the Trust. Prior to the Effective Date of the Plan of Reorganization, the Debtors and other Plan Proponents reached settlement agreements with many of the Debtors' historical insurers that required the settling insurers to make cash payments to or for the benefit of the Trust. Certain of those agreements required the settling insurers to make payments into escrow accounts during the pendency of the bankruptcy case, and those escrow accounts were released to the Trust in the first quarter of 2006. Certain other settlement agreements required the insurers to pay settlement proceeds to the Trust after the Plan's Effective Date in 2006. Each year since the Plan Effective Date, the Trust has received substantial payments from insurers including in 2010. In addition, some of these settlement agreements require the settling insurers to make payments to the Trust on agreed-to payment schedules that extend beyond 2010. As a result, the Trust anticipates receiving additional payments through 2011 under these settlement agreements. Although the Plan Proponents settled with many of the Debtors' insurers prior to the Plan's Effective Date, they did not settle with all of the Debtors' insurers. Accordingly, in 2006, the Trust initiated settlement discussions with several unsettled insurers, which continued through 2010. In December of 2010, the Trust settled its claim against one insolvent insurer, resulting in a payment of $7.6 million in insurance proceeds. The Trust anticipates that its efforts to secure coverage from unsettled insurers will continue at least through 2011.

H. General Counsel

Campbell & Levine, LLC of Pittsburgh, Pennsylvania and Wilmington, Delaware continued to serve as general counsel to the Trust. Baldwin Haspel Burke & Mayer, LLC of New Orleans, Louisiana continued to serve as local counsel.

A summary of the claims processing procedures and policies may be found at the Trust website at www.bwasbestostrust.com.

B. Reconsideration of Payment Percentage

Section 4.2 of the Trust Distribution Procedures requires that the Trustees reconsider the payment percentage if they deem such reconsideration to be appropriate in order, among other things, to assure that the Trust will be able to pay similarly situated current and future claimants as equitably as reasonably possible. After such a reconsideration, on August 4, 2009, the Trustees proposed to the Trust Advisory Committee and the Future Claimants' Representative of the Trust, whose consent to the payment percentage reduction is required by Section 2.2 (g)(i) of the Trust's Trust Agreement, a reduction to the Payment Percentage to 15%. In accordance with Section 4.3 of the Trust's Trust Distribution Procedures, during the pendency of the consent process, the payment percentage will be 15%.

As required by Section 4.2 of the Trust Distribution Procedures, the Trustees have based their decision to propose a reduction in the payment percentage on current estimates of the

number, types and values of present and future claims against the Trust, the value of assets currently available for claims payments, anticipated processing, administrative and legal expenses, and other material matters that the Trustees and their advisors considered to be reasonably likely to affect the sufficiency of the assets to pay a comparable percentage of full value to all holders of claims against the Trust.

We have audited the accompanying special-purpose statements of assets, liabilities and net assets available for the payment of claims of The Babcock & Wilcox Company Asbestos PI Trust (the Trust) (a statutory Trust created under the laws of the State of Delaware) as of December 31, 2010 and 2009, and the related special-purpose statements of changes in net assets available for the payment of claims and special-purpose statements of cash flows for the years then ended. These special-purpose financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2 to the special-purpose financial statements, these special-purpose financial statements were prepared on a special-purpose basis of accounting and are not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America. The special-purpose basis of accounting has been used in order to communicate the amount of net assets presently available for current and future claimants of the Trust.

THE BABCOCK & WILCOX COMPANY ASBESTOS PI TRUST

NOTES TO THE SPECIAL-PURPOSE FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

NOTE 1 - DESCRIPTION OF THE TRUST

On February 22, 2000, The Babcock & Wilcox Company (B&W), the related entities of Diamond Power International, Inc., Babcock & Wilcox Construction Co., Inc., Americon, Inc., McDermott International, Inc. a Panamanian corporation (MII), and McDermott Incorporated (collectively, the Debtors), voluntarily filed petitions for reorganizing under Chapter 11 of the United States Bankruptcy Code with the United States Bankruptcy Court for the Eastern District of Louisiana (the Bankruptcy Court). On January 17, 2006, the District Court entered an order (the Confirmation Order) confirming the Joint Plan of Reorganization dated September 28, 2005, as amended through January 17, 2006 (the Confirmed Plan) proposed and filed by the Debtors, the Asbestos Claimants Committee, the Future Asbestos-Related Claimants Committee, and McDermott, Incorporated. The Confirmed Plan became effective on February 22, 2006 (the Effective Date or the Effective Date of the Plan of Reorganization).

The essential elements of the Confirmed Plan include, among other things: the utilization of a qualified settlement fund, in the form of the The Babcock & Wilcox Company Asbestos PI Trust (the Trust), to assume all liabilities and obligations of the Debtors, their predecessors and successors in interest, for all Asbestos PI Trust Claims and Asbestos Property Damage Claims (as defined in the Plan) (collectively, the Asbestos Claims), and to resolve, and provide for the payment in part or in full, of all Asbestos Claims in accordance with procedures established pursuant to the Confirmed Plan.

When formed, the Trust was funded with (a) $350 million in cash received from McDermott International, the parent company of The Babcock & Wilcox Company, (b) asbestos insurance recoveries (as described in Note 6) (c) a $250 million five-year promissory note receivable from McDermott International, and (d) a contingent payment right to receive $355 million within 180 days of November 30, 2006 upon satisfaction of certain conditions precedent, all in consideration for the releases and injunctions described in the Confirmed Plan. Both the $250 million note and the $355 million contingent payment were received in 2006.

