FULLER-AUSTIN INSULATION COMPANY, C.A. No. 02-1661 (LPS)

Debtor.

Annual Report of Trustees

Pursuant to Sections 2.2(c)(ii) of that certain Fuller-Austin Asbestos Settlement Trust's Trust Agreement effective as of December 8, 1998 (the "Trust Agreement"), the Trustees of the Fuller-Austin Asbestos Settlement Trust (the "Trust") hereby file required reports as follows (capitalized terms not otherwise defined herein shall be used with the meanings given them in the Trust Agreement):

1. The audited annual financial statements of the Trust for the year ending December 31, 2019.

2. A summary of the number and the type of claims disposed of during 2019.

As required by the Trust Agreement, the Approving Entities and Reorganized Fuller-Austin have been provided copies of these reports.

Executed April 6, 2020.

REPORT OF INDEPENDENT AUDITORS

To the Trustees of Fuller-Austin Asbestos Settlement Trust

We have audited the accompanying consolidated financial statements of the Fuller-Austin Asbestos Settlement Trust (the Trust), which comprise the consolidated statements of fund deficit as of December 31, 2019 and 2018, and the related consolidated statements of changes in fund deficit and changes in investments for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated fund deficit of Fuller-Austin Asbestos Settlement Trust as of December 31, 2019 and 2018, and the consolidated changes in fund deficit and investments for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Notes 1 and 8, the Trust is intended to be self-liquidating. The current year fund deficit includes the Trustee's estimate of the aggregate future liability to arise from Asbestos Claims filed with the Trust, resulting in a substantial deficit.

Restriction on Use

This report is intended solely for the information and use of the Trustees, Management of the Trust, and for filing with the United States District Court for the District of Delaware and should not be used by anyone other than those specified parties. This restriction is not intended to limit distribution of this report, which, upon filing with the United States District Court for the District of Delaware, is a matter of public record.

Note 1 - Description of the Trust

General

Fuller-Austin Asbestos Settlement Trust (the "Trust") was established on December 11, 1998, pursuant to the Order Approving the Disclosure Statement and Confirming the Plan of Reorganization under chapter 11 of the United States Bankruptcy Code for Fuller-Austin Insulation Company (the "Plan") dated November 13, 1998 (the "Confirmation Order"). The Trust was formed to resolve, pursuant to the Plan and Plan documents, the liabilities of Fuller-Austin Insulation Company ("Fuller-Austin"), resulting from known and unknown asbestos disease claims ("Asbestos Claims"), and the pending and threatened litigation related to such claims. The asbestos liabilities of Fuller-Austin and the Trust were established by judgment upon issuance of the Confirmation Order. Asbestos Claims typically allege asbestos-related disease or injury from occupational exposure to asbestos or products that contained asbestos.

Upon formation of the Trust, assets consisting of cash and 100 percent ownership of Fuller-Austin were transferred to the Trust from DynCorp.

Through its ownership of Fuller-Austin, the Trust has the right to reimbursement of Asbestos Claims indemnity and expense under the general liability insurance policies purchased by Fuller-Austin and DynCorp.

Claims

The Trust is intended to be self-liquidating. The Trust's estimated liability is based, in part, on Fuller-Austin's liability that was legally established by confirmation of the Plan and the forecast of the number of claims, by disease, expected to be resolved by the Trust over the next twenty-nine years. The amount of insurance that will ultimately be recovered and available to settle these claims is not currently known. The total number of claims to be filed may result in Allowed Asbestos Claims in excess of the assets and insurance available for repayment, thus resulting in substantially equivalent pro rata payments to all holders of Allowed Asbestos Claims.

The purpose of the Trust is to assume the liabilities of Fuller-Austin, its successors in interest, and their Affiliates, arising from or relating to Asbestos Claims, and to use the Trust's assets and income to pay holders of Allowed Asbestos Claims in accordance with the Confirmation.

Published by AsbestosClaims.Law
asbestosclaims.law/library/13868/9

Note 1 - Description of the Trust – (Continued)

Claims – continued

Through December 31, 2016, the Trust's payment sum percentage was 78%, which was adjusted from 71% on October 17, 2013. During 2017, Trustees, based on the increase in the claim liability forecast by the Trust's experts, reduced the payment sum percentage to 41.6% for all claims paid beginning January 1, 2017. An additional decrease to the payment sum percentage was made in October 2017 to further reduce the payment sum percentage to 16.2%.

Order, Claims Resolution Procedures, and Trust Agreement in such a way that all holders of similar Asbestos Claims are treated in a substantially equivalent manner and to otherwise comply in all respects with the requirements of a trust established pursuant to section 524(g)(2)(B)(I) of the Bankruptcy Code.

The Trustees are responsible for supervising and/or administering the Asbestos Claims resolution process and effectively managing the assets held by the Trust to fund Asbestos Claims liabilities channeled to the Trust by the Confirmation Order.

Termination

Pursuant to the Trust Agreement, the Trust will automatically terminate on the date (the "Termination Date") ninety (90) days after the first to occur of the following events:

- All Asbestos Claims filed have been settled, or otherwise resolved, and twelve months have elapsed during which no new Asbestos Claim has been filed;

- The Trustees have in place irrevocable insurance policies and claims handling agreements (with suitable third parties) both of which have been approved by the court and are adequate to discharge all expected remaining obligations and expenses of the Trust; or

- Twenty-one (21) years less ninety-one (91) days pass after the death of the last survivor of all the descendants of Joseph P. Kennedy, Sr. of Massachusetts living on December 11, 1998.

Note 1 - Description of the Trust – (Continued)

Termination – continued

As provided in Section 7.2(b) of the Trust Agreement, the Termination Date, after payment of all the Trust's liabilities have been provided for, all monies remaining in the Trust estate shall be given to such organization(s) exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code (the "IRC"), which tax-exempt organization(s) shall be selected by the Trustees using their reasonable discretion; provided, however, that (i) if practicable, the tax-exempt organization(s) shall be related to the treatment of, research on or the relief of suffering of individuals suffering from asbestos related lung disorders, and (ii) the tax-exempt organization(s) shall not bear any relationship to Reorganized Fuller-Austin within the meaning of section 468B(d)(3) of the IRC. Notwithstanding any other provision of the Plan Documents, this Article 7.2(b) cannot be modified or amended.

Note 2 - Summary of Significant Accounting Policies

Basis of presentation and consolidation

The consolidated financial statements of the Trust are prepared under the accrual method of accounting and in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The accompanying consolidated financial statements include the Trust and its wholly-owned subsidiary, Fuller-Austin. All significant inter-company transactions and balances have been eliminated.

Subsequent events

The Trust has evaluated events and transactions subsequent to the date of the consolidated financial statements for matters requiring recognition or disclosure in the consolidated financial statements. The accompanying consolidated financial statements consider events through March 30, 2020, the date on which the consolidated financial statements were available to be issued. See Note 9.

Cash and cash equivalents

The Trust considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Note 2 - Summary of Significant Accounting Policies – (Continued)

Investments

Investments are measured at fair value. Changes in fair value are recorded as reductions or increases to the fund balance (deficit). The Trust records securities transactions on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest is recorded on an accrual basis. All investments are considered to be available for sale.

Fair value of investments

The Trust measures its investments at fair value, according to a hierarchy of valuation techniques. The following are the levels of the hierarchy and a brief description of the type of valuation information ("Inputs") that qualifies an investment for each level:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets.

- Level 2 - Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, Inputs that are observable that are not prices (such as interest rates, credit risks, etc.) and Inputs that are derived from or corroborated by observable markets.

- Level 3 - Developed from unobservable data, reflecting the investment manager's assumptions.

When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of financial assets and classify these assets as Level 1. In other cases where a quoted market price for identical assets in an active market is either not consistently available or not observable, fair value is estimated using valuation methodologies based on available and observable market information or a matrix pricing model. These financial assets would then be classified as Level 2. If quoted market prices are not available, fair value is determined using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation. Thus, financial assets may be classified in Level 3 even though there may be some significant inputs that may be readily available.