The Trustees are responsible for supervising and administering the Trust and to use the Trust's assets and income to pay the holders of all Asbestos Claims in accordance with the Trust Agreement and the Trust Distribution Procedures agreement in such a way that holders of Asbestos Claims are treated fairly, equitably and reasonably in light of the limited assets available to satisfy such claims, and to otherwise comply in all respects with the requirements of a trust set forth in section 524(g)(2)(B) of the Bankruptcy Code.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Trust's financial statements are prepared using special-purpose accounting methods adopted by the Trustees, which differ from accounting principles generally accepted in the United States of America (GAAP). The special-purpose accounting methods were adopted in order to communicate to the beneficiaries of the Trust the net assets available for the payment of claims and the related operating expenses of the Trust. Since the accompanying special-purpose financial statements and transactions are not based upon GAAP, accounting treatment by other parties for these same transactions may differ as to timing and amount. The special-purpose accounting methods include the following:

- Assets are recorded when they are received by the Trust and are available for the payment of asbestos claims.

- Future fixed liabilities under contractual obligations and other agreements entered into by the Trust are recorded as deductions in the same period that such contractual obligations or

agreements are signed. Under GAAP, liabilities and contractual obligations are recorded over the period that is benefited by the underlying contract or agreement.

- The full amount of claims are expensed in the period in which the confirmed claims are settled. A settled claim is a claim that has been allowed by the Trust and accepted by the claimant, with an approved release. Under GAAP, a liability would be recorded for an estimate of the amount to be paid for claims that have been incurred but not yet reported, and for those claims that have been submitted but not yet approved for payment by the Trust.

- Payments for services to be received over an extended period in the future are expensed as paid because these amounts are no longer available for the payment of claims. Under GAAP, an asset would be recorded and amortized over the period in which the related benefits are received.

- Payments for property and equipment are expensed as incurred. Under GAAP, payments for property and equipment are capitalized and depreciated over the useful lives of the assets. To date, the Trust has incurred no expense related to purchases of property and equipment.

- Income tax expense is estimated and recorded as incurred in the period in which certain income and expense items affect current federal income taxes payable. Under GAAP, the provision for income taxes is recorded based upon income reported for financial statement purposes, and includes federal and state income taxes currently payable as well as changes in deferred taxes.

- Asbestos insurance recoveries are not recorded until the funds are received from the insurance carriers. These recoveries come from various insurance settlements, which were obtained by The Babcock & Wilcox Company and related entities and assigned to the Trust. The insurance policies cover, among other things, products and general liability claims. Future recoveries under such settlements, which were assigned to the Trust, will inure to the Trust. Under GAAP, asbestos insurance recoveries are recorded upon settlement and assurance of collectibility.

- Investments are recorded at fair value. All interest and dividend income, net of interest expenses, are included in interest and dividend income in the accompanying special-purpose statements of changes in net assets available for the payment of claims. The net appreciation or depreciation in fair value of investments in the accompanying special-purpose statements of changes in net assets available for the payment of claims consists of realized gains or losses on sales of investments and the change in unrealized gains or losses on investments held. Under GAAP, unrealized gains and losses are recorded as other comprehensive income or loss, with the accumulated balance disclosed separately on the special-purpose statements of assets, liabilities and net assets available for the payment of claims.

Use of estimates

The preparation of financial statements in conformity with the special-purpose accounting methods described above requires the Trust to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the disclosures of contingent assets and liabilities at the date of the special-purpose financial statements, as well as the reported amounts of additions and deductions to the net assets available for the payment of claims during the reporting period. Actual results could differ from those estimates and such differences could have a material effect upon the net assets available for the payment of claims.

Cash equivalents

The Trust considers all highly liquid instruments with original maturities of three months or less to be cash equivalents.

Investments

Investment securities, with the exception of the international equities fund, are stated at fair value based on quoted market prices for identical or similar instruments traded in active markets as of the date of the special-purpose financial statements with the changes in unrealized gains and losses recorded in the current period. Fair value of the international equities fund is based on the Trust's proportionate share of the fund's net assets, as reported by the investee as of the date of the special-purpose financial

statements. Investment income is recognized when earned. Gains and losses on sales of investment securities are determined using the specific identification method.

Accrued expenses and accounts payable

Accrued expenses and accounts payable consist of accruals and outstanding invoices associated with managing the Trust.

Operating expenses

Operating expenses of the Trust are paid from the net assets available for the payment of claims when invoices are received.

Claims processing expenses

Claims processing expenses are paid from net assets available for the payment of claims when invoices are received (see Note 3).

Income taxes

The Trust is classified as a Qualified Settlement Fund pursuant to the Internal Revenue Code and Regulations (the Code) thereunder. As a result the Trust is subject to federal income taxes based on modified gross income, as defined by the Code. In the opinion of the Trustees and advisors, the Trust is not subject to state income taxes and, therefore, the special-purpose financial statements do not include any provision or liability for state income taxes.

Income tax expense is estimated and includes amounts payable or receivable under current federal income taxes.

Risks and uncertainties

The Trust maintains cash balances that may at times exceed federally insured limits. Cash balances are maintained at high-quality financial institutions and the Trust believes the credit risk related to these cash balances is minimal.

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the net assets available for the payment of claims.

Subsequent events

The Trust has evaluated its December 31, 2010 financial statements for subsequent events through April 22, 2011, the date the financial statements were available to be issued. The Trust is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