Published by AsbestosClaims.Law
asbestosclaims.law/library/13868/12

Note 2 - Summary of Significant Accounting Policies – (Continued)

Fair value of investments – continued

From time to time the Trust may hold financial investments where there is no active market or the market is dislocated. When determining the fair value of such investments the valuation depends on facts and circumstances requiring significant management judgment. It is acceptable to use inputs based on management estimates or assumptions, or for management to make adjustments to observable inputs to determine fair value when markets are not active and relevant observable inputs are not available.

Fund balance (deficit)

The initial funding, all other assets received, and all payments made by the Trust are recorded directly to the fund balance (deficit). Estimates of certain liabilities are also recorded directly to the fund balance (deficit) when they become estimable and probable. Portions of the fund balance (deficit) are used to fund the legal and operational expenses of the Trust. The fund balance (deficit) represents current funding available to compensate all present and unknown claimants, as well as the Trustees' estimate of the aggregate liability for Asbestos Claims.

Insurance proceeds and insurance settlements

All, or a portion of, future proceeds to be paid to the Trust through the execution of a settlement agreement with the insurer will be recognized as an accrued receivable if and when all of the following conditions are met:

- The Trust has obtained an executed copy of the settlement agreement.
- Future payments due to the Trust are in settlement of policies that have been exhausted by claims incurred by the Trust, and the terms of settlement can reasonably be assumed to be satisfied.
- The future claims paying ability of the insurer is deemed to be collectible, and the insurer holds a Standard & Poor's rating of AA- or better.

Unless the unpaid amounts due under an insurance settlement qualify as accrued receivables, future payments will be recognized on a cash (as received) basis in the corresponding accounting period.

Claims and claim expenses

Claims and claim expenses are recorded when they can be estimated and are probable.

Published by AsbestosClaims.Law
asbestosclaims.law/library/13868/13

Note 2 - Summary of Significant Accounting Policies – (Continued)

Consolidated statements of changes in investments

The accompanying consolidated statements of changes in investments represent the various inflows and outflows of cash during the reporting periods in order to reconcile the changes in investments at fair value from the beginning to the end of the years then ended on the cash basis.

Concentration of credit risk

Financial instruments, which potentially subject the Trust to concentrations of credit risk, consist primarily of cash equivalents and investments. The Trust maintains cash equivalents at financial institutions it considers to be of high credit quality. At times, the Trust may have cash deposits in banks that exceed federally insured limits. The Trust has not experienced any losses in such accounts and does not believe it is exposed to any significant risk of loss related to cash. The Trust's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and such change could materially affect the value of the Trust's portfolio.

Use of estimates

The preparation of the consolidated financial statements in conformity with GAAP requires the Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of additions and deductions to the fund deficit during the reporting periods. Significant items subject to such estimates and assumptions include the carrying value of accrued asbestos injury claims and fair value of investments. Actual results could differ from those estimates.

Income taxes

Deferred income tax assets and liabilities are determined based upon differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is established when it is more likely than not that the deferred tax assets may not be realized.

Note 2 - Summary of Significant Accounting Policies – (Continued)

Income taxes – continued

The amount of income taxes the Trust pays is subject to ongoing audits by federal authorities. The Trust's estimate of the potential outcome of any uncertain tax issues is subject to the Trustees' assessment of relevant risks, facts, and circumstances existing at that time. The Trust uses a more likely than not threshold for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. To the extent that the Trustees' assessment of such tax position changes, the change in estimate is recorded in the period in which the determination is made. The Trust reports tax-related interest and penalties as a component of income tax expense and operating expenses, respectively.

Note 3 - Claims Resolution

The Asbestos Claims Resolution Procedures ("CRP") was adopted in connection with the Plan. The CRP provides for processing, allowing or disallowing, liquidating, and paying all Asbestos Claims as required by the Plan and the Trust Agreement.

Note 4 - Trust Advisor and Legal Representative

Pursuant to the Plan and the Trust Agreement, two advisory positions were established: the Trust Advisor and the Legal Representative. The Trust Advisor serves in a fiduciary capacity representing all holders of Asbestos Claims, excluding Unknown Asbestos Claimants. The Legal Representative serves in a fiduciary capacity representing the interests of the Unknown Asbestos Claimants, for the purpose of protecting the rights of individuals who may subsequently assert Demands. As required by the Plan and the Trust Agreement, the Trust Advisor and the Legal Representative provide consultative services to the Trustees regarding specific issues affecting the Trust. Additionally, the Plan provides for instances in which the consent of the Trust Advisor and the Legal Representative must be obtained by the Trustees before implementing a decision.

Note 5 - Investments and Fair Value Measurements

The Trust had net unrealized holding gains on investments of $14,591,109 and $1,418,858 at December 31, 2019 and 2018, respectively. The costs and estimated fair values of the Trust's investments are as follows:

	2019		2018	
	Cost	**Fair Value**	Cost	Fair Value
Cash equivalents	$ **864,704**	$ **864,704**	$ 32,090,497	$ 32,090,497
Debt securities	**66,552,134**	**68,203,176**	32,380,901	32,225,471
Equity securities	**34,035,179**	**46,975,246**	33,499,695	35,933,997
Mutual funds	**-**	**-**	7,164,158	6,304,144
	$ **101,452,017**	$ **116,043,126**	$ 105,135,251	$ 106,554,109

The following is a description of the valuation methodologies used for financial assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Cash equivalents

Cash equivalents consist primarily of cash balances and amounts receivable/payable for unsettled securities transactions held/initiated at the clearing brokers of the Trust and money market funds and are carried at cost, which approximates fair value, and are classified as Level 1.

Equity securities

All of the Trust's equity securities are those that are traded on public markets. These securities are classified as Level 1 because quoted prices are available for these securities in an active market.

Published by AsbestosClaims.Law
asbestosclaims.law/library/13868/16

Note 5 - Investments and Fair Value Measurements – (Continued)

Debt securities

The Trust's investments in debt securities do not have quoted market prices. These fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flow and are classified within Level 2 of the valuation hierarchy. These Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states and political subdivisions and certain corporate, asset-backed, and other securities. In certain cases where there is limited activity or less transparency around inputs to the valuation, these securities could be classified within Level 3 of the valuation hierarchy. Currently, all of the Trust's debt securities are considered to be Level 2 securities.

Mutual funds

The Trust's investments in mutual funds are classified as Level 1 because net asset values are calculated and published daily. These funds can be sold in an active market.

Financial assets with changes in fair value that are measured on a recurring basis were as follows at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Cash equivalents	$ **864,704**	$ **-**	$ **-**	$ **864,704**
Debt securities	**-**	**68,203,176**	**-**	**68,203,176**
Equity securities	**46,975,246**	**-**	**-**	**46,975,246**
	$ **47,839,950**	$ **68,203,176**	$ **-**	$ **116,043,126**

Financial assets with changes in fair value that are measured on a recurring basis were as follows at December 31, 2018:

	Level 1	Level 2	Level 3	Total
Cash equivalents	$ 32,090,497	$ -	$ -	$ 32,090,497
Debt securities	-	32,225,471	-	32,225,471
Equity securities	35,933,997	-	-	35,933,997
Mutual funds	6,304,144	-	-	6,304,144
	$ 74,328,638	$ 32,225,471	$ -	$ 106,554,109

Note 6 - Insurance Settlements Receivable

In May 2003, Fuller-Austin executed a settlement agreement with The Home Insurance Company ("Home") in the amount of $2,166,000. Subsequent to the settlement, Home entered into liquidation in New Hampshire. The settlement was confirmed by the Home Liquidator. To date, Home has paid $649,784 based on the current Home payment percentage of 25%. Fuller-Austin expects to receive additional payments over several years as the Home payment percentage is increased. The amount and timing of additional payments is unknown.

In June 2017, Fuller-Austin entered into a settlement agreement with the insolvent London Market estates of OIC Run-Off Limited and London and Overseas Insurance Company Limited (together, the "Companies") to resolve remaining unresolved insurance coverage for which Fuller-Austin was the named insured. This settlement totaled $2,154,030 bringing the aggregate total of settlements with the Companies to $2,265,330. To date, the Companies have paid $1,642,685. Fuller-Austin expects to receive additional payments over several years as the payment percentage is increased. The amount and timing of additional payments is unknown.

Note 7 - Investment in Trust Services, Inc.

The Trust is an owner of Trust Services, Inc. (a Texas corporation) ("TSI") along with the NGC Bodily Injury Trust ("NGC"). Currently, each owner trust, the Trust and NGC, has a one half interest in TSI through the ownership of one share of TSI stock each.

The Trust also has a comprehensive services agreement with TSI which initially expired December 31, 2002, and automatically renews each year thereafter. TSI provides administrative, financial, investment, and claims processing services to the Trust in exchange for a pro-rata reimbursement of TSI's expenses based on an agreed upon allocation methodology.

The Trust has recorded expenses of approximately $617,000 and $555,000 for the years ended December 31, 2019 and 2018, respectively, in connection with the management and services agreement with TSI, which are included in operating and legal expenses in the consolidated statements of changes in fund deficit. The Trust had prepaid expenses with TSI of approximately $48,000 and $59,000 at December 31, 2019 and 2018, respectively.

Note 8 - Accrued Asbestos Injury Claims

The ultimate amount of Asbestos Claims to be filed and the aggregate liability was estimated at inception of the Trust by the Trustees and their experts at $1,332,197,375. This included $6,100,313 in pre-bankruptcy settlements and judgments of which $6,070,313 was subsequently paid and the remaining $30,000 claim was withdrawn in 2007.

The ultimate amount of Asbestos Claims to be filed and the aggregate accrued liability was estimated during 2019 and 2018 by the Trustees and their experts at $482,037,155 and $544,254,789, respectively.

The total amount of accrued asbestos injury claims is composed of the following:

	December 31,	
	2019	2018
Liability for unresolved Asbestos Claims	$ **323,615,000**	$ 398,134,000
Liability for resolved unpaid Asbestos Claims	**158,422,155**	146,120,789
	$ **482,037,155**	$ 544,254,789

During the years ended December 31, 2019 and 2018, the Trustees and their experts decreased the accrued asbestos injury claim liability by $59,417,751 and $105,958,317, respectively, based on current year estimates and projections.

Note 9 - Taxation

The Trust reports its income to the Internal Revenue Service as a designated settlement fund which is taxed at the highest rate applicable to trusts under Section 1(e) of the IRC, which is 37% for the years ending December 31, 2019 and 2018, respectively. For net operating losses (NOLs) created in years beginning after December 31, 2017, the carry forward of NOLs will be limited to a reduction of 80% of modified taxable income without expiration. NOLs prior to January 1, 2018 will carry forward 20 years and there is no limitation in the reduction of modified taxable income.

Published by AsbestosClaims.Law
asbestosclaims.law/library/13868/19

Note 9 - Taxation – (Continued)

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted into law. The CARES Act has a number of changes to U.S. tax laws which includes temporarily repealing certain provisions for tax years beginning before 2021 related to taxable income limitations for NOLs to fully offset taxable income and NOLs arising in 2018, 2019, and 2020 can be carried back five tax years. The Trust has NOLs of approximately $1,608,000 at December 31, 2019 which can be carried back under the CARES Act.

The Trust's federal income tax expense is calculated as follows:

	Years Ended December 31,	
	2019	2018
Modified taxable income (loss)	**$ (1,607,514)**	$ 4,117,503
Tax rate	**37%**	37%
Tax expense (benefit) generated on modified taxable income (loss)	**(594,780)**	1,523,476
True up of prior year estimates	**679,953**	110,015
Deferred income tax expense (benefit)	**4,873,733**	(3,888,913)
Net federal income tax expense (benefit)	**$ 4,958,906**	$ (2,255,422)

The tax effects of temporary differences that give rise to deferred tax assets and liabilities were as follows:

	December 31,	
	2019	2018
Deferred tax asset (liability):		
Net operating loss carryforwards	**$ 594,780**	$ -
Unrealized gain on investments	**(5,398,710)**	(524,977)
Net deferred tax liability	**$ 4,803,930**	$ (524,977)

The Trust has not recognized any income tax liability or expense related to the review of uncertain tax positions.
